The Logical Choice G. Cohail, 2013-04-29 The Logical Choice is a great piece of work. Well done Ed Watts. If the challenge of picking the winner in every race is what motivates you when it comes to horse racing this book is not directed at you though there are insights within its pages that may help you with your endeavors. The sections on Beyer Speed Figures track variants how to calculate more accurate running times and how to find 59% winners and still lose money are more than worth the price of this book. However if your interest is in making money while betting on horse races you need to face facts. Playing favorites is financial ruin in the making yet most people 72.7% in 2010 end up wagering on the three horses with the lowest odds in race after race. Unfortunately you cannot make long term profits betting on such horses. You need to find horses that pay you 16/60 27/40 18/80 etc what the author calls Value Plays if you want to make money. This book will show you how he manages to do so. Professional handicapper G W Cohail has handicapped horse races for over fifty years. In the pages of this book he challenges many aspects of traditional handicapping others take for granted and often swear by including the revered Beyer Speed Figures par times daily track variants etc. He then demonstrates how he successfully bets on horse races with making money not picking winners as his primary goal. Mr Cohail spent decades handicapping races in a traditional way always looking to zero in on the winner. He considered himself a top notch handicapper and he averaged 38% winners two years in a row. Yet he never made a lot of money from his handicapping skills. Luckily he never lost the rent money either. Then one day while watching the tote board his life changed forever. Is it possible to wager on horse races and win?

The Logical Choice Tote Board Handicapping Made Easy provides insights into wagering for profit. The concepts presented in this work are usable by anyone whether they be an experienced handicapper or a budding novice. In many respects not knowing how to handicap races makes you a better candidate as the less you think you know about handicapping the less you will have to unlearn.

The Horseracing Formula, This powerful book by turf authority Walter Gibson shows experienced and novice handicappers how to profit by using winning strategies to beat the horses. This repackaged edition shows bettors learn how to analyze their real winning chances when playing favorites middles odds and longshots and the proper formula they need to win by betting each group. Twenty five winning strategies are presented in seven concise chapters teaching horse goers how to find the best bets in a race the middle odds and overlays the weight factor playing longshots progressive betting systems and the daily double giving readers comprehensive coverage of picking winning horses. A classic with plenty of no nonsense information.
