Race, Gender, and the Labor Market Robert L. Kaufman, 2014-05-14 Women and minorities have entered higher paying occupations but their overall earnings still lag behind those of white men Why Looking nationwide at workers across all employment levels and occupations the author examines the unexpected ways that prejudice and workplace discrimination continue to plague the labor market He probes the mechanisms by which race and sex groups are sorted into appropriate jobs showing how the resulting segregation undercuts earnings He also uses an innovative integration of race sex queuing and segmented market theories to show how economic and social contexts shape these processes His analysis reveals how race sex stereotyping and devaluation interact to create earnings disparities shedding new light on a vicious cycle that continues to leave women and minorities behind *Latinas and African American*

American women more often found themselves the sole support of their families While much social science research has centered on the problems facing black male workers Latinas and African American Women at Work offers a comprehensive investigation into the eroding progress of these women in the U S labor market The prominent sociologists and economists featured in this volume describe how race and gender intersect to especially disadvantage black and Latina women Their inquiries encompass three decades of change for women at all levels of the workforce from those who spend time on the welfare rolls to middle class professionals Among the many possible sources of increased disadvantage they particularly examine the changing demands for skills increasing numbers of immigrants in the job market the precariousness of balancing work and childcare responsibilities and employer discrimination While racial inequity in hiring often results from educational differences between white and minority women this cannot explain the discrimination faced by women with higher skills Minority women therefore face a two tiered hurdle based on race and gender Although the picture for young African American women has grown bleaker overall for Latina women the story is more complex with a range of economic outcomes among Cubans Puerto Ricans Mexicans and Central and South Americans Latinas and African American Women at Work reveals differences in how professional African American and white women view their position in the workforce with black women perceiving more discrimination for both race and gender than whites The volume concludes with essays that synthesize the evidence about racial and gender based obstacles in the labor market Given the current heated controversy over female and minority employment as well as the recent sweeping changes to the national welfare system the need for empirical data to inform the public debate about disadvantaged women is greater than ever before The important findings in Latinas and African American Women at Work substantially advance our understanding of social inequality and the pervasive role of race ethnicity and gender in the economic well being of American women

Simply Complicated Intersections of Race Gender and Work explores the ways adults make sense of their family lives in the midst of the complicated debates generated by politicians and social scientists Given the rhetoric about the family this book is a well overdue account of family life from the perspective of families themselves The purpose of this book is to provide the reader with a whole view of different types of families The chapters focus on contemporary issues such as who do we consider to be a part of our family can anyone achieve family life balance and how do families celebrate when they get together Relying on stories shared by a racially ethnically diverse group of forty six families this book finds that parents and siblings cultivate a family identity that both defines who they are and influences who they become It is a welcomed installment to conversations about the family as families are finally viewed within a single study from a multicultural lens
