## **Racism Ethnicity And Politics In Contemporary Europe:**

**Racism, Ethnicity, and Politics in Contemporary Europe** Alec G. Hargreaves, 1995 Issues of race and ethnicity in Europe have been brought to the fore by the recent electoral successes of extreme right wing parties In this volume specialists explore the political mediation of racism across Western Europe examining its causes character and consequences

*Nation and Identity in Contemporary Europe* Brian Jenkins, Spyros A. Sofos, 2003-09-02 The resilience of nationalism in contemporary Europe may seem paradoxical at a time when the nation state is widely seen as being in decline The contributors of this book see the resurgence of nationalism as symptomatic of the quest for identity and meaning in the complex modern world Challenged from above by the supranational imperatives of globalism and from below by the complex pluralism of modern societies the nation state in the absence of alternatives to market consumerism remains a focus for social identity Nation and Identity in Contemporary Europe takes a fully interdisciplinary and comparative approach to the national question Individual chapters consider the specifics of national identity in France Germany Britain Italy Iberia Russia the former Yugoslavia and Poland while looking also at external forces such as economic globalisation European supranationalism and the end of the Cold War Setting current issues and conflicts in their broad historical context the book reaffirms that nations are not natural phenomena but constructed forms of social identity whose future will be determined in the social arena

*Political Ideologies in Contemporary France* Christopher Flood, Laurence Bell, 1997-01-01 Contributions contained in this volume discuss seven strains of political thought in France today democratic socialism communism Gaullism and liberalism national populism ecologism feminism and multiculturalism Contributors are primarily English scholars of French Studies and their contributions focus on the participants strategy and future prospects of each ideological tendency Distributed by Books International Annotation copyrighted by Book News Inc Portland OR

*Ethnic Europe* Roland Hsu, 2010-02-05 Ethnic Europe examines the increasingly complex ethnic challenges facing the expanding European Union Essays from eleven experts tackle such issues as labor migration strains on welfare economies the durability of local traditions the effects of globalized cultures and the role of Islamic diasporas separatist movements and threats of terrorism With Europe now a destination for global immigration European countries are increasingly alert to the difficult struggle to balance minority rights with social cohesion In pondering these dilemmas the contributors to this volume take us from theory history and broad views of diasporas to the particularities of neighborhoods borderlands and popular literature and film that have been shaped by the mixing of ethnic cultures

Cultural Studies Stefan Herbrechter, 2002 This volume claims that interdisciplinarity and translation constitute the two main challenges for cultural studies today These conceptual issues inter and trans express themselves within specific historical and cultural contexts Interdisciplinarity is linked with the ongoing process of the institutionalisation of cultural studies in national academies but also increasingly internationally comparatively and to a certain extent even globally of cultural studies of global culture Translation concerns cultural studies both as an

object or product and as a subject or producer of translation processes Cultural studies is the result of translation translates and is being translated The essays in this volume therefore relate these various ongoing cultural linguistic and institutional translation processes to political and ethical issues of internationalisation and globalisation The contributions draw their originality and strength from strategically crossing disciplinary and national boundaries They deliberately ignore the question of what may be proper to cultural studies and instead problematise the notions of propriety and belonging As a reading practice cultural studies in these pages is performed through adaptations and combinations of theory and critical practice The volume should be of interest to everyone concerned with cultural studies role in promoting intellectual debate within an increasingly international and globalised public sphere

Camiscioli,2009-09-18 In *Reproducing the French Race* Elisa Camiscioli argues that immigration was a defining feature of early twentieth century France and she examines the political cultural and social issues implicated in public debates about immigration and national identity at the time Camiscioli demonstrates that mass immigration provided politicians jurists industrialists racial theorists feminists and others with ample opportunity to explore questions of French racial belonging France s relationship to the colonial empire and the rest of Europe and the connections between race and national anxieties regarding depopulation and degeneration She also shows that discussions of the nation and its citizenry consistently returned to the body its color and gender its expenditure of labor power its reproductive capacity and its experience of desire Of paramount importance was the question of which kinds of bodies could assimilate into the French race By focusing on telling aspects of the immigration debate Camiscioli reveals how racial hierarchies were constructed how gender figured in their creation and how only white Europeans were cast as assimilable Delving into pronatalist politics she describes how potential immigrants were ranked according to their imagined capacity to adapt to the workplace and family life in France She traces the links between racialized categories and concerns about industrial skills and output and she examines medico hygienic texts on interracial sex connecting those to the crusade against prostitution and the related campaign to abolish white slavery the alleged entrapment of white women for sale into prostitution abroad Camiscioli also explores the debate surrounding the 1927 law that first made it possible for French women who married foreigners to keep their French nationality She concludes by linking the Third Republic s impulse to create racial hierarchies to the emergence of the Vichy regime

Hargreaves,2007-03-16 This second edition of *Multi Ethnic France* spans politics and economics social structures and cultural practices and has been updated to cover events which have occurred on the national and international stage since the first edition was published These include recent developments in the Banlieues including the riots of 2005 the growing visibility of sub Saharan Africans in France's evolving ethnic mix the reverberations in France of international developments such as 9 11 the second Intifada and the Iraq Wars the renewed controversy over the wearing of the Islamic headscarf the development of anti discrimination policy and the debate over positive discrimination Immigration is one of the most significant and persistent issues in contemporary France It has become central to political debate with the rise on one side of Jean Marie Le Pen's extreme right wing party and on the other of Islamist terrorism In *Multi Ethnic France* Alec G Hargreaves unmaskes the prejudices and misconceptions faced by minorities of Muslim heritage and lays bare the social and political neglect behind the riots of 2005 This second edition is fully updated and includes a glossary and chronology as well as a revised bibliography      *Race and Ethnicity: Debates and controversies* Harry Goulbourne,2001      *Made in France* G r me Guibert,Catherine Rudent,2017-11-06 *Made in France*

*An Ugly Word* Ann Morning, Marcello Maneri, 2022-05-20 Scholars and politicians often assume a significant gap between the ways that Americans and Europeans think about race According to this template in the U S race is associated with physical characteristics while in Western Europe race has disappeared and discrimination is based on insurmountable cultural differences However little research has addressed how average Americans and Europeans actually think and talk about race In *An Ugly Word* sociologists Ann Morning and Marcello Maneri examine American and Italian understandings of group difference in order to determine if and how they may differ Morning and Maneri interviewed over 150 people across the two countries about differences among what they refer to as descent based groups Using this concept allowed them to sidestep the language of race and ethnicity which can be unnecessarily narrow poorly defined or even offensive to some Drawing on these interviews the authors find that while ways of speaking about group difference vary considerably across the Atlantic underlying beliefs about it do not The similarity in American and Italian understandings of difference was particularly evident when discussing sports Both groups relied heavily on traditional stereotypes of Black physicality to explain Black athletes overrepresentation in sports like U S football and their underrepresentation in sports

like swimming contradicting the claims that a biological notion of race is a distinctly American phenomenon While American and Italian concepts of difference may overlap extensively they are not identical Interviews in Italy were more likely to reveal beliefs about groups innate unchangeable temperaments such as friendly Senegalese and dishonest Roma And where physical difference was seen by Italians as superficial and unimportant cultural difference was perceived as deeply meaningful and consequential In contrast U S interviewees saw cultural difference as supremely malleable and often ascribed the same fluidity to racial identity which they believed stemmed from culture as well as biology In light of their findings Morning and Maneri propose a new approach to understanding cross cultural beliefs about descent based difference that includes identifying the traits people believe differentiate groups how they believe those traits are acquired and whether they believe these traits can change An Ugly Word is an illuminating cross national examination of the ways in which people around the world make sense of race and difference **Algeria and France, 1800-2000** Patricia M. E. Lorcin, 2006-10-19

The relationship between Algeria and France that formed during the 132 years of colonial rule did not end in 1962 when Algeria gained its independence This long period of occupation left an indelible mark on the social fabric of both societies one that continues to influence their cultures identities and politics Wide ranging in scope yet complementary in focus the essays deftly convey the extent to which the French colonial experience in Algeria resonates on both sides of the Mediterranean Young and established scholars shed light on the linguistic cultural and social mechanisms of violence remembrance forgetting fantasy nostalgia prejudice mythmaking and fractured identity Addressing the nature of Franco Algerian relations through such topics as migration displacement settler colonialism racism and sexuality these essays provide an important contribution to postcolonial studies cultural studies and North African history With renewed public debate surrounding the two countries shared past and their interwoven communities today this volume will be indispensable for anyone with an interest in the relations between Algeria and France and the literature on memory and nostalgia

*Refugee Women* Leah Bassel, 2012-05-31 Debates over the headscarf and niqab so called sharia tribunals Female Genital Operations and forced marriages have raged in Europe and North America in recent years raising the question does accommodating Islam violate women s rights The book takes issue with the terms of this debate It contrasts debates in France over the headscarf and in Canada over religious arbitration with the lived experience of a specific group of Muslim women Somali refugee women The challenges these women eloquently describe first hand demonstrate that the fray over accommodating culture and religion neglects other needs and engenders a democratic deficit In *Refugee Women Beyond Gender versus Culture* new theoretical perspectives recast both the story told and who tells the tale By focusing on the politics underlying how these debates are framed and the experiences of women at the heart of these controversies women are considered first and foremost as democratic agents rather than actors in the culture versus gender script Crucially the institutions and processes created to address women s needs are critically assessed from this perspective Breaking from

scholarship that focuses on whether the accommodation of culture and religion harms women Bassel argues that this debate ignores the realities of the women at its heart In these debates Muslim women are constructed as silent victims Bassel pleads compellingly for a consideration of women in all their complexity as active participants in democratic life The book will appeal to students and scholars throughout the social sciences particularly of sociology political science and women s studies
