**Art, Vision, and Nineteenth-Century Realist Drama** Amy Holzapfel, 2014-01-03 Realism in theatre is traditionally defined as a mere seed of modernism a crude attempt to reproduce an exact copy of reality on stage *Art Vision Nineteenth Century Realist Drama* redefines realism as a complex and under examined form of visual modernism one that positioned theatre at the crux of the encounter between consciousness and the visible world Tracing a historical continuum of acts of seeing on the realist stage Holzapfel demonstrates how theatre participated in modernity's aggressive interrogation of vision's residence in the human body New findings by scientists and philosophers such as Diderot Goethe Müller Helmholtz and Galton exposed how the visible world is experienced and framed

by the unstable relativism of the physiological body rather than the fixed idealism of the mind Realist artists across media paradoxically embraced this paradigm shift by focusing on the embodied observer Drawing from extensive archival research Holzapfel conducts close readings of iconic dramas and their productions including Scribe's *The Glass of Water* Zola's *Thérèse Raquin* Ibsen's *A Doll House* Strindberg's *The Father* and Hauptmann's *Before Sunrise* alongside analyses of artwork by major painters and photographers such as Chardin Nadar Millais Rejlander and Liebermann In a radical challenge to existing criticism Holzapfel argues that realism in theatre was never the attempt to reproduce an exact copy of the seen world but rather the struggle to make visible the act of seeing

Today We're Alive Linden Wilkinson, 2016-04-26 By 1888 after 100 years of colonisation it is estimated that 95% of the Australian Aboriginal and Torres Strait islander population had disappeared Along with starvation disease dispossession and grief a further contributing factor to this decline was murder Massacres occurred sequentially as the line of first contact forged its way across a country that had been occupied cared for and loved for over 50 000 years by about 250 separate Aboriginal nations The concomitant brutality subsumed in the colonial narrative of zeal purpose and prosperity meant that massacres were shrouded in silence for generations denied ignored and under reported However one particular massacre remains an anomaly The massacre at Myall Creek occurred on June 10th 1838 in the fading light of a wintry Sunday afternoon It was perpetrated by eleven convicts under the leadership of one free born squatter's son they had hunted blacks together before They tethered twenty eight old men women and children Weraera people of the Kamilaroi nation led them away from their camp and then systematically butchered them all These details are available because this particular massacre went to trial One hundred and sixty two years later a group of Aboriginal and non Aboriginal people formed a committee and built a memorial to commemorate the only massacre in Australia's colonial history where some but not all of the perpetrators were punished Today We're Alive Generating Performance in a Cross Cultural Context an Australian Experience is a doctoral thesis which examines the multiple narratives embedded in colonial and recent history At the heart of this research is a verbatim play the interweaving of Aboriginal and non Aboriginal testimonies about Myall Creek and the memorial testimonies sourced from descendants of massacre survivors descendants of massacre perpetrators and involved others As a thesis it explores the possibilities offered by performance ethnography as a decolonizing methodology as a play the research seeks to find a reconciliation narrative a story that through performance addresses the past and recognises the possibilities of a shared future

**Extended Reality**

**Shakespeare** Aneta Mancewicz, 2024-05-31 This Element argues for the importance of extended reality as an innovative force that changes the understanding of theatre and Shakespeare It shows how the inclusion of augmented and virtual realities in performance can reconfigure the senses of the experiencers enabling them to engage with technology actively Such engagements can in turn result in new forms of presence embodiment eventfulness and interaction In drawing on Shakespeare's dramas as source material this Element recognises the growing practice of staging them in an extended

reality mode and their potential to advance the development of extended reality Given Shakespeare's emphasis on metatheatricality his works can inspire the layering of environments and the experiences of transition between the environments both features that distinguish extended reality The author's examination of selected works in this Element unveils creative convergences between Shakespeare's dramaturgy and digital technology *Ethnodrama* Johnny Saldaña, 2005-02-04

*Ethnodrama* An Anthology of Reality Theatre contains seven carefully selected ethnodramas that best illustrate this emerging genre of arts based research a burgeoning but evident trend in the field of theatre production itself In his introduction to ethnodrama and to the plays themselves Saldaña emphasizes how a credible vivid and persuasive rendering of a research participant's story as a theatrical performance creates insights for both researcher and audience not possible through conventional qualitative data analysis With their focus on the personal immediate and contextual these plays about marginalized identities abortion street life and oppression manage a unique balance between theoretical research and everyday realism *New Media as Performance in Site-specific Art* Shih-yun Lu, 2013-01-30 This practical based research explores space sites and interventions in particular site specific installation of art works involving the physical virtual space and interactive theatre space within new media art *Virtual Reality Narratives* Kath Dooley, 2024-08-28 This monograph delves into recent evolutions in virtual reality VR storytelling focusing on entertainment based works created or launched since 2020 Through various case studies it showcases the increasing diversity and sophistication of recent narrative based projects Moving past the initial hype associated with the latest wave of VR a number of innovative and affective works combining documentary based or fictional storytelling with game mechanics live theatre and other elements have appeared at festivals or on distribution platforms in recent years These interdisciplinary works have much to tell us about the future of VR storytelling but have yet to receive sustained analysis This book aims to correct that Dooley argues that VR as an interactive medium that places the user inside a storyworld in a visible or invisible virtual body offers narratives that incorporate the user's body as a storytelling tool This fosters user centred stories that unfold in three dimensional space Adopting phenomenological and formal analysis methodologies the monograph examines case studies through their approaches to narrative style and interactive devices Key concepts that are explored include agency direct address environmental and spatial storytelling embodiment and presence By providing a much needed analysis of works through a variety of theoretical lenses the book illustrates how recent VR storytelling fosters powerfully transformative experiences

**The Theatricalists** Theron Schmidt, 2024-09-15 Examines how the politics of the theater can illuminate the theatricality of politics Theatricality is often dismissed as a distraction from real politics as when cynical political gestures are derided as pure theater or only theater But the artists and theater companies discussed in this book including Back to Back Theatre Tim Crouch Rabih Mroue Nature Theater of Oklahoma and Christoph Schlingensiefel take a different approach Theron Schmidt argues that they represent a theatricalist turn that explores and tests the conditions of the theater itself Across diverse

contexts of political engagement ranging from disability rights to representations of violence these theatrical conditions are interconnected with political struggles such as those over who is seen and heard how labor is valued and what counts as political in the first place In a so called post political era The Theatricalists argues that an examination of theater s internal politics can expand our understanding of the theatricality of politics more broadly      *Drama Education in the Lives of Girls* Kathleen Gallagher,2001-01-01 Through drama girls can explore their particular sexual cultural ethnic and class based identities Gallagher s research offers pedagogical alternatives in an increasingly mechanistic and disempowering period in education      *Literature and Human Rights* Ian Ward,2015-03-10 The idea of human rights is not new But the importance of taking rights seriously has never been more urgent The eighteen essays which comprise Literature and Human Rights are written as a contribution to this vital debate Each moreover is written in the spirit of interdisciplinarity reaching across the myriad constitutive disciplines of law literature and the humanities in order to present an array of alternative perspectives on the nature and meaning of human rights in the modern world The taking of human rights seriously it will be suggested depends just as much on taking seriously the idea of the human as it does the idea of rights      **Theatre Arts Monthly** ,1929
