**We are a People** Paul R. Spickard, W. Jeffrey Burroughs, 2000 As the twentieth century closes ethnicity stands out as a powerful force for binding people together in a sense of shared origins and worldview But this emphasis on a people's uniqueness can also develop into a distorted rationale for insularity inter ethnic animosity or as we have seen in this century armed conflict Ethnic identity clearly holds very real consequences for individuals and peoples yet there is not much agreement on what exactly it is or how it is formed The growing recognition that ethnicity is not fixed and inherent but elastic and constructed fuels the essays in this collection Regarding identity as a dynamic on going formative and transformative process We Are a People considers narrative the creation and maintenance of a common story as the keystone in building a sense of peoplehood Myths of origin triumph over adversity migration and so forth chart a group's history while continual additions to the larger narrative stress moving into the future as a people Still there is more to our stories as individuals and groups Most of us are aware that we take on different roles and project different aspects of ourselves depending on the situation Some individuals who have inherited multiple group affiliations from their families view themselves not as this or that but all at once So too with ethnic groups The so called hyphenated Americans are not the only people in the world to recognize or embrace their plurality This relatively recent acknowledgment of multiplicity has potentially wide implications destabilizing the limited and limiting categories inscribed in for example public policy and discourse on race relations We Are a People is a path breaking volume boldly illustrating how ethnic identity works in the real world Author note Paul Spickard is Professor and Chair of Asian American Studies at UC Santa Barbara and is author of *Mixed Blood* W Jeffrey Burroughs is Professor of Psychology at Brigham Young University Hawaii

**More Than Black** G. Reginald Daniel, 2010-06-25 In the United States anyone with even a trace of African American ancestry has been considered black Even as the twenty first century opens a racial hierarchy still prevents people of color including individuals of mixed race from enjoying the same privileges as Euro Americans In this book G Reginald Daniel argues that we are at a cross roads with members of a new multiracial movement pointing the way toward equality Tracing the centuries long evolution of Eurocentrism a concept geared to protecting white racial purity and social privilege Daniel shows how race has been constructed and regulated in the United States The so called one drop rule i e hypodescent obligated individuals to identify as black or white in effect erasing mixed race individuals from the social landscape For most of our history many mixed race individuals of African American descent have attempted to acquire the socioeconomic benefits of being white by forming separate enclaves or passing By the 1990s however interracial marriages became increasingly common and multiracial individuals became increasingly political demanding institutional changes that would recognize the reality of multiple racial backgrounds and challenging white racial privilege *More Than Black* regards the crumbling of the old racial order as an opportunity for substantially more than an improvement in U S race relations it offers no less than a radical transformation of

the nation's racial consciousness and the practice of democracy      *Beyond Black* Kerry Ann Rockquemore, David L. Brunson, 2007-12-14 *Beyond Black* is a groundbreaking study of the dynamic meaning of racial identity for multiracial people in post Civil Rights America Kerry Ann Rockquemore and David Brunson document the wide range of racial identities that individuals with one Black and one White parent develop and they provide a incisive sociological explanation of the choices facing those who are multiracial Stemming from the controversy of the 2000 Census and whether an additional multiracial category should be added to the survey this second edition of *Beyond Black* uses both survey data and interviews of multiracial young adults to explore the contemporary dynamics of racial identity formation The authors raise even larger social and political questions posed by expanding racial categorization on the U S Census      **Rethinking 'Mixed Race'** David Parker, Miri Song, 2001-05-20 One of the fastest growing ethnic populations in many Western societies is that of people of mixed descent However when talking about multicultural societies or mixed race the discussion usually focuses on people of black and white heritage The contributors to this collection rectify this with a broad and pluralistic approach to the experiences of mixed race people in Britain and the USA The contributors argue that people of mixed descent reveal the arbitrary and contested logic of categorisation underpinning racial divisions Falling outside the prevailing definitions of racialised identities their histories and experiences illuminate the complexities of identity formation in the contemporary multicultural context The authors examine a range of issues These include gender transracial and intercountry adoptions in Britain and the US interracial partnering and marriage mixed race and family in the English African diaspora theorising of mixed race that transcends the black white binary and includes explorations of mixtures among non white minority groups and the social and political evolution of multiracial panethnicity      **Mixed Race Identities** P. Aspinall, M. Song, 2013-07-26 This book explores the ethnic and racial options exercised by young mixed race people in Britain It reveals the diverse ways in which young people identify and experience their mixed status the complex nature of such identities and the rise of other identity strands which are now challenging race and ethnicity as dominant and salient identities      Philosophy and the Mixed Race Experience Tina Fernandes Botts, 2016-01-21 *Philosophy and the Mixed Race Experience* is a collection of essays by philosophers about the mixed race experience Each essay is meant to represent one of three possible things 1 what the philosopher sees as the philosopher's best work 2 evidence of the possible impact of the philosopher's mixed race experience on the philosopher's work or 3 the philosopher's philosophical take on the mixed race experience The book has two primary goals 1 to collect together for the first time the work of professional academic philosophers who have had the mixed race experience and 2 to bring these essays together for the purpose of adding to the conversation on the question of the degree to which factual identity and philosophical work may be related The book also examines the possible relationship between the mixed race experience and certain philosophical positions      **The United States of the United Races** Greg Carter, 2013-04-22 This provocative ambitious and important book rewrites U S history placing foundational leaders

unheralded prophets insurgent social movements pivotal judicial decisions and central cultural values within an unfolding story of ongoing appeals to interracial mixing as a positive good Deeply researched deftly argued and impressively able to move beyond the two categories of black and white The United States of the United Races makes the mixed race movements of the recent past resonate with their many antecedents showing the complex ways in which an emphasis on mixture has both deployed and destabilized racial categories David Roediger co author of The Production of Difference Barack Obama's historic presidency has re inserted mixed race into the national conversation While the troubled and pejorative history of racial amalgamation throughout U S history is a familiar story The United States of the United Races reconsiders an understudied optimist tradition one which has praised mixture as a means to create a new people bring equality to all and fulfill an American destiny In this genealogy Greg Carter re envisions racial mixture as a vehicle for pride and a way for citizens to examine mixed America as a better America Tracing the centuries long conversation that began with Hector St John de Crevecoeur's Letters of an American Farmer in the 1780s through to the Multiracial Movement of the 1990s and the debates surrounding racial categories on the U S Census in the twenty first century Greg Carter explores a broad range of documents and moments unearthing a new narrative that locates hope in racial mixture Carter traces the reception of the concept as it has evolved over the years from and decade to decade and century to century wherein even minor changes in individual attitudes have paved the way for major changes in public response The United States of the United Races sweeps away an ugly element of U S history replacing it with a new understanding of race in America Greg Carter is Assistant Professor of History at the University of Wisconsin Milwaukee

**Culturally Diverse Mental Health** Jeffery Scott Mio, Gayle Y. Iwamasa, 2013-12-02 First published in 2003 The most comprehensive book on the topic of multicultural mental health Culturally Diverse Mental Health addresses the challenge of counseling diverse populations including multiracial homosexual geriatric and disabled individuals Because many clients of diverse backgrounds have entered therapy in the last two decades old models of treatment based on the mainstream majority no longer apply This book compiles the latest research on a widely diverse number of populations and addresses the issue of resistance to the need to modify old practices to apply to these populations

*The Multiracial Experience* Maria P. P. Root, 1995-11-21 How might a multiracial concept dismantle our negative construction of race How do we redefine ethnicity when race is less central to the definition The Multiracial Experience challenges current theoretical and political conceptualizations of race using the multiracial experience of individuals as a tool for examining these and other questions Each contribution opens with a personal sketch of the multiracial experience Topics explored in the book include the differences between race and ethnicity colour gender and sexuality in a multiracial context and ethnicity and its role in identity formation

*Library of Congress Subject Headings* Library of Congress, 2011

**Library of Congress Subject Headings** Library of Congress. Cataloging Policy and Support Office, 2009

**The New Colored People** Jon M. Spencer, 2000-08 Most Americans remain oblivious of a new racial

phenomenon that may radically alter the political landscape of the United States In recent years dramatic increases in racial intermarriage have given birth to a generation of mixed race children whose interracially married parents refuse to allow them to be shoehorned into neat pre existing racial categories The parents through organizations they have founded or joined have lobbied aggressively for the category multiracial to be added to official racial classifications at the state and federal levels including the United States census Since a nonracial society is one of the stated goals of the multiracialists Spencer suggests that the undoing of racial classification will come not by initiating a new classification which will only give Americans the impression that mixed race people can be neatly classified but by our increased recognition that there are millions of people who simply defy classification

Biracial in America Nikki Khanna, 2011-09-16 Elected in 2008 Barack Obama made history as the first African American president of the United States Though recognized as the son of a white Kansas born mother and a black Kenyan father the media and public have nonetheless pigeonholed him as black and he too self identifies as such Obama s experience as an American with black and white ancestry though compelling because of his celebrity is not unique and raises several questions about the growing number of black white biracial Americans today How are they perceived by others with regard to race How do they tend to identify And why Taking a social psychological approach Biracial in America identifies influencing factors and several underlying processes shaping multidimensional racial identities This study also investigates the ways in which biracial Americans perform race in their day to day lives One s race isn t simply something that others prescribe onto the individual but something that individuals do The strategies and motivations for performing black white and biracial identities are explored

Racial and Ethnic Identity Herbert W. Harris, Howard C. Blue, Ezra E. H. Griffith, 1995 Essays explaining the psychological processes leading to the development of racial and ethnic identity

Mixed Race Hollywood Mary C. Beltran, Camilla Fojas, 2008-09-01 A Kansas City Star 2008 Notable Book Since the early days of Hollywood film portrayals of interracial romance and of individuals of mixed racial and ethnic heritage have served to highlight and challenge fault lines within Hollywood and the nation s racial categories and borders Mixed Race Hollywood is a pioneering compilation of essays on mixed race romance individuals families and stars in U S film and media culture Situated at the cutting edge juncture of ethnic studies and media studies this collection addresses early mixed race film characters Blaxploitation mixed race in children s television programming and the outing of mixed race stars on the Internet among other issues and contemporary trends in mixed race representation The contributors explore this history and current trends from a wide range of disciplinary perspectives in order to better understand the evolving conception of race and ethnicity in contemporary culture
