Race And Ethnic Relations In The First Person:

Race and Ethnic Relations in the First Person Michael A. Burayidi, Alfred Kisubi, 1998-01-13 This accessible challenging discussion of race relations looks at how institutions shape individual experience and asks how we can prevent a violent splintering of American society along racial lines in the 21st century Arguing that the best way to understand race relations is through the personal accounts of individuals as they go through the life cycle this highly readable book uses real life stories to illuminate how families peer groups and workplaces influence views about other racial and ethnic groups The authors hope to inspire readers to intervene and counteract negative perceptions of racial difference through their open frank discussion of the racial divide

Canadian Sociologists in the First Person Stephen Harold Riggins, Neil McLaughlin, 2021-08-15 Social scientists autobiographies can yield insight into personal commitments to research agendas and the very project of social science itself But despite the long history of life writing sociologists have tended to view the practice with skepticism Canadian Sociologists in the First Person is the first book to survey the Canadian sociological imagination through personal recollections Exploring the lives and experiences of twenty contributors from across the country this book connects the unique and shared features of their careers to broad social dynamics while providing a guide to their own research and administrative contributions to their universities their profession and their broader society and communities The contributors teach in different types of institutions are prominent in the discipline and in their specializations and represent significant and diverse intellectual currents political perspectives and life and career experiences Aiming to start a broad conversation about what social science and the academic profession look like in Canada from an insider s perspective Canadian Sociologists in the First Person offers invaluable lessons for younger scholars as they envision a diverse sociological imagination for the twenty first century

Race, Ethnicity and Education in Globalised Times Ruth Arber, 2008-02-12 What is the specificity of contemporary racism And what happens to questions of race in a context where multiculturalism is taken for granted Few authors address these kinds of questions with subtlety For the most part questions of racism are treated either as self evident or alternatively as self evidenced The rst approach accentuated in everyday life and played out in media expos s is the tendency to treat racism as manifestly self evident We just know what racism is in principle and we just know what it looks like when we see it in practice Dualistic assumptions dominate this sense of identity relations persons are racist or they are not an act is racist or it is not However despite the

obviousness of racism in contexts where different people have different seating arrangements on a bus or somebody says I am better than you because your skin colour is different this approach barely comes to terms with the depth of embodied politics and the elusiveness of structures of racism in the contemporary world *The Columbia Documentary History of Race and Ethnicity in America* Ronald H. understanding of the historical racialization of the US welfare state overall The Role of English Teaching in Modern Japan Mieko Yamada, 2014-09-25 The Role of English Teaching in Modern Japan examines the complex nature of Japan's promotion of English as a Foreign Language (EFL). In globalized societies where people with different native languages communicate through English, multicultural and multilingual interactions are widely created. This book takes the opportunity to look at Japan and examines how these multiple realities have affected its English language teaching within the domestic context. The myth of Japan's racial and ethnic homogeneity may hinder many Japanese in recognizing realities of its own minority groups such as Ainu, Zainichi Koreans and Brazilian Japanese who are in the same EFL classrooms. Acknowledging a variety of English uses and users in Japan, this book emphasizes the influence of Japan's recent domestic diversity on its EFL curriculum and urges that such changes should be addressed. It suggests new directions for incorporating multicultural perspectives in order to develop English language education in Japan and other Asian contexts where English is often taught as a foreign language. Chapters include Social cultural and political background of Japan's EFL education, Race, ethnicity and multiculturalism, Representations of diversity in Japanese EFL Textbooks, Perceptions of English learning and diversity in Japan. The role of EFL education in multicultural Japan **Field Work** Marjorie Garber, 2013-10-28 First published in 1996, Routledge is an imprint of Taylor & Francis, an informal company **Sport Worlds** Joseph A. Maguire, 2002 This text looks at the sociology of sport. Narrative case studies of sports sociology from all over the world provide examples of how to interpret issues in professional and elite sports from a sociological perspective Ethnic Origins Jeremy Hein, 2006-04-13 Immigration studies have increasingly focused on how immigrant adaptation to their new homelands is influenced by the social structures in the sending society, particularly its economy. Less scholarly research has focused on the ways that the cultural make-up of immigrant homelands influences their adaptation to life in a new country. In *Ethnic Origins*, Jeremy Hein investigates the role of religion, family and other cultural factors on immigrant incorporation into American society by comparing the experiences of two little-known immigrant groups living in four different American cities not commonly regarded as immigrant gateways. *Ethnic Origins* provides an in-depth look at Hmong and Khmer refugees, people who left Asia as a result of failed U.S. foreign policy in their countries. These groups share low socio-economic status but are vastly different in their norms, values and histories. Hein compares their experience in two small towns, Rochester, Minnesota and Eau Claire, Wisconsin, and in two big cities, Chicago and Milwaukee, and examines how each group adjusted to these different settings. The two groups encountered both community hospitality and narrow-minded hatred in the small towns, contrasting sharply with the cold anonymity of the urban pecking order in the larger cities. Hein finds that for each group, their ethnic background was more important in shaping adaptation patterns than the place in which they settled. Hein shows how in both the cities and towns, the Hmong's sharply drawn ethnic boundaries and minority status in their native land left them with less affinity for U.S. citizenship or Asian American panethnicity than the Khmer, whose ethnic boundary is more porous. Their

differing ethnic backgrounds also influenced their reactions to prejudice and discrimination The Hmong with a strong group identity perceived greater social inequality and supported collective political action to redress wrongs more than the individualistic Khmer who tended to view personal hardship as a solitary misfortune rather than part of a larger scale injustice Examining two unique immigrant groups in communities where immigrants have not traditionally settled Ethnic Origins vividly illustrates the factors that shape immigrants response to American society and suggests a need to refine prevailing theories of immigration Hein s book is at once a novel look at a little known segment of America s melting pot and a significant contribution to research on Asian immigration to the United States A Volume in the American Sociological Association s Rose Series in Sociology *Handbook of the Sociology of Racial and Ethnic Relations* Pinar Batur,Joe R. Feagin,2018-06-11 The study of racial and ethnic relations has become one of the most written about aspects in sociology and sociological research In both North America and Europe many traditional cultures are feeling threatened by immigrants from Latin America Africa and Asia This handbook is a true international collaboration looking at racial and ethnic relations from an academic perspective It starts from the principle that sociology is at the hub of the human sciences concerned with racial and ethnic relations *The British National Bibliography* Arthur James Wells,1998 **Handbook of the Sociology of Racial and Ethnic Relations** Hernan Vera,Joe R Feagin,2007-08-03 The study of racial and ethnic relations has become one of the most studied aspects in sociology and sociological research In both North America and Europe many traditional cultures are feeling threatened by immigrants from Latin America Africa and Asia Sociology is at the hub of the human sciences concerned with racial and ethnic relations Since this discipline is made of multiple paradigms and methodological orientations it has been able to make relevant contributions to disciplines ranging from individual psychology social psychology and psychiatry to economics anthropology linguistics cultural studies health care delivery and education

Race-Ethnicity and Society Benjamin B Ringer,Elinor R. Lawless,2025-06-30 First published in 1989 Race Ethnicity and Society comes as a usable and comprehensive text on race and ethnicity in the United States Ringer and Lawless set out to fill the gap in the literature by incorporating the positive lessons of the racially turbulent 1960 s and 70s Proposing a challenge to three conventional premises of many texts they argue that the treatment of racial minorities in America was qualitatively different from that experienced by the white immigrants that racism was not a mere aberration in American Society but was built into the very foundations of the society and that America s experience with minorities was not unique but can instead be located within the mainstream of European expansion and conquest Race Ethnicity and Society will be a standard source for students in the fields of sociology history and political science **Autobiographical Incriptions** Barbara Ruth Rodriguez,1999 As life writing began to attract critical attention in the 1950s and 60s theorists critics and practitioners of autobiography concerned themselves with inscribing that is establishing or asserting a set of conventions that would define constructions of identity and acts of self representation More recently however scholars have identified the

ways in which autobiographical works recognize and resist those conventions Moving beyond the narrow prescriptive definition of autobiography as the factual chronological first person narrative of the life story critics have theorized the genre from postmodern and feminist perspectives *Autobiographical Inscriptions* contributes a theory of autobiography by women writers of color to this lively repositioning of identity studies Barbara Rodr guez breaks new ground in the field with a discussion of the ways in which innovations of form and structure bolster the arguments for personhood articulated by Harriet Jacobs Zora Neale Hurston Hisaye Yamamoto Maxine Hong Kingston Leslie Marmon Silko Adrienne Kennedy and Cecile Pineda Rodr guez maps the intersections of form and structure with issues of race and gender in these women s works Central to the autobiographical act and to the representation of the self in language these intersections mark the ways in which the American woman writer of color comments on the process of subject construction as she produces original forms for the life story In each chapter Rodr guez pairs canonized texts with less well known works reading autobiographical works across cultural contexts and historical periods and even across artistic media By raising crucial questions about structure *Autobiographical Inscriptions* analyzes the ways in which these texts also destabilize notions of race and gender The result is a remarkable analysis of the seemingly endless range of formal strategies available to adopted and adapted by the American woman writer of color
