Realities Of Teachers Work Never A Dull Moment:

Realities of Teachers' Work Sandra Acker, 1999-04-01 The *Realities of Teacher Work Never a Dull Moment* follows the fortunes of the teachers at Hillview Primary School over ten years. It explores what it is like to be a primary or elementary school teacher in an urban school with about 200 children mixed in social class and ethnicity and suggests what we may learn from them for the future. Sandra Acker links her research with other literature on teachers' work and describes the school as a workplace focusing on four key features: the characteristics of the children, the school's physical setting, the available resources, and the ethos of the school. She successfully places us in the classroom, giving vivid images of daily interactions with the children and shows too how teaching extends far beyond the classroom door. The book explores the caring culture that has developed among the teachers and helps them to cope with the difficulties they encounter. It also considers the school as located in the wider community by looking at changes in teachers' careers over time and the effects on Hillview of recent educational reform. This book shows us how and why we need to revise our assumptions about schools and teachers and see them not as isolated individuals in closed classrooms and self-contained schools but as an integral part of a much broader community. Above all, it shows that teaching is hard, demanding work that is influenced by workplace cultures and the gendered expectations society holds about teachers.

A passion for teaching [electronic resource] Christopher Day, 2004 This book is a celebration and an acknowledgement of the various forms of intellectual, physical, emotional, and passionate endeavours in which teachers at their best engage. Christopher Day demonstrates that teachers with a passion for teaching are those who are committed, enthusiastic, and intellectually and emotionally energetic in their work with children, young people, and adults alike. Having this passion for helping pupils to learn has recently been identified as one of the four leadership characteristics mentioned in the Hay-McBer Report on effective teachers. Day recognises that passionate teachers are aware of the challenge of the broader social contexts in which they teach, have a clear sense of identity, and believe they can make a difference to the learning and achievement of all their pupils. Offering a refreshing and positive view, *A Passion for Teaching* is a contribution to understanding and improving the teaching profession and brings new insights to the work and lives of teachers. It is written for all teachers, teacher educators, and student teachers who have a passion for education, who love learners, the learning life, and the teaching life.

Passage through the Threshold of Technological Change Elizabeth Majocha, 2015-06-17 Technology is becoming entrenched in schools' daily operations and classrooms. The evolution of information communication technology (ICT) is changing teachers' delivery of content, their interactions with students, and their management of information. Because ICT places new, unfamiliar demands on preparation time, it challenges teachers to strengthen their qualities to lead others and to help them thrive during technological change. As a result of the author's research work towards her doctorate degree, this book focuses on the four sets of qualities that are vital to teachers who are leading teachers, administrators, digitally native students, parents, and ICT professionals. These

qualities are hidden in every teacher and appear to be deceptively simple yet teachers need to nurture them within their core to effectively communicate and collaborate with others and expand their instructional repertoire with ICT As these qualities strengthen teacher leaders will be able to help their colleagues to realize their potential to use ICT beyond the classroom This book focuses on the essence of being a teacher leader Coaching and mentoring Assisting student learning Supporting others Becoming a curious technologist Taken from the author s research findings this book presents much needed teacher leadership reflections for teachers school administrators directors and professors on building qualities to lead others through weaving ICT into the culture of their classrooms *Anglo-Indian Identity* Robyn Andrews,Merin Simi Raj,2021-02-17 Revisionist in approach global in scope and a seminal contribution to scholarship this original and thought provoking book critiques traditional notions about Anglo Indians a mixed descent minority community from India It interrogates traditional notions about Anglo Indian identity from a range of disciplines perspectives and locations This work situates itself as a transnational intermediary identifying convergences and bridging scholarship on Anglo Indian studies in India and the diaspora Anglo Indian identity is presented as hybridised and fluid and is seen as being representative performative affective and experiential through different interpretative theoretical frameworks and methodologies Uniquely this book is an international collaborative effort by leading scholars in Anglo Indian Studies and examines the community in India and diverse diasporic locations such as New Zealand Britain Australia Pakistan and Burma Teaching, Learning, and Loving Daniel Patrick Liston,James W.
