**The Rhetoric of Racist Humour** Simon Weaver, 2016-02-24 In today's multicultural and multireligious societies humour and comedy often become the focus of controversy over alleged racist or offensive content as shown for instance by the intense debate of Sacha Baron Cohen's characters Ali G and Borat and the Prophet Muhammad cartoons published in the Danish newspaper Jyllands Posten Despite these intense debates commentary on humour in the academy lacks a clear way of connecting the serious and the humorous and a clear way of accounting for the serious impact of comic language The absence of a developed serious vocabulary with which to judge the humorous tends to encourage polarized debates which fail to account for the paradoxes of humour This book draws on the social theory of Zygmunt Baumann to examine the linguistic structure of humour arguing that as a form of language similar to metaphor it is both unstable and unpredictable and structurally prone to act rhetorically that is to be convincing Deconstructing the dominant form of racism aimed at black people in the US and that aimed at Asians in the UK The Rhetoric of Racist Humour shows how racist humour expresses and supports racial stereotypes in the US and UK while also exploring the forms of resistance presented by the humour of Black and Asian comedians to such stereotypes An engaging exploration of modern late modern and fluid or postmodern forms of humour this book will be of interest to sociologists and scholars of cultural and media studies as well as those working in the fields of race and ethnicity humour and cultural theory

**International Law, Human Rights and Public Opinion** Heping Dang, 2017-03-16 This book explores situations in which public opinion presents itself as an obstacle to the protection and promotion of human rights Taking an international law perspective it primarily deals with two questions first whether international law requires States to take an

independent stance on human rights issues second whether international law encourages States to inform and mobilise public opinion with regard to core human rights standards The discussion is mainly organised within the framework of the UN system The work is particularly relevant to situations in which public opinion appears as discriminatory attitudes based on race gender age health sexual orientation and other factors It is also pertinent to circumstances in which public opinion is responsible for the existence of certain harmful customs and practices such as female genital mutilation and capital punishment Noting that the death penalty is increasingly recognised as an infringement of human rights this study further challenges States argument that capital punishment cannot be abolished because of public opinion The book also discusses the role that education bears under international law in moulding favourable attitudes towards human rights Finally the book challenges States acceptance that public opinion cannot be confronted in this respect

*Race and News* Christopher P. Campbell, Kim M. LeDuff, Cheryl D. Jenkins, Rockell A. Brown, 2013-07-03 The history of American journalism is marked by disturbing representations of people and communities of color from the disgraceful stereotypes of pre civil rights America to the more subtle myths that are reflected in routine coverage by journalists all over the country Race and News Critical Perspectives aims to examine these journalistic representations of race and in doing so to question whether or not we are living in a post

racial world By looking at national coverage of stories like the Don Imus controversy Hurricane Katrina Barack Obama s presidential candidacy and even the Virginia Tech shootings readers are given an opportunity to gain insight into both subtle and overt forms of racism in the newsroom and in national dialogue The book itself is divided into two sections with the first examining the journalistic routine and the decisions that go into covering a story with or without relation to race The second section comprised of case studies explores the coverage of national stories and how they have impacted the dialogue on race and racism in the United States As a whole the collection of essays and studies also reflects a variety of research approaches With a goal of contributing to the discussion about race and its place in American journalism this broad examination makes Race and News an ideal text for courses on cultural diversity and the media as well as making it valuable to professional journalists and journalism students who seek to improve their approach to coverage of diverse communities
