Smith,Samantha Sellinger,2003-03-17 At a time when campaign finance reform is widely viewed as synonymous with cleaning up Washington and promoting political equality Bradley Smith a nationally recognized expert on campaign finance reform argues that all restriction on campaign giving should be eliminated In Unfree Speech he presents a bold convincing argument for the repeal of laws that regulate political spending and contributions contending that they violate the right to free speech and ultimately diminish citizens power Smith demonstrates that these laws which often force ordinary people making modest contributions of cash or labor to register with the Federal Election Commission or various state agencies fail to accomplish their stated objectives In fact they have worked to entrench incumbents in office deaden campaign discourse burden grassroots political activity with needless regulation and distance Americans from an increasingly professional detached political class Rather than attempting to plug loopholes in campaign finance law or instituting taxpayer financed campaigns Smith proposes a return to core First Amendment values of free speech and an unfettered right to engage in political activity Smith finds that campaign contributions have little corrupting effect on the legislature and shows that an unrestrained system of contributions and spending actually enhances equality More money not less is needed in the political system Smith concludes Unfree Speech draws upon constitutional law and historical research to explain why campaign finance regulation is doomed and to illustrate the potentially drastic costs of efforts to make it succeed Whatever one thinks about the impact of money on electoral politics no one should take a final stand without reading Smith s controversial and important arguments      **The Holy Bible, According to the Authorized Version (A.D. 1611)** Frederic Charles Cook,1881
