Race And Class The Dialectics Of Justice:

The Dialectics of Global Justice Bryant William Sculos, 2022-07-01 The Dialectics of Global Justice uses a novel application of negative dialectical interpretation to offer an immanent and ethical critique of prominent theories of global justice i.e cosmopolitanism including how these theories manifest in political movements and policy agendas Drawing on the work of Theodor Adorno and Erich Fromm especially author Bryant William Sculos exposes the contradictory relationship between cosmopolitanism and core elements of capitalism particularly the domineering capitalistic mentality re produced by and through capitalism leading to the conclusion that cosmopolitanism on its own terms demands an alternative postcapitalistic political basis in order to make robust progress toward global justice While offering this critique Sculos also implicitly challenges the increasingly common view that cosmopolitanism today is inherently imperialistic and out of touch with the global resurgence of nationalism and anti cosmopolitan sentiment

Black Women and The Criminal Justice System Biko Agozino, 2018-12-14 First published in 1997 this book identifies the problems that face black women in the criminal justice system as the result of the articulation of unequal and oppressive class race and gender relations the research aims to be aware of all three rather than prioritising isolating or reducing one or two of these relations The focus of this research primarily on black women is based on the belief that they are marginalised in both society and criminological research Black women are poorly represented in education employment the professions commerce industry and politics while in prison their presence is highly disproportionate to their wider numbers in society The author examines the problems facing black women and compares these with those facing black men and white women to demonstrate the articulation of social relations He addresses the structural positions of black women in society their social relations and the nature of the institutional practices of the criminal justice system

Importantly this book illustrates the power of writing for different audiences by placing scholarly essays alongside those written for teachers, parents and community members while also linking educational activism with educational research. In addition to providing a broad examination of the politics of curriculum and educational policy in America, Book Features Written by an internationally known scholar in the areas of curriculum, multicultural and antiracist education, high stakes testing and neoliberal reforms, racial justice and critical education. Provides a model for how to translate educational research and analysis between academic and public discourses embodying the intersections of theory, practice and justice. Combines searing political analysis of education with the hope offered through activism, solidarity and educational justice.

Identity, Diversity and Teaching for Social Justice Juliet Perumal, 2007. In recent times, educational reformers have proposed ways of using education to reduce inequality, overcome discriminatory values and attitudes and alleviate social problems. An increasing number of language theorists and practitioners contends that in order to reduce inequality it is essential to address the personal, cultural and political implications of language teaching. Awareness of these factors activates the need to gain deeper insight into the personal and professional nuances of teachers' lives. The gap between sociolinguistic theory and educational practice points to the fact that linguists and educationists themselves carry the prejudices of particular social, ideological, cultural and geographical backgrounds. Who teaches what to whom, why and how affects curricular decisions which can thus become fraught with political allegiances. In this way, the non-neutrality of language pedagogy is confirmed. Drawing from a suite of data sources, the book explores the following questions: Do teachers' autobiographical experiences shape their professional identities? Does subscription to counter-hegemonic ideologies impact teachers' personal and professional positionality and authority? What contributions can feminist theorising make to language teaching in socially diverse classrooms? Through an exploration of these questions, the book gestures towards an imperative to re-think educative and pedagogic relationships and the politics of difference and dialogue in demographically diverse classrooms that subscribe to social redress agendas.

Postmodern Racial Dialectics Richard A. Jones, 2015-12-07. Postmodern Racial Dialectics is a collection of ten essays on African American philosophy. Addressing issues as disparate as why there are no graduate programs in philosophy at the more than one hundred traditionally black colleges and universities in the U.S. to conceptions of Black utopianism to the nature of postmodern revolutions, these essays are beyond the bounds of traditional racial discourse. The essays are dialectical in the sense that they are conversations between personal histories, between ideologies and between changing ways that the races

talk to one another The book is postmodern in that it is beyond modernity's linear logic Postmodern Racial Dialectics is also a political entreaty for African Americans to be wary of conventional ways of thinking and to begin thinking transgressively beyond narrowly prescribed conceptions from both sides of the color line **Social Justice** Loretta Capeheart, Dragan Milovanovic, 2020-05-15 An eye for an eye the balance of the scales for centuries these and other traditional concepts exemplified the public's perception of justice Today popular culture including television shows like Law and Order informs the public's vision But do age old symbols portrayals in the media and existing systems truly represent justice in all of its nuanced forms or do we need to think beyond these notions The second edition of Social Justice Theories Issues and Movements responds to the need for a comprehensive introduction to these issues Theories of social justice are presented in an accessible fashion to encourage engagement of students activists and scholars with these important lines of inquiry Issues are analyzed utilizing various theories for furthering engagement in possibilities Struggles for justice from legal cases to on the ground movements are presented for historical context and to inform the way forward Responding to the Call for Educational Justice L. King and the Other America Sylvie Laurent, 2019-01-08 Shortly before his assassination Martin Luther King Jr called for a radical redistribution of economic and political power to transform the whole of society In 1967 he envisioned and designed the Poor People's Campaign an interracial effort that was carried out after his death This campaign brought together impoverished Americans of all races to demand better wages better jobs better homes and better education King and the Other America explores this overlooked and obscured episode of the late civil rights movement deepening our understanding of King's commitment to social justice and also of the long term trajectory of the civil rights movement Digging into earlier radical arguments about economic inequality across America which King drew on throughout his entire political and religious life Sylvie Laurent argues that the Poor People's Campaign was the logical culmination of King's influences and ideas which have had lasting impact on young activists and the public Fifty years later growing inequality and grinding poverty in the United States have spurred new efforts to rejuvenate the campaign This book draws the connections between King's perceptive thoughts on substantive justice and the ongoing quest for equality for all

Multiculturalism, Dialectical Thought, and Social Justice Pedagogy Daniel Ian Rubin, 2017-02-01 This monograph lays out a qualitative collective case study designed to assess how students in a secondary Latina Latino Literature class began to think dialectically about issues of social justice By using various methods of data collection I ascertained how the students' thoughts and perceptions of Latinas Latinos in this country changed over the course of the study I introduced the students to both print and nonprint texts e.g. news articles documentary films which when presented through Karl Marx's dialectical method helped them see social justice issues such as racism poverty and subjugation more clearly and critically After analysis several important themes emerged from the data stereotyping and invisibility in the media immigration the notion of power racism and discrimination education anger and frustration and questioning By the end of the Latina Latino Literature class all of the students in the study were able to identify particular social justice issues explain the historical context which framed the current debates e.g. immigration reform and articulate their opinions of the issues Each student participant started to use social justice terminology which I introduced and used frequently in class e.g. equity and these words became a part of the students' everyday vocabularies Furthermore by the completion of the class the student participants began to realize that they had their own individual voices and could help transform societal issues in order to make the United States more equitable for all

Intersectionality and Criminology

Hillary Potter, 2015-05-15 The use of intersectionality theory in the social sciences has proliferated in the past several years putting forward the argument that the interconnected identities of individuals and the way these identities are perceived and responded to by others must be a necessary part of any analysis Fundamentally intersectionality claims that not only are people's lived experiences affected by their racial identity and by their gender identity but that these identities and others continually operate together and affect each other With official statistical data that indicate people of Color have higher offending and victimization rates than White people and with the overrepresentation of men and people of Color in the criminal legal system new theories are required that address these phenomena and that are devoid of stereotypical or debasing underpinnings Intersectionality and Criminology provides a comprehensive review of the need for and use of intersectionality in the study of crime criminality and the criminal legal system This is essential reading for academics and students researching and studying in the fields of crime criminal justice theoretical criminology and gender race and socioeconomic class

system showing that these practices increase incarceration have little impact on crime rates and needlessly disrupt countless lives Ultimately he argues that they should be dramatically downsized or even abolished completely
