Racism In Mind:

Racism in Mind Michael P. Levine, Tamas Pataki, 2018-08-06 This philosophical analysis of the phenomenon of racism brings together some of the most influential analytic philosophers writing on racism today The introduction by Tamas Pataki outlines the historical and thematic development of conceptions of race and racism and locates the following essays against the backdrop of contemporary reactions to that development While the framework is primarily analytic the volume also includes essays deeply informed by psychoanalysis phenomenology and feminist and social theory The fourteen chapters in this collection address three interrelated questions What is racism What are the causes of racism And what are the moral and political implications of racism Although their approaches are wide ranging the contributors to Racism in Mind broadly endorse a psychological characterological approach to the understanding of many aspects of racism

Race in the Mind of America Paul L. Wachtel, 2012-10-12 Internationally recognized psychologist Paul L Wachtel sheds new light on the psychological foundations of our nation's racial impasse and applies his pathbreaking vicious circle approach to help resolve it This timely and fascinating analysis shows how the ways we attempt to cope with racial tensions and inequalities often lead to the perpetuation of our difficulties rather than their resolution Understanding the ironies that characterize contemporary race relations is the first step toward extricating our nation from the vicious circle Both controversial and healing Race in the Mind of America challenges the orthodoxies that shape black and white opinion and liberal and conservative policies while sensitively exploring the way the world looks to both sides and why it looks that way Wachtel probes the daily experiences of blacks and whites shedding new light on how individual experiences and larger social historical and economic forces continually re create each other In illustrating how blacks and whites get caught in vicious circles that sustain the very behaviors and attitudes they wish would change Wachtel also points toward the concrete solutions to our seemingly enduring dilemmas and shows how to move beyond the adversarial rhetoric that divides us

Retooling the Mind Factory Alan Sears, 2003-01-01 Alan Sears examines education reform in relation to a broad process of cultural and economic change His book makes the case that education reform is one aspect of a broad ranging neo liberal agenda that aims to push the market deeper into every aspect of our lives by eliminating or shrinking non market alternatives The author begins by showing that advocates of education reform have had to make the case that the current system is not working This sets the ground for an examination of the so called Common Sense Revolution a claim that drastic change was required to redesign government policies to fit a changing world Lean production methods are a crucial component of this changing world and broader social and cultural change is now required to consolidate the emerging order built on the spread of these methods Education reform is designed to recast the relations of citizenship contributing to the cultural and social change promoted through the social policy of the lean state

The State of the American Mind: Stupor and Pathetic Docility Amechi Okolo PhD, 2010-06-10 This book The State of the American Mind Stupor and Pathetic Docility Volume One begins to unravel some

of the most obvious perplexing embarrassing and enduring problems and contradictions of American history and sociology viz how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement etc Further how could men of such great wisdom and intellect like George Washington James Madison Thomas Jefferson and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil because they had variously experienced white servitude and slavery themselves collude to establish and institutionalize the horrible system of Negro chattel slavery in America and also disenfranchised over 90 percent of people of their own race actions that racism could not explain The structural institutional slavery system they established and the resultant consequent racism hobbles America today as it did in the past and forced Eric Holder the Attorney General to declare that America is a nation of cowards when it comes to race discussions Thus this book starts with serious critical discussions of race in America and reveals what no textbook has ever done viz that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that only Blacks were brought here in chains Further the book also shows the year Black slavery started something almost all textbooks got wrong It also shows who was the first Black slave in America something no textbook ever mentions It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward This book therefore shatters the two dominant themes of Americas history and sociology that Blacks were brought into America in chains as slaves while whites came to America in search of freedom as Obama famously told us in his race speech Thus the crowning lesson of this book in addition to discussing some critical policy issues like education health care etc is that it discovers the centripetal force of the American society that eluded contemporary Americans because American bosses have laboriously concealed the facts from the public the scary but clearly healthy uniting fact that most Americans are united by their common ancestry their universal history and experience of servitude bond indentures and slavery Nothing is more universal more common and more shared in American history and sociology than the fact that most of our ancestors black and white were servants bond indentures and slaves who were dominated and super exploited by few overlords Colonial America was the preferred dumping ground for British outcasts rejects criminals masterless class vagabonds bond indentures slaves etc until 1776 when Australia replaced America as the British dump for its rejects and surplus citizens Thus that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were great honorable men who journeyed across the ocean for freedom because of the obvious reason that good powerful achieving citizens do not normally emigrate to new uncharted lands *The Marcusean Mind* Eduardo Altheman C. Santos,Jina Fast,Nicole K. Mayberry,Sid Simpson,2024-10-29 Herbert Marcuse 1898 1979 was a member of the Frankfurt

School a leading figure of 1960s counterculture and a fundamental character for the New Left His ideas and theories inspired by a rich fusion of Marxian and Freudian thought exert a strong influence on contemporary thinking about activism emancipation and political resistance He was also a student of Martin Heidegger in the late 1920s and engaged deeply with philosophy throughout his career The Marcusean Mind is an outstanding survey and assessment of Marcuse's thought Beginning with a thorough introduction to Marcuse's life and work 39 chapters by an international and interdisciplinary team of contributors are organized into five clear parts Intellectual Ecosystems of Marcuse Reason and Sensibilities Futures and Utopias Contemporary Movements Counterrevolutions Neoliberalism and Fascism These sections each contain a short introduction after which Marcusean ideas are brought to bear on many key contemporary debates and issues across the humanities social sciences and science and technology Including a Foreword by Craig Calhoun and an Afterword by Douglas Kellner The Marcusean Mind is a superb resource for anyone interested in Marcuse's thought and its legacy It is valuable reading for students of contemporary political theory activism philosophy sociology media and cultural studies critical legal studies and race and gender studies

The Mind of Frederick Douglass Waldo E. Martin Jr.,2000-11-09 Frederick Douglass was unquestionably the foremost black American of the nineteenth century The extraordinary life of this former slave turned abolitionist orator newspaper editor social reformer race leader and Republican party advocate has inspired many biographies over the years This however is the first full scale study of the origins contours development and significance of Douglass s thought Brilliant and to a large degree self taught Douglass personified intellectual activism he possessed a sincere concern for the uses and consequences of ideas Both his people s struggle for liberation and his individual experiences which he envisioned as symbolizing that struggle provided the basis and structure for his intellectual maturation As a representative American he internalized and thus reflected major currents in the contemporary American mind As a representative Afro American he revealed in his thinking the deep seated influence of race on Euro American Afro American or broadly conceived American consciousness He sought to resolve in his thinking the dynamic tension between his identities as a black and as an American Martin assesses not only how Douglass dealt with this enduring conflict but also the extent of his success An inveterate belief in a universal and egalitarian humanism unified Douglass s thought This grand organizing principle reflected his intellectual roots in the three major traditions of mid nineteenth century American thought Protestant Christianity the Enlightenment and romanticism Together these influences buttressed his characteristic optimism Although nineteenth century Afro American intellectual history derived its central premises and outlook from concurrent American intellectual history it offered a searching critique of the latter and its ramifications How to square America s rhetoric of freedom equality and justice with the reality of slavery and racial prejudice was the difficulty that confronted such Afro American thinkers as Douglass

From The Mind Of Critic: 2018 BRYAN RADZIN,2019-07-07 This is the fourth of many collections From the Mind Of Critic The short essays can be flipped through randomly or read in succession They run the gamut of human emotions from love to hate to fear Along with a healthy dose of politics humanism unity accountability and truth this collection will hopefully stir the pot just enough to start conversations If we could simply talk to each other like human beings we ll find that many of our generational issues can be solved Emotions soften when the fog lifts making us realize we agree on a lot more than we disagree We just need to get out of our own way and remember everything we need to know we learned in kindergarten The gray area we all live in is constantly evolving if we adapt instead of resist we ll evolve right alongside Letting go of outcomes is like venturing into the darkness it s only scary if we don t allow our soul to light the way Hope and love get us started conscious action moves us forward Growing Mind and Soul James Patton Jones,2005-03-10 An entertaining collection of essays and educational papers which illustrate by example the author s recommended model of education a blending of mental emotional and spiritual teachings Topics discussed include Family Morality Ethics Racism Native Americans and

Religion each as specific examples of a process of learning drawn from the author's own experiences as a student

Racial Resentment in the Political Mind Darren W. Davis, David C. Wilson, 2021-12-27 A thought provoking look at how racial resentment rather than racial prejudice alone motivate a growing resistance among whites to improve the circumstances faced by racial minorities In *Racial Resentment in the Political Mind* Darren W. Davis and David C. Wilson challenge the commonly held notion that all racial negativity disagreements and objections to policies that seek to help racial minorities stem from racial prejudice They argue that racial resentment arises from just world beliefs and appraisals of deservingness that help explain the persistence of racial inequality in America in ways more consequential than racism or racial prejudice alone The culprits as many White people see it are undeserving people of color who are perceived to benefit unfairly from and take advantage of resources that come at Whites expense a worldview in which any attempt at modest change is seen as a challenge to the status quo and privilege Yet as Davis and Wilson reveal many Whites have become racially resentful due to their perceptions that African Americans skirt the rules of the game and violate traditional values by taking advantage of unearned resources Resulting attempts at racial progress lead Whites to respond in ways that retain their social advantage opposing ameliorative policies minority candidates and other advancement on racial progress Because racial resentment is rooted in beliefs about justice fairness and deservingness ordinary citizens who may not harbor racist motivations may wind up in the same political position as racists but for different reasons

Another Mind-Body Problem John Harfouch, 2018-05-23 Demonstrates the profound overlap of philosophy's mind body problem and various racist doctrines found in thinkers ranging from Descartes to Kant The mind body problem in philosophy is typically understood as a discourse concerning the relation of mental states to physical states and the experience of sensation On this level it seems to transcend issues of race and racism but *Another Mind Body Problem* demonstrates that racial distinctions have been an integral part of the discourse since the Modern period in philosophy Reading figures such as Descartes Leibniz and Kant in their historical contexts John Harfouch uncovers discussions of mind and body that engaged closely with philosophical and scientific notions of race in metaphysics and the philosophy of mind in particular in understanding how the mind unites with the body at birth and is then passed on through sexual reproduction Kant argued that a person's exterior body and interior psyche are bound together that non White people lacked reason and that this lack of reason was carried on through reproduction such that non Whites were an example of a union of mind and body without full being Charting the development of this phenomenon from sixteenth century medical literature to modern day race discourse Harfouch argues for new understandings of Descartes's mind body problem Fanon's experience of being not yet human and the place of racism in relation to one of philosophy's most enduring and canonical problems

How to Go Mad

without Losing Your Mind La Marr Jurelle Bruce, 2021-04-26 Hold tight The way to go mad without losing your mind is sometimes unruly So begins La Marr Jurelle Bruce's urgent provocation and poignant meditation on madness in black radical art Bruce theorizes four overlapping meanings of madness the lived experience of an unruly mind the psychiatric category of serious mental illness the emotional state also known as rage and any drastic deviation from psychosocial norms With care and verve he explores the mad in the literature of Amiri Baraka Gayl Jones and Ntozake Shange in the jazz repertoires of Buddy Bolden Sun Ra and Charles Mingus in the comedic performances of Richard Pryor and Dave Chappelle in the protest music of Nina Simone Lauryn Hill and Kendrick Lamar and beyond These artists activate madness as content form aesthetic strategy philosophy and energy in an enduring black radical tradition Joining this tradition Bruce mobilizes a set of interpretive practices affective dispositions political principles and existential orientations that he calls mad methodology Ultimately *How to Go Mad without Losing Your Mind* is both a study and an act of critical ethical radical madness

The Servile Mind Kenneth Minogue, 2012-11-20 One of the grim comedies of the twentieth century was that miserable victims of communist regimes would climb walls swim rivers dodge bullets and find other desperate ways to achieve liberty in the West at the same time that progressive intellectuals would sentimentally proclaim that these very regimes were the wave of the future A similar tragicomedy is playing out in our century as the victims of despotism and backwardness from Third World nations pour into Western states academics and intellectuals present Western life as a nightmare of inequality and oppression In *The Servile Mind* How Democracy Erodes the Moral Life Kenneth Minogue explores the intelligentsia's love affair with social perfection and reveals how that idealistic dream is destroying exactly what has made the inventive Western world irresistible to the peoples of foreign lands *The Servile Mind* looks at how Western morality has evolved into mere politico moral posturing about admired ethical causes from solving world poverty and creating peace to curing climate change Today merely making the correct noises and parading one's essential decency by having the correct opinions has become a substitute for individual moral responsibility Instead Minogue argues we ask that our governments carry the burden of solving our social and especially moral problems for us The irony is that the more we allow the state to determine our moral order the more we need to be told how to behave and what to think Such is the servile mind
