Representing Rape Susan Ehrlich, 2003-08-27 Representing Rape is the first feminist analysis of the language of sexual assault trials from the perspective of linguists Susan Ehrlich argues that language is central to all legal settings specifically sexual harassment and acquaintance rape hearings where linguistic descriptions of the events are often the only type of evidence available Language does not simply reflect but helps to construct the character of the people and events under investigation The book is based around a case study of the trial of a male student accused of two instances of sexual assault in two different settings a university tribunal and a criminal trial This case is situated within

international studies on rape trials and is relevant to the legal systems of the US Canada Britain Australia and New Zealand She shows how culturally dominant notions about rape percolate through the talk of sexual assault cases in a variety of settings and ultimately shape their outcome Ehrlich hopes that to understand rape trials in this way is to recognize their capacity for change By highlighting the underlying preconceptions and prejudices in the language of courtrooms today this important book paves the way towards a fairer judicial system for the future

The Gender Binary and the Invention of Race Sally Markowitz, 2024-05-28 The Gender Binary and the Invention of Race explores a fundamental and often overlooked connection between modern European conceptions of gender and race Starting in the eighteenth century these conceptions have intermeshed through a racialized gender binary ideal for the male female couple that supposedly only Europeans embody Through an exploration of various expressions of this racial gender binary ideal this book illuminates the deep connections between categories of race sex gender and sexuality and the social hierarchies they support This book also explores how the

racial gender binary ideal has both shaped fin de siècle arguments for the respectability of male homosexuality and informed the mid twentieth century feminist analysis of Simone de Beauvoir's *The Second Sex*. Finally this book compares its approach to understanding the race gender connection to that of intersectional theorist Kimberle Crenshaw's *The Gender Binary and the Invention of Race*. It is an accessibly written book that will be of interest both to undergraduate and graduate students of Gender Studies as well as to a general audience wishing to learn more about the relationship between the categories of race, gender and sexuality.

Fundamental Feminism Judith Grant, 2013-09-13 In *Fundamental Feminism* Judith Grant explores the evolution of feminist theory as well as the state of today's feminist thought. Pointing to the main problems within feminism, Grant calls for a substantial revision of the core concepts responsible for shaping today's feminist theory. Grant identifies and critiques three core concepts in feminist theory: woman experience and personal politics from their origins in pamphlets and writings in the early women's liberation movement to their current construction in feminist thought. She connects a number of key debates in feminism today to the longstanding influence of these core assumptions. These debates include the hegemony of the white female perspective, the tension between anti pornography and pro sex feminists, and the challenges presented by postmodernism. *Fundamental Feminism* is provocative reading for anyone interested in the future of feminist theory and the power of feminist politics.

Readings in the Philosophy of Law - Third Edition Keith C. Culver, Michael Giudice, 2017-05-25 A rigorous introduction to profound questions about the nature and role of law.

Just Sex? Nicola Gavey, 2013-10-14 Winner of the Association for Women In Psychology 2006 Distinguished Publication Award. The past two decades have witnessed a significant shift in how rape is understood in Western societies. This shift in perception has revealed the startling frequency of occurrences of date rape, obscuring the divide between rape and what was once just sex. *Just Sex* combines an overview of the existing literature with an analysis of recent research to examine the psychological and cultural implications of this new epidemic. The result is the conclusion that feminist theory on sexual victimisation has gone both too far and not far enough. The reader is presented with a challenging and original perspective on the issues of rape, sex and the body, incorporating subjects including rape as a social problem, the social constructionism of sex subjectivity and the body, heterosexuality under the microscope. This book succeeds in making a valuable contribution to feminist and social constructionist work on rape that will be of interest to those studying psychology, gender studies, cultural studies and sociology.

Just Sex: The Cultural Scaffolding of Rape was selected as a 2005 winner of AWP's Association for Women in Psychology distinguished publication award.

Transgressive Bodies Niall Richardson, 2016-02-17 In recent years the body has become one of the most popular areas of study in the arts, social sciences and humanities. *Transgressive Bodies* offers an examination of a variety of non normative bodies and how they are represented in film, media and popular culture. Examining the non normative body in a cultural studies context, this book reconsiders the concept of the transgressive body, establishing its status as a culturally mutable term, arguing that popular

cultural representations create the transgressive or freak body and then proceed to either contain its threat or s exploit it Through studies of extreme bodybuilding obesity disability and transsexed bodies it examines the implications of such transgressive bodies for gender politics and sexuality Transgressive Bodies engages with contemporary cultural debates always relating these to concrete studies of media and cultural representations This book will therefore appeal to scholars across a range of disciplines including media and film studies cultural studies gender studies sociology sports studies and cultural theory

The Real Facts Of Life Margaret Jackson,2005-08-04 During the last twenty years feminist research into the history of sexuality has made important contributions to the theoretical understanding of the relationship between sexuality and male power When sexology became established as a science feminists had for many years been engaged in a struggle to change male sexuality by waging campaigns against male sexual violence and abuse of women and children by challenging the institutions of marriage and prostitution and by asserting in theory and in practice the right to female sexual autonomy Despite the excellent research published in this important and fascinating aspect of feminist history there are still gaps in our knowledge The Real Facts of Life aims to fill these gaps Why and when did sexuality become an important political issue for the 19th century feminist What was the history of campaigns against double standards of sexual morality Why were feminists so divided in their views about sexual freedom and its relationship to women s emancipation The analysis of these issues illuminates past and present feminists ideas and theories about sexuality Margaret Jackson s main aims in The Real Facts of Life are to make a contribution towards understanding the history of the struggle for female sexual autonomy to provide a revolutionary feminist analysis of the social construction of sexuality and its relationship to male power and to provide a critique of sexology and the male defined concept of sexual liberation

diverse and well known scholars as Friedrich Engels bell hooks Diana Scully Harry Brod and Linda Gordon and poets such as Audre Lorde and Margaret Randall The book also contains a number of original pieces with novel approaches to subjects such as domestic violence and its effects on children With its interdisciplinary perspective and wide ranging subject matter Gender Violence is an excellent primary text as well as an invaluable reference for scholars in the field of women and violence

Feminism, the Family, and the Politics of the Closet Cheshire Calhoun, 2000-09-07 Feminism the Family and the Politics of the Closet is about placing sexual orientation politics within feminist theorizing It is also about defining the central political issues confronting lesbians and gay men The book brings the study of lesbians from the margins of feminist theory to the center by critiquing the analytic frameworks employed within feminist theory that renders invisible lesbians difference from heterosexual women This book also outlines the basic features of lesbian and gay subordination by exploring the differences between heterosexual dominance and gender and race relations Throughout Calhoun aims to re center lesbian and gay politics away from concerns with sexual regulations and toward concern with the displacement of gays and lesbians from the public sphere of visible citizenship and from the private sphere of romance marriage and family
