Reality And Evangelical Theology:

Reality and Evangelical Theology Thomas F. Torrance, 2003-03-03 T F Torrance is widely recognized as one of our most important twentieth century theologians And scholars of Torrance suggest Reality Scientific Theology is one of his most accessible works Torrance s insights on Christian epistemology are remarkably relevant in light of recent discussions on realism and antirealism in philosophy and theology Torrance brilliantly sets forth no naive or even critical realism but rather an evangelical realism knowledge grounded in the revelation of God in Jesus Christ He not only constructively argues the case for an evangelical realism but compares and contrasts theological knowledge with natural scientific knowledge and shows how the Bible can function authoritatively in a fragmented church This edition of Reality and Evangelical Theology includes an in depth foreword that contextualizes Torrance s seminal theological work in light of recent debates over postmodern and postcritical hermeneutics to Scripture It will handsomely repay engagement or reengagement by theologians philosophers students and thoughtful pastors *Reality and evangelical theology : the realism of Christian revelation* Thomas F. Torrance, 1999 Reality & Evangelical Theology Thomas Forsyth Torrance, 2003 This book by Thomas F Torrance is a collection of lectures on theological and biblical interpretation of divine revelation *Reality and Evangelical Theology* Thomas Forsyth Torrance, 1982 This new edition of Reality Evangelical Theology includes an in depth foreword that contextualizes Torrance s seminal theological work in light of recent debates over postmodernism and postcritical hermeneutics to Scripture It will handsomely repay engagement or reengagement by theologians philosophers students and thoughtful pastors **Worship and the Reality of God** John Jefferson Davis, 2010-10-07 Professor John Jefferson Davis shows what s really needed for the renewal of worship in our evangelical churches Moving far beyond the worship wars Davis provides profound theological analysis and fresh recommendations to help us recognize obstacles to worship and learn to rightly respond to the glory and gracious real presence of God among us in our worship **Reality and Scientific Theology** Thomas F. Torrance, 2001-11-28 In this book the author argues for a rigorous scientific theology under the double constraint of the reality of God and the reality of the world of space and time Careful attention is given to the common commitment of theological and natural science to objective knowledge and the deeply natural relation between knowledge of God the Creator and knowledge of the world he has made Stress is laid upon the stratified structure of theology and the need for a radical simplification and unification of Christian doctrine Is theology the science of God and is it concerned with objective knowledge like natural science Is there a natural theology and how is it related to knowledge of God through divine relation How is the community of faith within which dogmatic theology arises related to the social coefficient of scientific inquiry What is the place of mysticism and of art in theology Does theology have a special notion of truth and does it have its own inner logic and structure These are some of the main questions which this book seeks to answer *A Model for Evangelical Theology* Graham McFarlane, 2020-09-15 Written by a skilled theologian with over two

decades of classroom experience this introduction to evangelical theology explains how connecting to five sources of Christian theology Scripture tradition reason experience and community leads to a richer and deeper understanding of the faith Graham McFarlane calls this the evangelical quintilateral which he recommends as a helpful rubric for teaching theology This integrative model introduces students to the sources themes tasks and goals of evangelical theology making the book ideal for introductory theology courses

The Unassumed Is the Unhealed Kevin Chiarot, 2013-09-24 This work addresses a pivotal and controversial area lying at the heart of T F Torrance's Christology Namely that Jesus Christ assumed fallen and sinful humanity and living out a sinless life from within our alienated state healed our human nature This is a claim that is conceptually basic to Torrance's integration of incarnation and atonement and thus to his soteriology as a whole It's pervasive nature and its significance within the overall structure of Torrance's thought is thoroughly and sympathetically set forth Christ's assumption of sinful flesh is seen to lie underneath a number of disputed areas in Torrance's thought such as the role or lack thereof of human responsibility and the question of universalism This work not only illuminates but rigorously examines the claim that the unassumed is the unhealed

Mission and Evangelism in a Secularizing World Narry F. Santos, Mark Naylor, 2019-02-14 Secularization as a movement away from a religious orientation to life is strong in Canada and has influence worldwide In this volume missiologists and practitioners across Canada consider how an agenda of Christian mission and evangelism can be advanced in a secularizing environment How can believers be curious and engaged rather than defensive and fearful What changes are required from the evangelical community so that there is productive dialogue and action in ways that maintain faithfulness to the cause of Christ What should the approach of mission be to a new generation steeped in secular narratives How do we answer negative caricatures of Christian mission in light of the history of

Residential Schools What examples from the past teach us about developing an irenic approach What positive trends are currently evident in Canada and around the world that counter the secularizing narrative These questions and more are considered in this volume by Canadian scholars who recognize the importance of being relevant to society while maintaining integrity with the Gospel message The essays address secularism in Canadian and worldwide contexts with seriousness insight and an underlying theme of hope recognizing that God's mission has been accomplished is being accomplished and will be accomplished

Encountering Reality Travis M. Stevick, 2016-12-01 Encountering Reality argues for a new appreciation of T F Torrance on epistemology and reality According to Torrance's realism all authentic knowledge involves the nature of the object impressing its inherent rationality on the mind Consequently knowledge involves thinking in accordance with the nature of the object We shall explore the place and function of ultimate beliefs in epistemology as well as the question as to whether such beliefs imply a retreat to either foundationalism or fideism The inescapability of ultimate beliefs in all human knowledge requires a shift in the traditional notion of objectivity We find that shift in the account provided by T F Torrance whose epistemological position implies an alternative notion of truth Drawing on distinctly Christian sources Torrance emphasizes the distinction between truth and truthfulness thereby reorienting the discussion from a focus on statements to a focus on being This shift challenges the dichotomy between correspondence and coherence theories of truth and provides one way of transcending the scientific realism anti realism debate and gives rise to a practical epistemological tool disclosure models which function as self correcting self marginalizing lenses through which we encounter reality yielding knowledge in accordance to the nature of the thing known

Getting Real Gary Tyra, 2018-02-08 Some reputable sociological research indicates that a surprising number of evangelical churchgoers are living out a version of the Christian life that's more informed by the values of the surrounding culture than by the discipleship teachings of Jesus and his apostles Viewing the cause of this disturbing trend in the church to be a discipleship deficit that's exacerbated by a pneumatological deficit Gary Tyra has written a book that addresses both In this work Tyra encourages evangelical Christians of all stripes to become more fully aware of the tremendous difference it makes when the Holy Spirit is experienced in ways that are real and existentially impactful rather than merely theoretical conceptual and or ritualistic Intended to be read by church leaders as well as by students in Christian colleges and seminaries the message here is that the cure for the ministry malady currently confronting us is the recovery of a robust fully Trinitarian doctrine of the Spirit A pneumatological realism says Tyra combined with an understanding of just how important a spiritual moral and missional faithfulness is to a genuine Christian discipleship can revitalize the lives of individual Christians and churches making it possible for them to reach their post Christian peers for Christ

Communion with the Triune God Dick O Eugenio, 2014-08-28 The revival of Trinitarian studies in the twentieth century ushered in a new era of theological innovation The renewed and dedicated articulation of the Trinity as a doctrine in its own right is indeed noteworthy but more important

and praiseworthy are the recent endeavours of theologians to integrate the doctrine of the Trinity with other Christian doctrines and with the many variegated aspects of the life and ministries of the church. Today it is common to encounter the term Trinitarian being used as a modifier: Trinitarian worship, Trinitarian ecclesiology, etc. This book presents Thomas F. Torrance as a participant theologian in this integrative paradigm. Because Torrance argues that the Trinity is the ground and grammar of theology, his doctrine of salvation is consistently Trinitarian. But how did he formulate his unique Trinitarian soteriology? Communion with the Triune God seeks to answer this question. *Narrative and the Triune Reality* Wai Luen Kwok, 2022-05-13. Robert Jenson is commended as one of the greatest American theologians in the twentieth century. This book proposes a critique of Jenson's narrative Trinitarianism by comparing it with Eberhard Jungel's theology. It argues for the importance of the double dimensions of event and communicative linguistics of the Divine narrative. Thomas F. Torrance Paul D. Molnar, 2016-02-17. This book provides an important study of the theology of Thomas F. Torrance, who is generally considered to have been one of the most significant theologians writing in English during the twentieth century, with a view toward showing how his theological method and all his major doctrinal views were shaped by his understanding of the doctrine of the Trinity. Torrance pursued a theology that was realist because he attempted to think in accordance with the unique nature of the object that is known. In holding to such a methodology, he drew an analogy between theology and natural science. This book demonstrates how, for Torrance, God relates with humanity within time and space so that creation finds its meaning in relation to God and not in itself. This enabled him to avoid many theological pitfalls such as agnosticism, subjectivism, and dualism while explaining the positive implications of various Christian doctrines in a penetrating and compelling manner. This book offers an important resource for students of theology and for scholars who are interested in seeing how serious dogmatic theology shapes and should shape our understanding of the Christian life. The Ecclesiology of Thomas F. Torrance Kate Tyler, 2019-08-12. This book provides a constructive analysis of Thomas F. Torrance's ecclesiology. Holding the doctrine of the Trinity to be the ground and grammar of theology, Torrance viewed the doctrine of the Trinity as foundational for all ecclesiological reflection. What does it mean to be the people of the God whom Christians name as Father, Son, and Spirit? Tyler examines Torrance's development of the rich potential of the metaphor *koinonia*, involving both a vertical dimension, the Church's union with Christ through the Spirit, and a horizontal dimension, its visible existence in human history lived out in space and time, and considers how the relationship between these two dimensions informs the structured forms of the Church's life, its ecumenical breadth, and its missional vision. *T. F. Torrance's Christological Anthropology* Christopher G. Woznicki, 2022-06-01. This book demonstrates the promise of Christology for developing Scottish theologian T. F. Torrance's theological anthropology. T. F. Torrance's *Christological Anthropology* discerns humanity in Christ, engages with several key themes in Torrance's theological anthropology, and considers how each of these topics, anthropological method, the metaphysics of human nature, the *imago Dei*, personhood, vocation, human destiny, can be further developed in light of Christ.

Christopher Woznicki argues that Christology not only holds promise for the task of developing Torrance's insights on humanity but also for developing a constructive account of humanity. The volume is valuable reading for scholars of T F Torrance's theology and for those who are interested in the role of Christology in theological anthropology. Memory and Hope David T. Priestley, 2006-01-01 How are Baptists distinctive as a Christian denomination? Canadian Baptists confronted with the question of discovering a common identity from the welter of strands of influence that make up their heritage may infer several answers from the essays in *Memory and Hope*. Focussing on Baptist history in central and western Canada, *Memory and Hope* discusses individuals, institutions and issues that have stirred Baptists in North America for two centuries, including confessionalism and eucharistic theology and fundamentalism vs modernism. Recurring themes include the Baptist role in education in Canada, the establishment of new churches overseas, missions and social responsibility. Essayists also examine the powerful forces that have influenced Baptist history: immigration, theology and society. Studies of missionary Samuel Stearns, Day, fundamentalists Abernethy, Maxwell and Shields, and social gospellers Sharpe and Shaw illustrate the diversity of ideas and personalities that have shaped and been shaped by the Baptist Church. *Memory and Hope* is an important resource for the history of the Baptist Church in Canada. In the issues it raises on the role of churches in the twenty-first century, it will also make a significant contribution to the study of religion in general. **Transcendence and Spatiality of the Triune Creator** Chan Ho Park, 2005 Since Augustine many philosophers and theologians have discussed the relation of God to time, whereas the relation between God and space has been rarely discussed. This book deals with the relationship of God to space. Divine transcendence is one important aspect of the Christian God. However, God is also immanent in the world of space and time. The author investigates the concept of divine spatiality and presents case studies of three modern theologians: Torrance, Pannenberg and Moltmann. He also analyses divine spatiality by using Dyrness's three categories: relationship, agency and embodiment. *The Domain of the Word* John Webster, 2012-08-30 The book brings together a set of related studies on the nature of Scripture and of Christian theology by one of the most prominent representatives of Protestant theology of our time. After a brief introduction on the setting of the book and its major themes, the first part of the volume examines topics on the nature and interpretation of Scripture. A comprehensive proposal about Scripture and its interpretation is followed by a study of Scripture as the embassy of the risen Christ and by three related chapters analyzing the ways in which widely different major modern theologians, Barth, T F Torrance and Rowan Williams, have understood the nature and interpretation of the Bible. The second part of the volume makes a cumulative proposal about the nature and tasks of Christian theology, examining the fundamental principles of systematic theology, the distinctive role and scope of reason in Christian theology, the relation of theology to the humanities and the vocation of theology to promote the peace of the church.
