Homage to Paul Bénichou Sylvie Romanowski, Monique Bilezikian, 1994      Questioning Racinian Tragedy John  
Campbell, 2005 Noting significant differences between the individual tragedies of Racine and the many current notions of  
what Racinian tragedy is deemed to imply John Campbell explores the identity and meaning of the modern Racine He asks if  
any one critical paradigm      *Confidential Strategies* Valerie Worth-Stylianou, 1999      *The Tragic Middle* Richard E.  
Goodkin, 1991 This is an extraordinary book brilliantly conceived and beautifully written Its approach to the well worn subject  
of tragic drama is quite fresh While Goodkin draws on the best of traditional scholarship in philosophy classical philology and  
literary criticism he argues with an intellectual style that is entirely his own Every reader will be stimulated in his own  
particular way so great is the range and power of this book to extend the book's argument toward or from his own area of

Swift's writing over half a century Besides many familiar works the editors have included correspondence political pamphlets  
poetry a sermon and pieces for the popular press      La Nouvelle Héloïse James F. Jones, 1977      *Racine* David  
Maskell, 1991 This original and innovative study is the first systematic exploration of Racine's theatricality It is based on a  
close examination of all Racine's plays and on evidence for performance of them from the seventeenth century to the present  
day David Maskell considers with the help of illustrations the relationship between verbal and visual effects He shows how  
the decor in plays such as *Andromaque* *Britannicus* and *Berenice* is significant for the action and indicates the rich often  
symbolic implication of stage properties and physical gestures particularly in *Mithridate* *Phedre* and *Athalie* Racine's usually  
neglected single comedy *Les Plaideurs* is shown to cast light on the theatrical language of his eleven tragedies Some familiar  
topics of tragedy moral ambiguity error and transcendence emerge in a fresh light and the concept of the tragic genre is  
critically examined from the theatrical standpoint This study challenges many long established views of Racine and lays the  
foundation for a reassessment of his role in French drama It also opens new perspectives on his relationship with dramatists  
writing in other languages      **The French Review** James Frederick Mason, Hélène Harvitt, 1982      **Proust and the**

Literature, 1974      *Silence and Absence in Literature and Music*, 2016-04-08 This volume focusses on the rarely discussed  
reverse side of traditional given objects of studies namely absence rather than presence of text and silence rather than sound

It does so from the bifocal and interdisciplinary perspective which is a hallmark of the book series Word and Music Studies. The twelve contributors to the main subject of this volume approach it from various systematic and historical angles and cover among others questions such as to what extent absence can become significant in the first place or iconic silent functions of musical scores as well as discussions of fields ranging from baroque opera to John Cage's 4 33. The volume is complemented by two contributions dedicated to further surveying the vast field of word and music studies. The essays collected here were originally presented at the Ninth International Conference on Word and Music Studies held at London University in August 2013 and organised by the International Association for Word and Music Studies. They are of relevance to scholars and students of literature, music and intermediality studies as well as to readers generally interested in phenomena of absence and silence.
