Realities The Miracle Of God:

New Creation Realities E. W. Kenyon, 2025-07-15 Christianity has revealed the secret that psychologists have long sought the inward soul the re created spirit the focus of God s great redemptive work on earth The four Gospels give us a wonderful picture of the lonely man of Galilee the humble Messiah who ends His earthly walk on Calvary But Paul s Epistles give us the risen triumphant One the conqueror of death sin and Satan He provides the revelation of what happened on the cross and in the tomb and how that affects who and what we are in Christ today Legendary Bible teacher E W Kenyon delves deeply into Paul s teaching to give us a living picture of the entire substitutionary work of Christ which made possible the new creation a new race of men and women who can stand in God s presence without a sense of guilt condemnation or inferiority **A**

Problem of Evil Brian Davies, 2006-10-11 An important new book on how we can still believe in a God of love and confront the problem of evil in the world Probably the most important book on the subject since John Hick s book Evil and the God of Love Professor Davies says we should tackle this problem by attending to the basics by asking whether there is a God and then What is God he starts by summarizing the arguments so far from Seneca to the present day He then moves to what he describes as the basics see above and demonstrates that much of what has been written about on the topic of evil is in fact irrelevant or just plain wrong This is a lively book on a tricky subject written at all times with humour and much practical example **The Reality of Human Life** Bedrich V. Hettich, 2012 The Universe goes round and round as does the Earth and

Life on it What is the reality behind the ever changing activities within each of these The eight essays included in The Reality of Human Life present an overall vision of the diversity of human life Based upon author Bedrich Hettich s life experiences

and observations this collection offers a modern perception of the invisible existence of God a Spirit revealed behind the reality of the power existing throughout the Universe right down to planet Earth in it with the diversity of human life on it These essays address the questions of why and how we got here what we are supposed to do while we are here and what happens to us when we die The topics of these essays relate human activities directly to God serving as an extension of the essays in Hettich s first collection The Reality of God in the Universe Human life creates its own diversity including the diversity of integration with other life forms that still exist on the Earth These essays seek to build an understanding of how this diversity relates to the process by which we learn collectively and individually to work and live together in harmony referred to as the tuning of human life

Hope and Present Reality Andrew Chester,2012 This book is the first of a two volume work with the overall title Future Hope and Present Reality These volumes had their origin in the Speaker s Lectures that Andrew Chester gave in Oxford their main focus is central themes in biblical eschatology and especially the apparent contradictions between what is hoped for in the future and what is experienced in the present the stark discrepancy that is between the world as it is and the world as it should be In this first volume as the subtitle Eschatology and Transformation in the Hebrew Bible indicates the author is concerned with the Hebrew Bible or Old Testament the second will be on the New Testament He deals successively with central eschatological themes and the deep tensions they involve divine threats of an absolute end to human life and to the world itself and divine promises of blessing and transformation along with the theological questions inevitably raised by these both in themselves and in relation to each other the whole phenomenon of prophecy and the problems it involves not least whether it can be taken seriously in face of the contradictions and failures it manifests He discusses the sheer discrepancy between ideal and reality in traditions relating to kingship along with the tensions inherent in the emergence of

messianic hope death as representing the end of any relationship with God along with hope that goes beyond death in relation both to the individual and also the nation and finally visions of a transformed and paradisaical world and whether these can bear any relation to reality It is argued that the Hebrew Bible can be seen to offer genuine grounds for hope but that these can have any cogency only if the problems involved are really engaged with The Self-revelations of God ... Samuel Harris,1886 **The Self-revelation of God** Samuel Harris,1887 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it Amazon com Living in the Shadow of Reality Dr. Silas Gaines,2022-12-18 Westerners often make the mistake of discounting the spiritual aspects of life as not real imaginary a mere reflection of what is experienced in the real world by which they usually mean the physical world that we experience with our five senses Many claim that the concept of angels and demons are creations of our imagination that God or the gods of other religions are mere projections that we create for ourselves The argument goes like this Humans look at physical reality and then create imagine a shadow world the spirit world based upon our experience of real life But what if the opposite is true What if what we are experiencing with our five senses is really just a reflection in a pond What if the real begins with the spiritual and then is reflected into the physical If this hypothesis is true if indeed what we see happening around us in the physical world begins in the spiritual world and is only later manifested where we can perceive it with our five senses then that has profound implications for us in a practical sense If true this would mean that individual crimes acts of evil and aggression and perhaps even larger events armed conflicts terrorist strikes or man made catastrophes that occur in our physical world might be avoided altogether if we can stop them at the spiritual level Likewise what if good might blossom in our physical world as a result of intervention at the spiritual level It certainly seems that we have evidence for both in human experience and in the scriptures Join Dr Silas Gaines as he walks his readers through a scriptural historical and personal journey to identify spiritual laws and principles that govern our current reality Gaines aids us in highlighting spiritual laws woven into the Created Order of which we are often dangerously ignorant and which often hold the keys to humanity flourishing in God's plans and purposes Gaines invites us to join in a journey that will open our eyes to new realities around us and empower us to walk into our God given destinies impacting people and the world around us as we were born to do *Spiritual Truths in Search for Higher Levels of Well-Being* Raul Llanos MD,2020-11-17 This book is an expression of the maturity of my vocation as a healer and my profession as a medical doctor that has given me the tools and the opportunity to find and to share more wellbeing in our lives If we become more conscious of our awareness we will be able to get in touch with an infinite capacity to create richer stages of being During the passages of my book I will share with you spiritual truths that I consider very important to be conscious in the pursue of higher stages of wellbeing Throughout the chapters of the book we will get in touch with our capacity to always expand our conscious reality I include concepts that will help us to be conscious of who we are and how to experience with more easiness and elegancy our holographic reality We
