 Samuel Kinser, 2024-03-29 How is it possible after four centuries that a major episode in Rabelais s novels remains  
 systematically misread The episode which playfully and grotesquely treats the relation of Carnival to Lent occurs in Rabelais  
 s Fourth Book his last and most artfully crafted novel Samuel Kinser argues that the text has been distorted because critics  
 have not attended to the episode s performative as well as literary contexts overlooking the innovative use Rabelais made in  
 his work of his immediate world In this original interpretation of the Fourth Book Kinser evokes the gestures games and  
 visual oral bodily semantics of Carnival and Lent as they were performed in Rabelais s day He also underscores the  
 importance to Rabelais of the invention of printing an innovation which revolutionized the relationships of author and reader  
 Understanding this and fearing it Rabelais adopted an extraordinary set of disguises as an author disguises which in their  
 bewildering interplay constitute the truest sense of his carnival This title is part of UC Press s Voices Revived program which  
 commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice  
 reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship

**Individual** , 2022-05-20 One of the most noticeable features of the Renaissance is what Jacob Burckhardt called the rise of  
 the individual in politics and religion in its social life and in the arts and in the mentality of Renaissance man with his  
 inclination to explore to invent and to make new discoveries Yet this characteristic is also very puzzling to modern people  
 who see that although the categories of art which depict particular people increased to a spectacular degree in a period  
 when biography and portrait painting were among the most popular genres and autobiography began to emerge as a genre in

itself and painters began to produce self portraits an interest individuals is not necessarily the same thing as the more recent interest in the purely personal aspects of individuals Literary and artistic traditions social and ideological backgrounds and the motives for the production of literature have changed profoundly Renaissance biography and autobiography portraiture and self portraiture have little to do with their modern counterparts Therefore this book stresses that the Renaissance is not predominantly a mirror of modernity but rather a period of stimulating difference or alterity The contributors to this collection of essays aim to create a better understanding of Renaissance biographies and portraits through the analysis and reconstruction of the traditions contexts backgrounds and circumstances of their production

#### **Distant Voices Still Heard**

John O'Brien, Malcolm Quainton, 2000-11-01 This book seeks to satisfy a pedagogical need It is designed for the new graduate student in England and elsewhere although it may profitably be used by the enterprising final year undergraduate Its aim is to introduce the modern student to readings of French Renaissance literature drawing on the perspectives of contemporary literary theories The volume is organised by paired readings of five major sixteenth century French writers with interpretations covering among others structuralism semiotics feminism and psychoanalysis Linking these interpretations is a constant interest in problems such as the role of the reader the nature of the text and the question of gender The Introduction contextualises the encounter between literary theory and Renaissance texts by using the contributions as pivotal points in the development of critical thinking about this period in early modern literature All foreign language quotations are translated into English and the book is intended to be of practical interest to a wide range of readers from modern linguists to those studying critical theory comparative literature or cultural history

#### **Birthing Bodies in Early Modern France**

Kirk D. Read, 2016-04-15 The pregnant birthing and nurturing body is a recurring topos in early modern French literature Such bodies often metaphors for issues and anxieties obtaining to the gendered control of social and political institutions acquired much of their descriptive power from contemporaneous medical and scientific discourse In this study Kirk Read brings together literary and medical texts that represent a range of views from lyric poets satirists and polemicists to midwives and surgeons all of whom explore the popular sixteenth and early seventeenth century narratives of birth in France Although the rhetoric of birthing was widely used strategies and negotiations depended upon sex and gender this study considers the male female and hermaphroditic experience offering both an analysis of women s experiences to be sure but also opening onto the perspectives of non female birthers and their place in the social and political climate of early modern France The writers explored include Rabelais Madeleine and Catherine Des Roches Louise Boursier Pierre de Ronsard Pierre Boaistuau and Jacques Duval Read also explores the implications of the metaphorical use of reproduction such as the presentation of literary work as offspring and the poet mentor relationship as that of a suckling child Foregrounded in the study are the questions of what it means for women to embrace biological and literary reproduction and how male appropriation of the birthing body influences the mission of creating new literary traditions Furthermore by exploring the

cases of indeterminate birthing entities and the social anxiety that informs them Read complicates the binarisms at work in the vexed terrain of sexuality sex and gender in this period Ultimately Read considers how the narrative of birth produces historical conceptions of identity authority and gender Less Rightly Said Antonia Szabari,2009-10-23 Well known scholars and poets living in sixteenth century France including Erasmus Ronsard Calvin and Rabelais promoted elite satire that corrected vices but spared the person yet this period torn apart by religious differences also saw the rise of a much cruder personal satire that aimed at converting readers to its ideological religious and increasingly political ideas By focusing on popular pamphlets along with more canonical works Less Rightly Said shows that the satirists did not simply renounce the moral ideal of elite humanist scholarship but rather transmitted and manipulated that scholarship according to their ideological needs Szabari identifies the emergence of a political genre that provides us with a more thorough understanding of the culture of printing and reading of the political function of invectives and of the general role of dissensus in early modern French society **Utopia, Carnival, and Commonwealth in Renaissance England** Christopher

Kendrick,2004-01-01 With the emergence of utopia as a cultural genre in the sixteenth century a dual understanding of alternative societies as either political or literary took shape In *Utopia Carnival and Commonwealth in Renaissance England* Christopher Kendrick argues that the chief cultural discursive conditions of this development are to be found in the practice of carnivalesque satire and in the attempt to construct a valid commonwealth ideology Meanwhile the enabling social political condition of the new utopian writing is the existence of a social class of smallholders whose unevenly developed character prevents it from attaining political power equivalent to its social weight In a detailed reading of Thomas More's *Utopia* Kendrick argues that the uncanny dislocations the incongruities and blank spots often remarked upon in Book II's description of Utopian society amount to a way of discovering uneven development and that the appeal of Utopian communism stems from its answering the desire of the smallholding class in which are to be numbered European humanists for unity and power Subsequent chapters on Rabelais Nashe Marlowe Bacon Shakespeare and others show how the utopian form engages with its two chief discursive preconditions carnival and commonwealth ideologies while reflecting the history of uneven development and the smallholding class *Utopia Carnival and Commonwealth in Renaissance England* makes a novel case for the social and cultural significance of Renaissance utopian writing and of the modern utopia in general

**Agents without Empire** Antónia Szabari,2024-03-05 It is well known that Renaissance culture gave an empowering role to the individual and thereby to agency But how does race factor into this culture of empowerment Canonical French authors like Rabelais and Montaigne have been celebrated for their flexible worldviews and interest in the difference of non French cultures both inside and outside of Europe As a result this period in French cultural history has come to be valued as an exceptional era of cultural opening toward others *Agents without Empire* shows that such a celebration is at the very least problematic Szabari argues that before the rise of the French colonial empire medieval categories of race based on the

redemption story were recast through accounts of the Ottoman Empire that were made accessible in a sudden and unprecedented manner to agents of the French crown Spying performed by Frenchmen in the Ottoman Empire in the sixteenth century permeated French culture in large part because those who spied also worked as knowledge producers propagandists and artists The practice changed what it meant to be cultured and elite by creating new avenues of race and gender specific consumption for French and European men that affected all areas of sophisticated culture including literature politics prints dressing personal hygiene and leisure Agents without Empire explores race making in this period of European history in the context of diplomatic reposts travel accounts natural history propaganda religious literature poetry theater fiction and cheap print It intervenes in conversations in whiteness studies race theory theories of agency and matter and the history of diplomacy and spying to offer a new account of race making in early modern Europe **French Global** Christie McDonald, Susan Suleiman, 2010-10-25 Recasting French literary history in terms of the cultures and peoples that interacted within and outside of France's national boundaries this volume offers a new way of looking at the history of a national literature along with a truly global and contemporary understanding of language literature and culture The relationship between France's national territory and other regions of the world where French is spoken and written most of them former colonies has long been central to discussions of Francophonie Boldly expanding such discussions to the whole range of French literature the essays in this volume explore spaces mobilities and multiplicities from the Middle Ages to today They rethink literary history not in terms of national boundaries as traditional literary histories have done but in terms of a global paradigm that emphasizes border crossings and encounters with others Contributors offer new ways of reading canonical texts and considering other texts that are not part of the traditional canon By emphasizing diverse conceptions of language text space and nation these essays establish a model approach that remains sensitive to the specificities of time and place and to the theoretical concerns informing the study of national literatures in the twenty first century **Montaigne and Brief Narrative Form** D. Losse, 2013-06-11 The first book length study to trace the origins of the essay to the conte Montaigne and Brief Narrative Form puts the reader in touch with how unstable times and exceptional artistic insights transform one genre to create a new artistic form
