Racial Myth in English History Hugh A. MacDougall,

The Idea of English Ethnicity Robert J. C. Young, 2007-12-03 The Idea of English Ethnicity Robert Young has written a compelling and thorough textual history of English ethnicity and its discursive relation to the history of racial theory. Comprehensive, carefully considered and clearly written, this book sets the standard against which any future study of Englishness will be assessed. The bar has been lifted a couple of notches higher. David Theo Goldberg, University of California. What is Englishness? Robert J. C. Young asks, and in *The Idea of English Ethnicity* he offers an impressively well-researched and eminently readable answer. Werner Sollors, Harvard University.

[English Ethnicity and Race in Early Modern Drama](#) Mary Floyd-Wilson, 2003-02-20 In *English Ethnicity and Race in Early Modern Drama* first published in 2003, Mary Floyd-Wilson outlines what we might call scientific conceptions of racial and ethnic differences in sixteenth and seventeenth-century English writing. Drawing on classical and contemporary medical texts, histories, and cosmographies, Floyd-Wilson demonstrates that Renaissance understandings of racial and ethnic identities contradicted many modern stereotypes concerning difference. Southerners, Africans, in particular, were identified as dispassionate, cool, tempered, and wise, whereas the more northern English were understood to be unruly, impressionable, and slow-witted. Concerned with the unflattering and constraining implications of this classically derived knowledge, English writers laboured to reinvent ethnology to their own advantage, a labour that paved the way for the invention of more familiar racial ideas. Floyd-Wilson highlights these English revisionary efforts in her surprising and transformational readings of the period's drama, including Marlowe's *Tamburlaine*, Jonson's *The Masque of Blackness*, and Shakespeare's *Othello* and *Cymbeline*.

[Classical Myths and Legends in the Middle Ages and Renaissance](#) H. David Brumble, 1998-02-01 While numerous classical dictionaries identify the figures and tales of Greek and Roman mythology, this reference book explains the allegorical significance attached to the myths by Medieval and Renaissance authors. Included are several hundred alphabetically arranged entries for the gods, goddesses, heroes, heroines, and places of classical myth.

Race and Ethnicity in Anglo-Saxon Literature Stephen Harris, 2004-06-01 What makes English literature English? This question inspires Stephen Harris's wide-ranging study of Old English literature. From Bede in the eighth century to Geoffrey of Monmouth in the twelfth, Harris explores the intersections of race and literature before the rise of imagined communities. Harris examines possible configurations of communities, illustrating dominant literary metaphors of race from Old English to its nineteenth-century critical reception. Literary voices in the England of Bede understood the limits of community primarily as racial or tribal, in keeping with the perceived divine division of peoples after their languages and the extension of Christianity to Bede's Germanic neighbours. This was effected in part through metaphors of family and race. Harris demonstrates how King Alfred adapted Bede in the ninth century, how both

exerted an effect on Archbishop Wulfstan in the eleventh and how Old English poetry speaks to images of race

Broadening Jewish History Todd M. Endelman, 2010-12-01 Key themes and issues relevant to writing the social history of the Jews in the modern period are brought to the fore here in a way that is accessible both to professional historians and to educated readers with an interest in Jewish history Some of the articles are programmatic and argumentative others are case studies Together they create a strong coherent volume that demonstrates the advantages of the social historical perspective as a tool for interpreting the Jewish world

The Idea of Anglo-Saxon England in Middle English Romance Robert Allen Rouse, 2005 Using a variety of texts but the Matter of England romances in particular the author argues that they show a continued interest in the Anglo Saxon past from the localised East Sussex legend of King Alfred that underlies the twelfth century Proverbs of Alfred to the institutional interest in the Guy of Warwick narrative exhibited by the community of St Swithun s Priory in Winchester during the fifteenth century they are part of a continued cultural remembrance that
