The lost heir; or, Truth and falsehood by the author of 'The little drummer'. Lost heir, 1878 *The German Classics of The Nineteenth and Twentieth Centuries: Masterpieces of German Literature Translated into English (Complete First 12 Volumes)* Various Authors, **Garden Tourism** Richard Benfield, 2013 Garden visitation has been a tourism motivator for many years and can now be enjoyed in many different forms Private garden visiting historical garden tourism urban gardens and a myriad of festivals shows and events all allow the green fingered enthusiast to appreciate the natural world This book traces the history of garden visitation and examines tourist motivations to visit gardens Useful for garden managers and tourism students as well as casual readers it also examines management and marketing of gardens for tourism purposes before concluding with a detailed look at the form and tourism based role of gardens in the future *Islamic Gardens and Landscapes* D. Fairchild Ruggles, 2011-12-30 Western admirers have long seen the Islamic garden as an earthly reflection of the paradise said to await the faithful However such simplification Ruggles contends denies the sophistication and diversity of the art form *Islamic Gardens and Landscapes* immerses the reader in the world of the architects of the great gardens of the Islamic world from medieval Morocco to contemporary India Just as Islamic culture is historically dense sophisticated and complex so too is the history of its built landscapes Islamic gardens began from the practical need to organize the surrounding space of human civilization tame nature enhance the earth's yield and create a legible map on which to distribute natural resources Ruggles follows the evolution of these early farming efforts to their aristocratic apex in famous formal gardens of the Alhambra in Spain and the Taj Mahal in Agra Whether in a humble city home or a royal courtyard the garden has several defining characteristics which Ruggles discusses Most notable is an enclosed space divided into four equal parts surrounding a central design element The traditional Islamic garden is inwardly focused usually surrounded by buildings or in the form of a courtyard Water provides a counterpoint to the portioned green sections Ranging across poetry court documents agronomy manuals and early garden representations and richly illustrated with pictures and site plans *Islamic Gardens and Landscapes* is a book of impressive scope sure to interest scholars and enthusiasts alike

Mobile Museums Felix Driver, Mark Nesbitt, Caroline Cornish, 2021-04-19 *Mobile Museums* presents an argument for the importance of circulation in the study of museum collections past and present It brings together an impressive array of international scholars and curators from a wide variety of disciplines including the history of science museum anthropology and postcolonial history to consider the mobility of collections The book combines historical perspectives on the circulation of museum objects in the past with contemporary accounts of their re mobilisation notably in the context of Indigenous community engagement Contributors seek to explore processes of circulation historically in order to re examine inform and

unsettle common assumptions about the way museum collections have evolved over time and through space By foregrounding questions of circulation the chapters in Mobile Museums collectively represent a fundamental shift in the understanding of the history and future uses of museum collections The book addresses a variety of different types of collection including the botanical the ethnographic the economic and the archaeological Its perspective is truly global with case studies drawn from South America West Africa Oceania Australia the United States Europe and the UK Mobile Museums helps us to understand why the mobility of museum collections was a fundamental aspect of their history and why it continues to matter today Praise for Mobile Museums This book advances a paradigm shift in studies of museums and collections A distinguished group of contributors reveal that collections are not dead assemblages The nineteenth and twentieth centuries were marked by vigorous international traffic in ethnography and natural history specimens that tell us much about colonialism travel and the history of knowledge and have implications for the remobilisation of museums in the future Nicholas Thomas University of Cambridge The first major work to examine the implications and consequences of the migration of materials from one scientific or cultural milieu to another it highlights the need for a more nuanced understanding of collections and offers insights into their potential for future re mobilisation Arthur MacGregor [Secrets Beneath the Sea](#) Janet Gurtler, 2025-08-22 Like most 12 year old girls Shyanna Rachel and Cora deal with the daily dramas of growing up Unlike most 12 year old girls they deal with it underwater as mermaids The allure of life on land is a constant presence in the life of a mermaid and friendships are tested with secrets lies and jealousy The magical and mysterious world of mermaids is brought to life in Mermaid Kingdom Take a deep breath dive in and get swept away [England's Magnificent Gardens](#) Roderick Floud, 2021-06-15 An altogether different kind of book on English gardens the first of its kind a look at the history of England s magnificent gardens as a history of Britain itself from the seventeenth century gardens of Charles II to those of Prince Charles today In this rich revelatory history Sir Roderick Floud one of Britain s preeminent economic historians writes that gardens have been created in Britain since Roman times but that their true growth began in the seventeenth century by the eighteenth century nurseries in London took up 100 acres with ten million plants that were worth more than all of the nurseries in France combined Floud s book takes us through more than three centuries of English history as he writes of the kings queens and princes whose garden obsessions changed the landscape of England itself from Stuart Georgian and Victorian England to today s Windsors Here are William and Mary who brought Dutch gardens and bulbs to Britain William who twice had his entire garden lowered in order to see the river from his apartments and his successor Queen Anne who like many others since vowed to spend little on her gardens and instead spent millions Floud also writes of Frederick Prince of Wales the founder of Kew Gardens who spent more than 40 000 on a single twenty five foot tulip tree for Carlton House Queen Victoria who built the largest most advanced and most efficient kitchen garden in Britain and Prince Charles who created and designed the gardens of Highgrove inspired by his boyhood memories of his grandmother s gardens

We see Sarah Duchess of Marlborough who created a magnificent garden at Blenheim Palace only to tear it apart and build a greater one Deborah Duchess of Devonshire the savior of Chatsworth's 100 acre garden in the midst of its 35 000 acres and the gardens of lesser mortals among them Gertrude Jekyll and Vita Sackville West both notable garden designers and writers We see the designers of royal estates among them Henry Wise William Kent Humphrey Repton and the greatest of all English gardeners Capability Brown who created the 150 acre lake of Blenheim Palace earned millions annually and designed more than 170 parks many still in existence today We learn how gardening became a major catalyst for innovation central heating came from experiments to heat greenhouses with hot water pipes how the new iron industry of industrializing Britain supplied a myriad of tools mowers pumps and the boilers that heated the greenhouses and finally Floud explores how gardening became an enormous industry as well as an art form in Britain and by the nineteenth century was unrivaled anywhere in the world

Warrior, King, Servant, Savior Torleif Elgvin, 2022-08-04 An exegetical and diachronic survey of messianic texts from the Hebrew Bible and Jewish tradition up through the first millennium CE Jewish messianism can be traced back to the emerging Kingdom of Judah in the tenth century BCE when it was represented by the Davidic tradition and the promise of a future heir to David's throne From that point it remained an important facet of Israelite faith as evidenced by its frequent recurrence in the Hebrew Bible and other early Jewish texts In preexilic texts the expectation is for an earthly king a son of David with certain ethical qualities whereas from the exile onward there is a transition to a pluriform messianism often with utopic traits Warrior King Servant Savior is an exegetical and diachronic study of messianism in these texts that maintains close dialogue with relevant historical research and archaeological insights Internationally respected biblical scholar Torleif Elgvin recounts the development and impact of messianism from ancient Israel through the Hasmonean era and the rabbinic period with rich chapters exploring messianic expectations in the Northern Kingdom postexilic Judah and Qumran among other contexts For this multifaceted topic of marked interest to Jews Christians and secular historians of religion alike Elgvin's handbook is the essential and definitive guide
