Race Law Resistance:

Race, Law, Resistance Patricia Tuitt, 2012-09-10 *Race Law Resistance* is an original and important contribution to current theoretical debates on race and law. The central claims are that racial oppression has profoundly influenced the development of legal doctrine and that the production of subjugated figures like the slave and the refugee has been fundamental to the development of legal categories such as contract and tort. Drawing on examples from the UK and US legal systems in particular, this book employs a wide range of theoretical and disciplinary perspectives to explore resistance to racial dominance in modernity. In particular, it highlights the main tenets and distinctive scholarly forms of critical theories on race and law. *Race Law Resistance* will be of interest to academics and students following courses on critical race theory, law and postcolonialism, discrimination law, legal theory, legal systems, the law of obligations, comparative legal cultures, law and literature, and human rights.

Race, Law and Hypercriminality Sarah Corbett-Batson, 2025-08-08 This book considers how neoliberal criminal law constructs racialised hypercriminals. In a world of fake news and virtual reality where social media posts seem more real than the materiality of racial capitalism, this book develops the idea of hypercriminality as a means of explaining how racial disproportionalities in the criminal legal system persist despite discourses of a post-racial meritocracy. Drawing on critical race theory, the work of Judith Butler and Jean Baudrillard's conception of the hyperreal, the book considers how neoliberal legal discourse constructs and reproduces hyperreal racialised legal subjects. The simulated violent figure of the racialised gang member, rioter, drug dealer, or sexual predator is made to appear real through legal and evidential concepts such as dangerousness or bad character. The belief that this simulation is real is deployed to justify the carceral state and masks the structural and racialised violence of capitalism itself. Revealing the hypercriminality of racialised legal subjects, the book thus offers a timely critical legal intervention that aims to advance the urgent project of decarceration, abolition, and transformative justice. The book will appeal to scholars and students working in the areas of criminal law and evidence, criminology, criminal justice, socio-legal studies, and critical race theory.

Race, Law and Society Ian Haney López, 2017-05-15 *Race Law and Society* draws together some of the very best writing on race and

racism from the law and society tradition yet it is not intended to merely reprint the greatest hits of the past. Instead from its introduction to its selection of articles this anthology is designed as a how to manual a guide for scholars and students seeking templates for their own work in this important but also tricky area. **Race Law and Society** pulls together leading exemplars of the sorts of social science scholarship on race society and law that will be essential to racial progress as the world begins to travel the twenty first century.

Race, Law, and Higher Education in the Colorblind Era Hoang Vu Tran, 2019-07-04 This book provides detailed analysis of Supreme Court judgments which have impacted the rights of minorities in relation to higher education and so illustrates ongoing issues of racial discrimination throughout the American education sector. **Race Law and Higher Education in the Colorblind Era** brings together the many racial disputes that have been adjudicated by the Supreme Court to investigate the politics of colorblindness in the post civil rights era. Through a reading of these various cases as a form of continuing racial discourse this book focuses on the ways in which racial disputes operate within a clearly entwined colorblind narrative that invalidates racial justice for minorities. By investigating how the Supreme Court has understood racism and the concept of race across its history this volume demonstrates how colleges and universities must navigate the often contradictory and perilous landscape of diversity in attempts to integrate historically disadvantaged minorities. This book will be of interest to researchers academics and postgraduate students in the fields of sociology of education multicultural education and legal education.

Race, Law, and American Society Gloria J. Browne-Marshall, 2013-05-02 This second edition of Gloria Browne Marshall's seminal work tracing the history of racial discrimination in American law from colonial times to the present is now available with major revisions. Throughout she advocates for freedom and equality at the center moving from their struggle for physical freedom in the slavery era to more recent battles for equal rights and economic equality. From the colonial period to the present this book examines education property ownership voting rights criminal justice and the military as well as internationalism and civil liberties by analyzing the key court cases that established America's racial system and demonstrating the impact of these court cases on American society. This edition also includes more on Asians Native Americans and Latinos. **Race Law and American Society** is highly accessible and thorough in its depiction of the role race has played with the sanction of the U S Supreme Court in shaping virtually every major American social institution.

Race, Law, and Culture Austin Sarat, 1997 More than forty years after *Brown v Board of Education* put an end to segregation of the races by law current debates about affirmative action multiculturalism and racial hate speech reveal persistent uncertainty about the meaning of race in American culture and the role of law in guaranteeing racial equality. **Race Law and Culture** takes the continuing controversy about race as an invitation to revisit *Brown* and *Brown* as a lens through which to view that controversy. The essays collected here are diverse in their perspectives and lively in their presentation. Taken together they provide a fresh look at *Brown* as well as the way it is implicated in America's contemporary uncertainties about race.

Race and Rights Dana Elizabeth Weiner, 2013-01-15 In the Old Northwest from 1830 to 1870 a bold set of activists battled slavery and racial prejudice. This book is about their expansive efforts to eradicate southern slavery and its local influence in the contentious milieu of four new states carved out of the Northwest Territory: Illinois, Indiana, Michigan, and Ohio. While the Northwest Ordinance outlawed slavery in the region in 1787, in reality both it and racism continued to exert strong influence in the Old Northwest as seen in the race-based limitations of civil liberties there. Indeed, these states comprised the central battleground over race and rights in antebellum America in a time when race's social meaning was deeply infused into all aspects of Americans' lives and when people struggled to establish political consensus. Antislavery and anti-prejudice activists from a range of institutional bases crossed racial lines as they battled to expand African American rights in this region. Whether they were antislavery lecturers, journalists, or African American leaders of the Black Convention Movement, women or men, they formed associations, wrote publicly to denounce their local racial climate, and gave controversial lectures. In the process, they discovered that they had to fight for their own right to advocate for others. This bracing new history by Dana Elizabeth Weiner is thus not only a history of activism but also a history of how Old Northwest reformers understood the law and shaped new conceptions of justice and civil liberties. The newest addition to the Mellon-sponsored Early American Places Series, *Race and Rights* will be a much welcomed contribution to the study of race and social activism in nineteenth-century America.

The Oxford Handbook of Postcolonial Studies Graham Huggan, 2013-09-12 The Oxford Handbook of Postcolonial Studies provides a comprehensive overview of the latest scholarship in postcolonial studies while also considering possible future developments in the field. Original chapters written by a worldwide team of contributors are organised into five cross-referenced sections: The Imperial Past, The Colonial Present, Theory and Practice Across the Disciplines, and Across the World. The chapters offer both country-specific and comparative approaches to current issues, offering a wide range of new and interesting perspectives. The Handbook reflects the increasingly multidisciplinary nature of postcolonial studies and reiterates its continuing relevance to the study of both the colonial past in its multiple manifestations and the contemporary globalized world. Taken together, these essays, the dialogues they pursue, and the editorial comments that surround them constitute nothing less than a blueprint for the future of a much-contested but intellectually vibrant and politically engaged field.

Storied Communities Hester Lessard, Rebecca Johnson, Jeremy Webber, 2011-01-01 Political communities are defined and often contested through stories Scholars have long recognized that two foundational sets of stories narratives of contact and narratives of arrival helped to define settler societies We are only beginning to understand how ongoing issues of migration and settlement are linked to issues of indigenous settler contact *Storied Communities* disrupts the assumption in many works that indigenous and immigrant identities fall into two separate streams of analysis The authors do not attempt to build a new master narrative they instead juxtapose narratives of contact and arrival as they explore key themes narrative and narrative form the nature and hazards of storytelling in the political realm and the institutional and theoretical implications of foundation narratives and storytelling By bringing to light the links between narratives of contact and narratives of arrival this volume opens up new ways to imagine sustain and transform political communities

White Women, Rape, and the Power of Race in Virginia, 1900-1960 Lisa Lindquist Dorr, 2005-12-15 For decades historians have primarily analyzed charges of black on white rape in the South through accounts of lynching or manifestly unfair trial proceedings suggesting that white southerners invariably responded with extralegal violence and sham trials when white women accused black men of assault Lisa Lindquist Dorr challenges this view with a careful study of legal records newspapers and clemency files from early twentieth century Virginia White Virginians inflammatory rhetoric she argues did not necessarily predict black men s ultimate punishment While trials were often grand public spectacles at which white men acted to protect white women and to police interracial relationships Dorr points to cracks in white solidarity across class and gender lines At the same time trials and pardon proceedings presented African Americans with opportunities to challenge white racial power Taken together these cases uncover a world in which the mandates of segregation did not always hold sway in which whites and blacks interacted in the most intimate of ways and in which white women and white men saw their interests in conflict In Dorr s account cases of black on white rape illuminate the paradoxes at the heart of segregated southern society the tension between civilization and savagery the desire for orderly and predictable racial boundaries despite conflicts among whites and relationships across racial boundaries and the dignity of African Americans in a system dependent on their supposed inferiority The rhetoric of protecting white women spoke of white supremacy and patriarchy but its practice revealed the limits of both
