The Politics of Race in Britain and South Africa Elizabeth Williams, 2015-03-18 The postwar government of South Africa led by H F Verwoerd implemented wide ranging racial segregation laws beginning the open policy of apartheid in one of Africa's most prosperous and internationally influential states During the apartheid era the British government faced an uneasy dilemma while repudiating apartheid laws it maintained an ambiguous stance towards the South African government As black South Africans were reduced to the status of non citizens after the 1970 Citizenship Act increasing numbers of exiles and fugitives were finding refuge in Britain which was now home to a growing anti apartheid protest movement This is the first book to examine the British support for the anti apartheid movement among its own black communities Elizabeth Williams highlights the connection between domestic anti racism struggles and the struggle in South Africa showing how black Britons who were themselves fighting racism in British society identified and expressed solidarity with black South Africans during the Apartheid years Williams further assesses the way in which Black communities in Britain viewed Margaret Thatcher's support of South Africa despite the international call for sanctions Featuring the work of acclaimed documentary photographer and civil rights activist Vanley Burke this will be an essential book for students and scholars of race British history international relations post colonial studies and South African history

comprehensive index Race and Labour in Twentieth-Century Britain Kenneth Lunn, 2019-08-16 This collection of essays was put together with a view to furthering the study of the history of immigration into Britain Naturally enough a good deal of attention in recent years has been directed at race relations in Britain from the 1960s onwards As Peter Fryer's study *Staying Power* 1984 has shown there is a rich and important history of black settlement before these years and its significance in shaping responses towards more recent migrants has still to be adequately evaluated We are constantly being reminded of the legacy of empire and its importance in terms of influencing current policy and attitudes *British Communism and the Politics of Race* Evan Smith, 2017-10-02 British Communism and the Politics of Race explores the role that the Communist Party of Great Britain played within the anti racism movement in Britain from the 1940s to the 1980s As one of the first organisations to undertake serious anti colonial and anti racist activism within the British labour movement the CPGB was a pioneering force that campaigned against racial discrimination popular imperialism and fascist violence in British society The book examines the balancing act that the Communist Party negotiated in its anti racist work between making appeals to the labour movement to get involved in the fight against racism and working with Britain's ethnic minority communities who often felt let down by the trade unions and the Labour Party Transitioning from a class based outlook to an embrace of the new social movements of the 1960s 70s the CPGB played an important role in the anti racist struggle but by the 1980s it was eclipsed by more radical and diverse activist organisations Political Languages of Race and the Politics of Exclusion Andy R. Brown, 2018-08-16 First published in 1999 Political Languages of Race and the Politics of Exclusion examines the post race signification logic of languages used to promote and achieve the exclusion and stigmatisation of migrant groups within post war Britain Re examining the time of Smethwick and Powellism as well as extensive Parliamentary debates this book develops an original thesis to show how Backbench racism became legitimated as Frontbench commonsense The book argues that the achievement of the success of post war Parliamentary racism has been made possible by the development of a ubiquitously anecdotal narrative of the travails of the Forgotten Englishman awoken to a multi cultural nightmare in Britain's decaying inner cities While the concept of race has remained under erasure the logic of post race signification discourse has allowed the re making of racism in public Britain British Fascism Kenneth Lunn, Richard C. Thurlow, 2015-10-16 The continuing interest in the history ideas structure and development of fascism in Britain in the twentieth century appears to show little sign of diminishing This collection of essays first published in 1980 deals in some depth with new evidence and interpretations of the phenomenon of British fascism and provides a reassessment of some of the major issues that have caused controversy examines the diverse nature of British fascism and suggests areas which need further research The early essays identify certain elements of British fascism particularly anti semitism which produced the ideology of the inter war organisations calling themselves fascist Stress is laid on the British roots rather than the European influences of Italy or Germany and the book also considers the Imperial Fascist League a

competitor of the British Union of Fascists in the 1930s The second section of the book deals with particular aspects of the BUF Considering its ideology and tactics there are studies of anti semitism economic thought and the public order question Presenting new research and fresh interpretations of existing material this important volume considers many of the crucial and unanswered questions surrounding British fascism Community Work and Racism Ashok Ohri,Basil Manning,Paul Curno,2023-03-24 First published in 1982 Community Work and Racism takes as its theme the fundamental need of the black community in Britain to be freed from the disabling effects of white racism both in the individual and institutional forms Starting from the premise that racism is a white problem in Britain the book argues that community work must put white racism on everyone's local and national alliances in the fight against racism in British society The contributors consider the response or lack of it there has so far been by white community work to racism and look at the state's response to racism as it impinges on community work They discuss black community action and initiatives on racism explore alliances which have come into being in the fight against racism and examine the conditions which make such alliances possible This book will be of interest to students of sociology public policy race and ethnic studies Racism, Class and the Racialized Outsider Satnam Virdee,2014-06-24 Racism Class and the Racialized Outsider is that rare thing nowadays an academic book that not only engages with a wider public but also provides a sharp campaigning edge to the analysis Historical and broad in its coverage this is one of the best accounts of contemporary racism published in a good long time Mark Perryman Philosophy Football Racism Class and the Racialized Outsider offers an original perspective on the significance of both racism and anti racism in the making of the English working class While racism became a powerful structuring force within this social class from as early as the mid Victorian period this book also traces the episodic emergence of currents of working class anti racism Through an insistence that race is central to the way class works this insightful text demonstrates not only that the English working class was a multi ethnic formation from the moment of its inception but that racialized outsiders Irish Catholics Jews Asians and the African diaspora often played a catalytic role in the collective action that helped fashion a more inclusive and democratic society **Right-Wing Populism in Europe** Ruth Wodak,Brigitte Mral,Majid KhosraviNik,2013-05-23 This volume offers a comparative survey of Far Right parties across Europe examining in particular their changing political rhetoric The contributors look at the development of two distinct forms of party development and discourse The Haiderization and The Berlusconi model Race, Discourse and Labourism Caroline Knowles,2005-07-25 Race Discourse and Labourism argues that the commonwealth of socialism is founded upon a well concealed history of brutality and repression Caroline Knowles details the historical conditions of the emergence of race through Labour's dealings with Indian independence negotiations and anti semitism in the thirties and the effects of this on the conceptions of black citizenship multi racialism and black representation in labour politics
