## **Racism And The Administration Of Justice:**

Racism and the Administration of Justice Amnesty International, 2001 In 1994 up to a million men women and children were slaughtered in Rwanda in just 100 days The genocide showed how quickly racism in this case in the form of ethnic hatred can erupt into bloodshed and despair particularly when it is fuelled by those in power or those seeking power Racism to varying degrees and in various forms infects virtually every country of the world The law and its administration which should uphold the values of justice and equality is one of the primary forces in opposing the effects of racism Yet justice systems all too often fail in this purpose and instead mirror the prejudices of the society they serve Based on research conducted by Amnesty International in recent years this publication shows that members of ethnic minorities often suffer torture ill treatment and harassment at the hands of the police In many parts of the world they face unfair trials and discriminatory sentencing which puts them at increased risk of harsh punishments including the death penalty Action to combat racism is needed urgently This report concludes with recommendations on how governments can work to end racism in the administration of justice Racism and the Administration of Justice ,2001 **Encyclopedia of Human Rights** Edward H. Fosten, 2017-12-21 This book examines the national criminal justice system's and the state of Tennessee criminal justice system's policies in terms of how they balance the citizens need for prisons with the private sector's desire for profits and the policies effects on the incarceration rate of African American males in the state of Tennessee There are

important often neglected connections among prison sentencing felony disenfranchisement voting and the continuing problematic issues of race in America particularly in Tennessee This state serves as a representative case study from which to examine local state and national criminal justice systems disparate outcomes and social inequality The book therefore investigates ethically questionable public private business relationships and arrangements that contribute to socially constructed economic policy instruments used to fulfill conservatives and white supremacists objectives for white domination in Tennessee Through mass incarceration and felony disenfranchisement African Americans in particular African American males have been discriminated against and systematically excluded from political participation employment housing education and other social programs This book is grounded on the Racial Contract Theory and Racial Group Threat Theory Racial Threat Theory or Group Threat Theory The Racial Contract Theory is used to show how racism itself is an intentionally devised institutionalized political arrangement of official and unofficial rule of official and unofficial policy socioeconomic benefit and norms for the preferential distribution of material wealth and opportunities The Racial Group Threat Theory is employed to demonstrate how growth in the comparative size of a subordinate group increases that group s capacity to use democratic political and economic institutions for its benefit at the expense of the dominant group

*Tax Law and Racial Economic Justice* Andre L. Smith, 2015-06-03 No study of Black people in America can be complete without considering how openly discriminatory tax laws helped establish a racial caste system in the United States how they were designed to exclude blacks from lucrative markets and the voting franchise and how tax laws extracted and redistributed vast sums of black wealth Not only was slavery nearly a 100% tax on black labor so too was Jim Crow apartheid and tax laws specified the peculiar institution as negro slavery The first instances of affirmative action in the United States were tax laws designed to attract white men to the South The nineteenth century Federal Tariff indirectly redistributed perhaps a majority of the profits from slavery from the South to the North and is the principle reason the Confederate states seceded The only constitutional amendment obtained by the Civil Rights Movement is the Twenty Sixth Amendment abolishing poll taxes in federal elections Blending traditional legal theory neoclassical economics and a pan African view of history these six interrelated essays on race and taxes demonstrate that even in today s supposedly post racial society there is no area of human activity where racial dynamics are absent
