Race Sex And Policy Problems:

Race, Sex, and Policy Problems Marian Lief Palley, Michael B. Preston, 1979 **Encyclopedia of Policy Studies, Second Edition** Stuart Nagel, 2020-08-18 This entirely updated and enlarged Second Edition of a landmark reference text continues to provide comprehensive coverage of every important aspect of policy studies discussing concepts methods utilization formation and implementation both internationally and across each level of government **Resources in Women's Educational Equity**, 1980 Literature cited in AGRICOLA Dissertations abstracts international ERIC ABI INFORM MEDLARS NTIS Psychological abstracts and Sociological abstracts Selection focuses on education legal aspects career aspects sex differences lifestyle and health Common format bibliographical information descriptors and abstracts and ERIC subject terms used throughout Contains order information Subject author indexes *Policy Discourses, Gender, and Education* Elizabeth J. Allan, 2012-10-12 Despite over thirty years of activism and legislation to eliminate discrimination parity has yet to be achieved for women in academe This book describes policy discourse analysis as a framework for considering how those involved in policy making efforts may make use of discourses that inadvertently undermine the intended effect of the policies they set forth Allan illustrates the methods of policy discourse analysis by describing their use in a study of twenty one women s commission reports In so doing she highlights the important work of university women s commissions while uncovering policy silences and making visible the powerful discourses framing gender equity policy initiatives in higher education Her findings reveals how dominant discourses of femininity access professionalism race and sexuality contribute to constructing women s status in complex and at times contradictory ways This important volume will interest researchers across a number of disciplines including policy studies educational leadership higher education and cultural studies of education *Handbook of Public Policy Evaluation* Stuart S. Nagel, 2002 This handbook deals with many aspects of public policy evaluation including methods examples professionalism studies perspectives concepts substance theory applications dispute resolution interdisciplinary interaction *Policy Issues for the Elderly Poor*, 1981 *The Dynamics of Opportunity in America* Irwin Kirsch, Henry Braun, 2016-01-22 Across the country our children are beginning life from very different starting points Some have aspirations and believe they can be achieved For too many others aspirations are tempered if not dashed by the sobering realities of everyday life These different starting points place children on distinctly different trajectories of growth and development ultimately leading to vastly different adult outcomes How did we get to a place where circumstances of birth have become so determinative And what must we do within communities and across our country to better equalize opportunity for more Americans both young and old The editors of this volume contend that if as a nation we do nothing then we will continue to drift apart placing an unsustainable strain on the nation s social fabric and the character of its democracy Consequently understanding the dynamics governing the distribution and transmission of opportunity and transforming this understanding into policies and programs is critical for not only the life outcomes of individual Americans

and their children but also the country as a whole The goal of Educational Testing Service's Opportunity in America initiative is to explore these powerful dynamics and to describe and convey them in a way that advances the national conversation about why we must take action and how best to do so This volume contains 14 chapters including an epilogue written by leaders from a range of fields including education economics demography and political science Collectively they not only illuminate key aspects of the problem but also offer suggestions of what policies programs and changes in practices could begin to reverse the trends we are seeing Written in an engaging style this volume constitutes an essential foundation for informed discussion and strategic analysis

The Global Political Economy of Sex: Desire, Violence, and Insecurity in Mediterranean Nation States A. Agathangelou, 2004-10-14 At the intersection of the warmth of hearth and home and the dangers of the street lies the tenuous position of women engaged in reproductive labour those involved in the sex trade and those in domestic positions These are women who are vulnerable exploited and whose dirty work allows for the reproduction of traditional social mores and roles Yet while they are used to sustain tradition dialectically they reflect the hyperconnections of globalization through the migration of women the development of placement agencies that often are little but fronts for transnational crime and the transfer of money from the developed countries to the oppressed world This book focuses on the interaction of the global and the local through a close investigation of the political economy of desire and reproduction in three states that blur the line between developed and developing Greece Turkey and Cyprus These are countries at the crossroads in flux whose peripheral siting at the centre of global capitalism provides unusual insight into the dark recesses of patriarchy paternalism and exploitation

The Dark Side of Families David Finkelhor, 1983-03 This series of articles portrays the state of the art on family violence and abuse research crystallizes the key interdisciplinary issues confronting family violence and abuse researchers and suggests a research agenda for the coming years Although the chapters cover a broad spectrum of issues and controversies in the areas of wife abuse child abuse the sexual abuse of children and marital rape a number of common themes and issues emerge First many chapters share the perspective that violence and abuse emerge from the nature of social arrangements Second even though many different forms of family violence and abuse are discussed several chapters explore their commonalities and important etiological differences A number of articles examine the common effects of victimization across various forms of family violence and abuse A third common theme of the papers is an expansion of research efforts to groups other than victims of family violence and abuse as there are chapters that examine the individual and social characteristics of male perpetrators of both wife abuse and child abuse as well as chapters that focus on the attitudes and behaviors of professional groups concerned with the treatment of victims of family violence and abuse The volume shows great methodological diversity and attention to theoretical detail the research presented reveals the possibility of a more comprehensive social science approach to the study of family violence and abuse In work related to theory building one chapter explains a number of findings in the child abuse and neglect

literature using propositions derived from evolutionary biology another paper distills propositions from several theoretical traditions In conjunction with these efforts several chapters report research designed to test competing propositions Chapter references and research data are provided

The Integration and Protection of Immigrants Paul Van Aerschot, Patricia Daenzer, 2016-02-24 In Scandinavian countries immigration is a sensitive issue and legislators approach to the questions it has raised has varied over the years Whatever immigrant and integration policies are adopted in a democratic society it is clear that the legislation and the authorities have to ensure that the individual rights of the immigrants residing in its territory are respected With Canada as a point of reference this book draws attention to weaknesses in the regulation and implementation of integration provisions threatening the immigrants individual rights in the EU member states of Denmark Finland and Sweden The study challenges readers to critically review the meaning of rights and the notion of global caring It takes a critical look at how vulnerable immigrants fare in a largely immigrant nation with a welfare capitalism legacy when compared to three European nations which claim to embrace institutional welfare models This book will be of great interest to scholars and decision makers interested in Scandinavian or Canadian immigration and integration policies
