The Written World Jeffrey N. Peters, 2018-05-15 In *The Written World* Space Literature and the Chorological Imagination in Early Modern France Jeffrey N Peters argues that geographic space may be understood as a foundational originating principle of literary creation By way of an innovative reading of chora a concept developed by Plato in the *Timaeus* and often construed by philosophical tradition as space Peters shows that canonical literary works of the French seventeenth century are guided by what he calls a chorological approach to artistic invention The chorological imagination describes the poetic as a cosmological event that gives location to or more accurately in Plato's terms receives the world as an object of thought In analyses of well known authors such as Corneille Molière Racine and Madame de Lafayette Peters demonstrates that the apparent absence of physical space in seventeenth century literary depiction indicates a subtle engagement with rather than a rejection of evolving principles of cosmological understanding Space is not absent in these works so much as transformed in keeping with contemporaneous developments in early modern natural philosophy *The Written World* will appeal to philosophers of literature and literary theorists as well as scholars of early modern Europe and historians of science and geography [Nottingham French Studies](#), 1993 [Racine's Andromaque](#), 2019-10-01 *Racine's Andromaque Absences and Displacements* casts a new look at the dynamism richness and complexity of Racine's first major tragedy first performed in Paris in 1667 through a collection of articles specially commissioned by the editors Nicholas Hammond and Joseph Harris Challenging received opinions about the fixity of French classicism this volume demonstrates how Racine's play is preoccupied with absences displacements instability and uncertainty The articles explore such issues as movement and transactions offstage characters and locations hallucinations and fantasies love and desire and translations and adaptations of Racine's play This collection will be an invaluable resource for students and scholars of seventeenth century French theatre Contributors Nicholas Hammond Joseph Harris Michael Moriarty Emilia Wilton Godberfforde Delphine Calle Jennifer Tamas Michael Hawcroft Katherine Ibbett Richard Parish **A Cultural History of Tragedy in the Age of Enlightenment** Mitchell Greenberg, 2021-05-20 The period covered by this volume in the *Cultural History of Tragedy* set is bookended by two shockingly similar historical events the beheading of a king Charles I of England in 1649 and Louis XIV of France in 1793 The period between these two dates saw enormous political social and economic changes that altered European society's cultural life Tragedy which had dominated the European stage at the beginning of this period gradually saw itself replaced by new literary forms culminating in the gradual decline of theatrical tragedy from the heights it had reached in the 1660s The dominance of France's military and cultural prestige during this period is reflected in the important almost exclusive space dedicated in this volume to the French stage This book covers the tragedies of France's two greatest playwrights Pierre Corneille 1606-84 and Jean Racine 1639-99 which would dominate not only the French stage but through translations and adaptations became the model of tragic theater across Europe finding imitators in England Dryden Italy

Alfieri and as far afield as Russia This dominance continued well into the 18th century with the triumph of Voltaire's tragedies This volume also examines how the writings of Diderot and Lessing changed the direction of theatre and how after the Revolution in the writings of Goethe Schiller Hegel tragedy and the tragic were reimagined and became the sign of European modernity Each chapter takes a different theme as its focus forms and media sites of performance and circulation communities of production and consumption philosophy and social theory religion ritual and myth politics of city and nation society and family and gender and sexuality *Baroque Visual Rhetoric* Vernon Hyde Minor, 2016-01-01 *Baroque Visual Rhetoric* probes the Baroque's combination of style and message and the methodological basis on which the critical art historian comes to establish that meaning *Mary Shelley's Literary Lives and Other Writings, Volume 3* Nora Crook, 2020-04-03 This collection covers the lyrical poetry of Mary Shelley as well as her writings for Lardner's Cabinet Cyclopaedia of Biography and some other materials only recently attributed to her **Subject Catalog** Library of Congress, **Bulletin** Adelphi University.
