Baudelaire and the Aesthetics of

Bad Faith Susan Blood, 1997-04-01 This is a study of Baudelaire's canonization in the critical debates of the twentieth century focusing particularly on his role in the development of a modernist consciousness Much recent work on Baudelaire assumes his modernism by emphasizing his relationship to current critical preoccupations by sounding him out on issues of race and gender for example or by correcting his politics The author begins from the premise that this updating of Baudelaire mistakenly takes him for our contemporary Instead she attempts to treat modernism as a historical problem by seeing Baudelaire as engaged in a more difficult dialogue with twentieth century critics The book concentrates on two key moments in the literary history of the twentieth century the periods following each world war At these junctures French intellectuals intensely reconsidered their cultural patrimony and articulated something like a modernist consciousness Baudelaire stood at the center of this process becoming a sacred figure of modernism and his poetry contributed to a radical reorienting of aesthetic sensibilities For the post World War I period the author focuses on Paul Valéry's essay Baudelaire's Situation for post World War II on the virulent debate between Jean Paul Sartre and Georges Bataille over the question of Baudelaire's bad faith She argues that Sartre's resistance to the sacralization of Baudelaire and to the continuing formulation of a modernist ideology actually suggests a valuable way of rethinking Baudelaire's poetry and critiquing the modern consciousness She attempts to show that something like an aesthetics of bad faith exists and that it is a useful concept for understanding modernism in relationship to its own history Throughout Baudelaire's poetry is examined in detail with a focus on its relationship to his writings on caricature on the problem of the secret architecture and on the place of allegory in a symbolist poetics In the closing chapter the author analyzes Baudelaire's denunciation of photography which reveals the various tensions or bad faith implicit in the modernist consciousness

The Chronographia of George the Synkellos and Theophanes Jesse W. Torgerson,2022-07-25 The ninth century Chronographia of George the Synkellos and Theophanes is the most influential historical text ever written in medieval Constantinople Yet modern historians have never explained its popularity and power This interdisciplinary study draws on new manuscript evidence to finally animate the Chronographia s promise to show attentive readers the present meaning of the past Begun by one of the Roman emperor s most trusted and powerful officials in order to justify a failed revolt the project became a shockingly ambitious re writing of time itself a synthesis of contemporary history philosophy and religious practice into a politicized retelling of the human story Even through radical upheavals of the Byzantine political landscape the Chronographia s unique historical vision again and again compelled new readers to chase after the elusive Ends of Time

Compromised Bodies

Sarah O'Neill, 2025-03-25 This ethnography unravels the continuing political tensions surrounding Senegal's 1999 national ban on female genital mutilation The Senegalese parliament authorized a national ban on Female Genital Mutilation in 1999 Because only a third of the Senegalese population practiced female genital cutting FGC at the time policy makers did not expect that the new law would cause controversy or provoke commotion Yet in Fouta Toro and among Fulani who traditionally practiced FGC the response to the new law was fury and frustrations often turned violent More than a decade after the ban Fouta Toro was considered the most difficult region for anti FGC activists both from inside and outside the government Tires were burned international NGO delegates were threatened and activists publicly speaking out against the practice were religiously condemned Animosity toward the ban remains palpable in the region to this day The ban many but not all locals say is nothing other than an overt act of Western cultural imperialism imposed on their community For these individuals resisting the ban is critical for maintaining the autonomy and integrity of a traditional way of life And from the outside opposition to the law and NGOs can seem unified However anthropologist Sarah O'Neill discovers that on the ground there are tensions between those who oppose the ban and those who support it even as that support is nuanced and often complicated This ethnography unravels the continuing political tensions surrounding both national and international interventions in Fouta Toro and in Senegal that place protection of the female body at the center of their concerns By way of the many stories of ordinary women and men caught up in debates around the value of the practice and meaning of FGC *Compromised Bodies* reveals the personal struggles and difficult decisions Fulani face be they traditional cutters religious leaders mothers husbands divorced women or anti FGC activists

Authenticity and Legitimacy in Minority

Theatre Patrice Brasseur, Madelena Gonzalez, 2010-04-16 Contemporary theatre is one of the best ways for ethno cultural minorities to express themselves whether they be of indigenous origin or immigrants It is often used to denounce social injustice and discrimination and more generally it helps to air questions debated in the wider community It may also express itself thanks to the staging of collective memory for it constitutes a privileged space for the exploration of the trauma of the past colonial for example as well as providing a means of effecting the reconfiguration of a new identity or of articulating an uneasiness about that identity Should minority theatre increase its visibility in relation to the mainstream or on the contrary remain on the margins and assert its specificity This question is at the centre of French Canadian experience for example but also applies to other postcolonial societies in Europe and elsewhere In order to maintain its cultural authenticity should this

type of theatre distinguish itself from a multiculturalism that runs the risk of political and social recuperation If it is unable to resist the model proposed by globalization and widespread cultural dissemination will it lose its legitimacy Can and should there be a form of popular art at the service of the community The term minority raises questions that will be examined by the articles collected in this volume What is the definition of a minority Does this term refer to experimental and avant garde art forms as well as to ethno cultural drama Contemporary theatre is characterized by an aesthetics of hybridity in what measure is this the case for theatre outside the mainstream The exploration of this kind of theatre necessitates an examination of the very concept of theatre per se Since the development of the electronic media as the privileged vector of culture has not the theatrical genre itself become a minority art form These are some of the pressing questions that this volume will try to address thanks to a cross cultural multidisciplinary approach that aims to reveal the rich diversity of the field under study **United States Export Almanac** ,1889 *Chemical news and Journal of physical science* ,1867
