## **Race And Ethnic Conflict Contending Views On Prejudice And Ethnoviolence:**

**Race And Ethnic Conflict** Fred L. Pincus, Howard J. Ehrlich, 1994      **Race and Ethnic Conflict** Fred L. Pincus, Howard J. Ehrlich, 2019-09-05 In the revised and updated second edition of this comprehensive book the first anthology to integrate social psychological literature on prejudice with sociological and historical investigations contributors introduce readers to the key debates and principal writings on racial and ethnic conflict representing conservative liberal and radical positions Presented in debate format each section offers a provocative discussion of contemporary problems and issues allowing students to take part in the controversies from an informed perspective The editors introductions provide current data and describe cutting edge arguments that are reshaping the study of race and ethnicity today The second edition boasts new readings which serve to further enhance the dialogue on America s continuing struggle with racial issues Contributors tackle a wide array of issues which plague the country today from discrimination and immigration to education and politics and ask how we can affect change as we move into the twenty first century      **Ethnicity, Nationalism and Conflict in and After the Soviet Union** Valery Tishkov, 1997 Valery Tishkov is a well known Russian historian and anthropologist and former Minister of Nationalities in Yeltsin s government This book draws on his inside knowledge of major events and extensive primary research Tishkov argues that ethnicity has a multifaceted role it is the most accessible basis for political mobilization a means of controlling power and resources in a transforming society and therapy for the great trauma suffered by individuals and groups under previous regimes This complexity helps explain the contradictory nature and outcomes of public ethnic policies based on a doctrine of ethno nationalism      **Violence on Campus** Allan Michael Hoffman, John H. Schuh, Robert H. Fenske, 1998 This unique book addresses violence on campus and its impact on America s colleges and universities from a practical management perspective Each chapter builds on a theoretical base to provide guidance strategies and a multidisciplinary approach to successfully dealing with this growing issue Nearly 400 pages Violence on Campus is a unique blend of in depth research and actual case studies of programs that have been employed to reduce on campus violent crime If you re like most people you re being asked to handle more than ever before But chances are you re being asked to do it with the same or even fewer resources Violence on Campus Defining the Problems Strategies for Action is a vital tool to help you do your job better      *Racial Conflicts and Violence in the Labor Market* Cliff Brown, 2014-01-09 This book focuses on community level race relations during the 1919 Steel Strike when intense job competition contributed to racial conflict among the nation s steel workers As the Great Migration brought thousands of black workers to northern cities their lower labor costs generated racially split labor markets in the industrial sector Further the discriminatory policies of labor unions forced many blacks to serve as strike breakers during periods of class conflict As a result the migration heightened racial conflict and undercut important union organizing initiatives The 1919 Steel Strike illustrates how racial divisions crippled many American unions a pattern that helps to explain the demise of organized labor during the 1920 s No

previous studies of the 1919 Steel Strike have systematically compared community processes to determine how local events shaped the strike's outcome. Despite the failure of the 1919 Steel Strike, the varied experiences of workers in different communities reveal much about the causes of racial conflict and the possibilities of interracial solidarity. This study finds that patterns of black migration, local government repression of labor, the organizational strength of local unions, and employers' efforts to inflame racial tension all help to explain community-level variation in interracial solidarity and conflict. Ph.D. dissertation, Emory University, 1996, revised with new preface.

*Beyond All Reason* Daniel A. Farber, Suzanna Sherry, 1997-10-30. Would you want to be operated on by a surgeon trained at a medical school that did not evaluate its students? Would you want to fly in a plane designed by people convinced that the laws of physics are socially constructed? Would you want to be tried by a legal system indifferent to the distinction between fact and fiction? These questions may seem absurd, but these are theories being seriously advanced by radical multiculturalists that force us to ask them. These scholars assert that such concepts as truth and merit are inextricably racist and sexist; that reason and objectivity are merely sophisticated masks for ideological bias; and that reality itself is nothing more than a socially constructed mechanism for preserving the power of the ruling elite. In *Beyond All Reason*, liberal legal scholars Daniel A. Farber and Suzanna Sherry mount the first systematic critique of radical multiculturalism as a form of legal scholarship. Beginning with an incisive overview of the origins and basic tenets of radical multiculturalism, the authors critically examine the work of Derrick Bell, Catherine MacKinnon, Patricia Williams, and Richard Delgado and explore the alarming implications of their theories. Farber and Sherry push these theories to their logical conclusions and show that radical multiculturalism is destructive of the very goals it wishes to affirm. If, for example, the concept of advancement based on merit is fraudulent as the multiculturalists claim, the disproportionate success of Jews and Asians in our culture becomes difficult to explain without opening the door to age-old anti-Semitic and racist stereotypes. If historical and scientific truths are entirely relative social constructs, then Holocaust denial becomes merely a matter of perspective, and Creationism has as much validity as evolution. The authors go on to show that, rather than promoting more dialogue, the radical multiculturalist preferences for legal storytelling and identity politics over reasoned argument produces an insular set of positions that resist open debate. Indeed, radical multiculturalists cannot critically examine each other's ideas without incurring vehement accusations of racism and sexism; much less engage in fruitful discussion with a mainstream that does not share their assumptions. Here again, Farber and Sherry show that the end result of such thinking is not freedom but a kind of totalitarianism where dissent cannot be tolerated and only the naked will to power remains to settle differences. Sharply written and brilliantly argued, this book is itself a model of the kind of clarity, civility, and dispassionate critical thinking which the authors seek to preserve from the attacks of the radical multiculturalists. With far-reaching implications for such issues as government control of hate speech and pornography, affirmative action, legal reform, and the fate of all minorities, *Beyond All Reason* is a provocative contribution to one of the most important

controversies of our time      Political Campaign Communication Robert E. Denton Jr.,2017-06-14 Political Campaign Communication Theory Method and Practice brings a diversity of issues topics and events on political campaign communication around the concepts of theory method and practice The volume contains studies of political campaign communication utilizing a wide range of empirical rhetorical content analyses and social science methodologies as well as a variety of foci on the practice of political campaign communication with studies on the communication dimensions and elements of political campaigns It reflects the growing depth breadth and maturity of the discipline and provides insight into a variety of topics related to political campaign communication      Discrimination at Work Robert L. Dipboye,Adrienne Colella,2013-06-17 This volume brings together top scholars in industrial and organizational psychology with social psychologists to explore the research and theory relating to various areas of workplace discrimination Many of the contributors to this book participated in a conference on workplace discrimination held at Rice University in May 2000 The idea came from the realization that there had been no attempt to bring together the various literatures on the topic Discrimination and issues of employment diversity are significant topics today in IO psychology business and human resource management This edited volume examines the following components of this important discussion how to explain discrimination in organizations understanding discrimination against specific groups and implications for practical efforts to reduce discrimination This book brings together in one volume a review of the research on discrimination based on race age sexual orientation gender physical appearance disability and personality In addition it explores the multilevel antecedents and potential bases for a general model of discrimination in the workplace While social psychological research and theory have provided invaluable insights an understanding of discrimination in the workplace and solutions will require incorporating factors at the organizational level in addition to factors at the individual and group levels Although a definitive model is not reached the aim of this text is to facilitate future research and theory      *Challenging the Stigma of Mental Illness* Patrick W. Corrigan,David Roe,Hector W. H. Tsang,2011-02-14 Challenging the Stigma of Mental Illness offers practical strategies for addressing the harmful effects of stigma attached to mental illness It considers both major forms of stigma public stigma which is prejudice and discrimination endorsed by the general population and self stigma the loss of self esteem and efficacy that occurs when an individual internalizes prejudice and discrimination Invaluable guide for professionals and volunteers working in any capacity to challenge discrimination against mental illness Contains practical worksheets and intervention guidelines to facilitate the implementation of specific anti stigma approaches Authors are highly experienced and respected experts in the field of mental illness stigma research      **Proof, Evidence and Hate Crime** Tshepo Bogosi Mosaka,2025-07-18 Proof is the property of a disputed fact being established inferentially from an extant fact This book explicates the structural components of this phenomenon in the context of hate crimes across various jurisdictions around the world It departs from the orthodox conception of evidence and proof as being a general value neutral or non

normative and epistemic subject and offers a relativistic conception of this area of law The core argument is that proof is both semantically and methodologically determined by three conditions of materiality process and probativity This argument is then justified by the context specific application of this relativistic theory of proof to hate crimes This theoretical application of proof is sustained throughout the book using multiple examples and illustrations of hate crimes around the world The discussion both at the level of proof and hate crimes while focusing on the grounds of race religion and ethnicity specifically is framed in jurisprudential cross jurisdictional and interdisciplinary terms The book will be of interest to academics and researchers working in the areas of criminal law legal philosophy and procedural law      **The Oxford**

Figueroa,2023-07-03 Latino males are effectively vanishing from the American higher education pipeline Even as the number of Latinas/os attending college has actually increased steadily over the last few decades the proportional representation of Latino males continues to slide relative to their Latina female counterparts The question of why Latino males are losing ground in accessing higher education relative to their peers is an important and complex one and it lies at the heart of this book There are several broad themes highlighted catalogued along with the four dimensions of policy theory research and practice The contributors to this book present new research on factors that inhibit or promote Latino success in both four year institutions and community colleges in order to inform both policy and practice They explore the social cultural factors peer dynamics and labor force demands that may be perpetuating the growing gender gap and consider what lessons can be learned from research on the success of Latinas This book also closely examines key practices that enable first generation Latino male undergraduates to succeed which may seem counterintuitive to institutional expectations and preconceived notions of student behavior Using narrative data the book also explores the role of family in persistence outlines how Latino men conceptualize fulfilling expectations negotiate the emasculation of the educational process and how they confront racialization in the pursuit of a higher education uncovers attitudes to help seeking that are detrimental to their success and analyzes how those who succeed and progress in college apply their social capital whether aspirational navigational social linguistic familial or resistant While uncovering the lack of awareness at all levels of our colleges and universities about the depth and severity of the challenges facing Latino males this book provides the foundation for rethinking policy challenges leaders to institutionalize male focused programs and services and presents data to inform needed changes in practice for outreach and retention      **America Becoming** National

**Academic Profiling** Gilda L. Ochoa,2013-10-01 Today the achievement gap is hotly debated among pundits politicians and educators In particular this conversation often focuses on the two fastest growing demographic groups in the United States Asian Americans and Latinos In Academic Profiling Gilda L Ochoa addresses this so called gap by going directly to the source At one California public high school where the controversy is lived every day Ochoa turns to the students teachers and parents to learn about the very real disparities in opportunity status treatment and assumptions that lead to more than just gaps in achievement In candid and at times heart wrenching detail the students tell stories of encouragement and neglect on their paths to graduation Separated by unequal middle schools and curriculum tracking they are divided by race class and gender While those channeled into an International Baccalaureate Program boast about Socratic classes and stress release sessions students left out of such programs commonly describe uninspired teaching and inaccessible counseling Students unequally labeled encounter differential policing and assumptions based on their abilities disparities compounded by the growth in the private tutoring industry that favors the already economically privileged Despite the entrenched inequality in today s schools Academic Profiling finds hope in the many ways students and teachers are affirming identities creating alternative spaces

and fostering critical consciousness When Ochoa shares the results of her research with the high school we see the new possibilities and limits of change
