Racetalk Kristen A. Myers, 2005-08-04 Studying racism is challenging Most people avoid publicly expressing racialized comments in fear of being labeled racist Much public talk is sugar coated and coded to distance the speaker from the racist message This study captures behind the scenes commentary racetalk that degrades people due to race and ethnicity Despite racial inroads made over the past several decades the racetalk in this study evinces old fashioned racist ideas persisting in modern imaginations These scripts say that African Americans are dangerous Whites are superior Latinos are dirty and disposable Indians are sinister Slavery is a trivial if not nostalgic and amusing historical anomaly that is better forgotten Private racetalk keeps these old scripts hidden yet alive Through racetalk people imbue different racial and ethnic groups with oppositional statuses Racetalk delineates boundaries between whiteness blackness and brownness Racetalk is a tool used in policing these boundaries Most people who cross racial ethnic boundaries through alliances friendships and courtships are sanctioned Nevertheless some people are able to cross more successfully than others An analysis of the content of racetalk reveals the processes through which people negotiate racial ethnic meanings and boundaries on a daily basis In so doing they often perpetuate the old racial regime but occasionally they challenge it Racetalk Kristen A. Stories of Inclusion? Deborah A. Piatelli, 2009-01-16 Why are some white middle class activists experiencing difficulty creating alliances across racial and class differences What are the obstacles and what is being done to overcome them What type of movement structures cultures and practices can best facilitate inter racial inter class solidarity Stories of Inclusion explores these questions through an ethnographic study of a predominately white middle class contemporary peace and justice network that is working to create a racially and class diverse community of activists Addressing a very significant and greatly under researched topic Stories of Inclusion raises important and critical questions for the peace movement as well as larger society In accessible prose this study bridges the literatures of social movement theory critical race studies and feminist theory and offers new insight into how power and privilege can affect the process of creating inclusive communities Drawing on data the author collected through in depth interviews interpretive focus groups and over two years of participant observation this study explores how white middle class privilege influences political analyses definitions of peace work and approaches to alliance building The findings are compelling and reveal that even those who have developed an oppositional political consciousness and have pledged to work across racial and class divides can still foster exclusive organizing practices This study also offers examples on how some activists are acknowledging privilege transforming their worldviews and beginning to establish fruitful relationships across differences This important work emphasizes the continuing importance of race for those collective actors attempting to construct inclusive movements across diverse groups while also offering important practical solutions on how to bridge differences The conclusion offers a framework for building a new agenda for the peace and justice movement

Wealth, Whiteness, and the Matrix of Privilege Jessica Holden Sherwood, 2012-07-10 Exclusive social clubs are traditionally an important site for the consolidation of upper class power Wealth Whiteness and the Matrix of Privilege shows that while the particulars of admission have changed these clubs remain socially significant incubators Having interviewed typically inaccessible members of exclusive clubs in the Northeast Jessica Holden Sherwood reports and analyzes what they have to say about who is in who is out and why The members talk frankly about their exclusiveness based on money and style but they are quick to point out that ethnically based exclusion is a thing of the past Club members also address the status of their women members which is at times distinctly second class The talk of country club members is shown to draw on elements in popular discourse And even if it s not their intention as club members exclude and account for their exclusion they contribute to reproducing class race and gender inequalities

Debating the Drug War Michael Rosino, 2021-03-16 Since President Nixon coined the phrase the War on Drugs has presented an important change in how people view and discuss criminal justice practices and drug laws The term evokes images of militarization punishment and violence as well as combat and the potential for victory It is no surprise then that questions such as whether the War on Drugs has failed or can be won have animated mass media and public debate for the

past 40 years Through analysis of 30 years of newspaper content Debating the Drug War examines the social and cultural contours of this heated debate and explores how proponents and critics of the controversial social issues of drug policy and incarceration frame their arguments in mass media Additionally it looks at the contemporary public debate on the War on Drugs through an analysis of readers comments drawn from the comments sections of online news articles Through a discussion of the findings and their implications the book illuminates the ways in which ideas about race politics society and crime and forms of evidence and statistics such as rates of arrest and incarceration or the financial costs of drug policies and incarceration are advanced interpreted and contested Further the book will bring to light how people form a sense of their racial selves in debates over policy issues tied to racial inequality such as the War on Drugs through narratives that connect racial categories to concepts such as innocence criminality free will and fairness Debating the Drug War offers readers a variety of concepts and theoretical perspectives that they can use to make sense of these vital issues in contemporary society

Race, Gender, and Class in the Tea Party Meghan A. Burke, 2015-01-27 It has been all too tempting to characterize the Tea Party as an irrational racist astro turf movement composed of members who are working to subvert their own economic interests Race Gender and Class in the Tea Party reveals a much messier and much more fascinating analysis of this movement Drawing upon in depth interviews with organizers and fieldwork at conservative campaign trainings and conventions its rich ethnographic data explores how the active folks in this movement specifically organizers in one Midwestern state understand their world and how they act on that basis to change it As this book will reveal most Tea Party organizers do depend on deeply flawed understandings of race and class either believing wholeheartedly in myths or confining their analyses to the narrow limits of the conservative media system Yet Tea Party racism is simply American racism Race Gender and Class in the Tea Party reveals the complexities and contradictions inherent in this movement where organizers attempt to reconcile their personal experiences with their conservative politics In the end these dynamics reveal as much about us as it does about the Tea Party It is certain to challenge all of our politics and especially our scholarly thinking about the movement and offers a path toward real conversations about our collective future in the United States

Protecting Whiteness Cameron D. Lippard, J. Scott Carter, David G. Embrick, 2020-12-15. Insights into the racialized fear of change in US society. The standoff at Cliven Bundy's ranch, the rise of white identity activists on college campuses, and the viral growth of white nationalist videos on YouTube vividly illustrate the resurgence of white supremacy and overt racism in the United States. White resistance to racial equality can be subtle as well, like art museums that enforce their boundaries as elite white spaces, right on crime policies that impose new modes of surveillance and punishment for people of color, and environmental groups whose work reinforces settler colonial norms. In this incisive volume, twenty-four leading sociologists assess contemporary shifts in white attitudes about racial justice in the US. Using case studies, they investigate the entrenchment of white privilege in institutions, new twists in anti-equality ideologies, and whiteness in the actions of social movements. Their examinations of new manifestations of racist aggression help make sense of the larger forces that underpin enduring racial inequalities and how they reinvent themselves for each new generation.

The Myth of Colorblindness Sarah E. Turner, Sarah Nilsen, 2019-09-28. This book explores representations of race and ethnicity in contemporary cinema and the ways in which these depictions all too often promulgate an important racial ideology: the myth of colorblindness. Colorblindness is a discursive framework employed by mainstream neoliberal media to celebrate a multicultural society while simultaneously disregarding its systemic and institutionalized racism. This collection is unique in its examination of such films as *Ex Machina*, *The Lone Ranger*, *The Blind Side*, *Zootopia*, *The Fast and the Furious* franchise, and *Dope*, which celebrate the myth of colorblindness yet perpetuate and entrench the racism and racial inequities that persist in contemporary society. While the *Oscars So White* movement has been essential to bringing about structural changes to media industries and offers the opportunity for a wide diversity of voices to alter and transform the dominant colorblind narratives, continue to proliferate. As this book demonstrates, Hollywood still has a long way to go.
