Rabelais François Rabelais, 1991 Presents the complete works of French writer François Rabelais Rabelais's Radical Farce E. Bruce Hayes, 2016-05-23 In the first extended investigation of the importance of dramatic farce in Rabelais studies Bruce Hayes makes an important contribution to the understanding of the theater of farce and its literary possibilities By tracing the development of farce in late medieval and Renaissance comedic theater in comparison to the evolution of farce in Rabelais's work Hayes distinguishes Rabelais's use of the device from traditional farce While traditional farce is primarily conservative in its aims with an emphasis on maintaining the status quo Rabelais puts farce to radical new uses making it subversive in his own work Bruce Hayes examines the use of farce in *Pantagruel* *Gargantua* and the *Tiers* and *Quart livres* showing how Rabelais recast farce in a humanist context making it a vehicle for attacking the status quo and posing alternatives to contemporary legal educational and theological systems Rabelais's *Radical Farce* illustrates the rich possibilities of a genre often considered simplistic and unsophisticated disclosing how Rabelais in fact introduced both a radical reformulation of farce and a new form of humanist satire

Literature and Nation in the Sixteenth Century

Timothy Hampton, 2018-10-18 Assessing the relationship between the emergence of modern French literary culture and the ideological debates that marked Renaissance France Timothy Hampton explores the role of literary form in shaping national identity The foundational texts of modern French literature were produced during a period of unprecedented struggle over the meaning of community In the face of religious heresy political threats from abroad and new forms of cultural diversity Renaissance French culture confronted in new and urgent ways the question of what it means to be French Hampton shows how conflicts between different concepts of community were mediated symbolically through the genesis of new literary forms Hampton's analysis of works by Rabelais Montaigne Du Bellay and Marguerite de Navarre as well as writings by lesser known poets pamphleteers and political philosophers shows that the vulnerability of France and the instability of French identity were pervasive cultural themes during this period Contemporary scholarship on nation building in early modern Europe has emphasized the importance of centralized power and the rise of absolute monarchy Hampton offers a counterargument demonstrating that both community and national identity in Renaissance France were defined through a dialogic relationship to that which was not French to the foreigner the stranger the intruder from abroad He provides both a methodological challenge to traditional cultural history and a new consideration of the role of literature in the definition of the nation

Etudes rabelaisiennes, 1985 A Feast of Words Michel Jeanneret, 1991-10-08 The banquet gives rise to a special moment when thought and the senses words and food enhance each other Throughout history the ideal of the symposium has reconciled the angel and the beast in the human renewing the interdependence between the mouth that speaks and the mouth that eats Michel Jeanneret's lively book explores the paradigm of the banquet as a guide to significant tendencies in Renaissance Humanist culture and shows how this culture in turn illuminates the tensions between physical and mental pleasures Ranging widely over French Italian German and Latin texts Jeanneret not only investigates the meal as

a narrative artefact but enquires as well into aspects of sixteenth century anthropology and aesthetics
