Karthick

Ramakrishnan,Irene Bloemraad,2008-07-10 For many Americans participation in community organizations lays the groundwork for future political engagement But how does this traditional model of civic life relate to the experiences of today s immigrants Do community organizations help immigrants gain political influence in their neighborhoods and cities In *Civic Hopes and Political Realities* experts from a wide range of disciplines explore the way civic groups across the country and around the world are shaping immigrants quest for political effectiveness *Civic Hopes and Political Realities* shows that while immigrant organizations play an important role in the lives of members their impact is often compromised by political marginalization and a severe lack of resources S Karthick Ramakrishnan and Irene Bloemraad examine community organizations in six cities in California and find that even in areas with high rates of immigrant organizing policymakers remain unaware of local ethnic organizations Looking at new immigrant destinations Kristi Andersen finds that community

organizations often serve as the primary vehicle for political incorporation a role once played by the major political parties Floris Vermeulen and Maria Berger show how policies in two European cities lead to very different outcomes for ethnic organizations Amsterdam's more welcoming multicultural policies help immigrant community groups attain a level of political clout that similar organizations in Berlin lack Janelle Wong Kathy Rim and Haven Perez report on a study of Latino and Asian American evangelical churches While the church shapes members political views on issues such as abortion and same sex marriage church members may also question the evangelical movement's position on such issues as civil rights and immigration Els de Graauw finds that many non profit organizations without explicitly political agendas nonetheless play a crucial role in advancing the political interests of their immigrant members Recent cuts in funding for such organizations she argues block not only the provision of key social services but also an important avenue for political voice Looking at community organizing in a suburban community Sofya Aptekar finds that even when immigrant organizations have considerable resources and highly educated members they tend to be excluded from town politics Some observers worry that America's increasing diversity is detrimental to civic life and political engagement Civic Hopes and Political Realities boldly advances an alternative understanding of the ways in which immigrants are enriching America's civic and political realms even in the face of often challenging circumstances

Racial Justice and the Limits of Law Bharat Malkani, Leslie Thomas (Barrister), 2024-04-23 Racial justice is never far from the headlines The Windrush scandal the toppling of the statue of Edward Colston and racism within the police have all recently captured the public's attention and generated legal action But although the ideals of the legal system such as fairness and equality seem allied to the struggle for racial justice all too often campaigners have been let down by the system This book examines law's troubled relationship with racial justice It explains that law's historical role in creating and perpetuating racial injustices continues to stifle its ability to advance the cause of racial justice today Both a lawyer's guide to antiracism and an antiracist's guide to legal action it unites these perspectives to help both groups understand how to use the law to tackle racial injustices

Female Subjectivities in African Literature Smith, Charles, Ce, Chin, 2015-09-23 In literature the ambiguous portraiture of female characters by some male writers and the phallic nature of men's writings have proved a matter of concern to female writers in Africa For decades within African writing the issue of silencing was interrogated particularly as it addressed the muting and marginalisation of black women by male writers through the script of patriarchy which men follow In this series we continue the literary and dramatic tradition of feminist concern for women's issues and we review novels plays and poetry which demonstrate a commitment to exploring the challenges facing modern women in changing times and excerpting the issues of gender feminism identity race history national and international politics specifically as they affect women Female Subjectivities collectively answers the need to question and adumbrate the possibilities of literary revisions showing what it would mean to revise even the Feminist psychoanalyst in a discourse on the subjectivity of women of colour

Migrants, Immigration and Diversity in

Twentieth-century Northern Ireland Jack Crangle, 2023-01-01 Addressing questions about what it means to be British or Irish in the twenty first century this book focuses its attention on twentieth century Northern Ireland and demonstrates how the fragmented and disparate nature of national identity shaped and continues to shape responses to social issues such as immigration Immigrants moved to Northern Ireland in their thousands during the twentieth century continuing to do so even during three decades of the Troubles a violent and bloody conflict that cost over 3 600 lives Foregrounding the everyday lived experiences of settlers in this region this ground breaking book comparatively examines the perspectives of Italian Indian Chinese and Vietnamese migrants in Northern Ireland outlining the specific challenges of migrating to this small intensely divided part of the UK The book explores whether it was possible for migrants and minorities to remain neutral within an intensely politicised society and how internal divisions affected the identity and belonging of later generations An analysis of diversity and immigration within this divided society enhances our understanding of the forces that can shape conceptions of national insiders and outsiders not just in the UK and Ireland but across the world It provokes and addresses a range of questions about how conceptions of nationality race culture and ethnicity have intersected to shape attitudes towards migrants In doing so the book invites scholars to embrace a more diverse four nation approach to UK immigration studies making it an essential read for all those interested in the history of migration in the UK

Making Anti-Racial Discrimination Law Iyiola Solanke, 2012-08-21 Making Anti Racial Discrimination Law examines the evolution of anti racial discrimination law from a socio legal perspective Taking a comparative and interdisciplinary approach the book does not simply look at race and society or race and law but brings these areas together by drawing out the tension in the process in different countries by which race becomes a policy issue which is subsequently regulated by law Moving beyond traditional social movement theory to include the extreme right wing as a social actor the study identifies the role of extreme right wing confrontation in agenda setting and law making a feature often neglected in studies of social action In so doing it identifies the influence of both the extreme right and liberalism on anti racial discrimination law Focusing primarily on Great Britain and Germany the book also demonstrates how national politics feeds into EU policy and identifies some of the challenges in creating a high and uniform level of protection against racial discrimination throughout the EU Using primary archival materials from Germany and the UK the empirical richness of this book constitutes a valuable contribution to the field of anti racial discrimination law at both undergraduate and postgraduate level The book will interest specialists and academics in law sociology and political science as well as non specialists who will find this study stimulating and useful to expand their knowledge of anti racial discrimination law or pursue teaching goals policy objectives and reform agendas
