**The Reality of Aid 2000** Judith Randel, Tony German, Deborah Ewing, 2013-11-05 NOW IN ITS SEVENTH ANNUAL EDITION The Reality of Aid 2000 looks at how the performance of OECD donor countries on aid and development cooperation has matched up to the challenge of eliminating absolute poverty The report charts some improvements at the level of donor policy and rhetoric But its stark conclusion is that the potential of aid to combat poverty is constantly undermined by governments both North and South who fail to address the extreme inequalities of income and

the structural social and political injustices that entrench people in poverty Part I of *The Reality of Aid 2000* presents an overview of poverty in the current global context and an analysis of recent trends in aid looking particularly at basic education In Part II chapters by experts from NGOs in OECD countries and the European Union show how donor aid administrations approach poverty and highlight the weakness of political commitment in the North to the needs of the poor Part III sets out Southern perspectives on development cooperation Part IV provides at a glance comparisons of donors aid outlook and commitment to development cooperation in the 21st century poverty eradication gender and public support Throughout the book information is presented in easily interpreted diagrams and graphs *The Reality of Aid* has established itself as a unique source of independent evaluation and comment on aid policies and development It is indispensable for all in the field whether in the official or voluntary sectors providing a regular reality check on just how much the international community is doing to realise the achievable goal of eliminating poverty Indispensable it gives you most of the hard facts you need to know about the major issues Nett Internationalist The most comprehensive and rigorous independent analysis of the aid and development policies of the world s wealthiest nations Essential reading Charity World *The Reality of Aid* remains an essential purchase by the libraries of development institutions and an invaluable reference for development practitioners Development Change A reliable watchdog for anyone interested in this important aspect of international relations ORBIT An accessible reference it encompasses many key issues and stimulates further research Commonwealth Comparative Politics Originally published in 1999 *The Right to Development and International Economic Law* Isabella D Bunn, 2012-03-01 The United Nations is commemorating the 25th anniversary of the 1986 Declaration on the Right to Development which proclaimed the right to be an inalienable human right by virtue of which every human person and all peoples are entitled to participate in contribute to and enjoy economic social cultural and political development in which all human rights and fundamental freedoms can be realized The UN now aims to mainstream the right into its policies and operational activities and is reviewing prospects for an internationally binding legal instrument The evolution of the right to development however has been dominated by debates about its conceptual validity and practical ramifications It has been hailed as the cornerstone of the entire human rights system and criticized as a distracting ideological initiative Questions also persist about the role of the right in reforming the international economic order This book examines the legal and moral foundations of the right to development addressing the major issues It then considers the right to development in the global economy noting the challenges of globalization and identifying key principles such as differential treatment of developing countries participation and accountability It relates the right to broad objectives such as the Millennium Development Goals the human rights based approach to development and environmental sustainability Implications for international economic law and policy in the areas of trade development finance and corporate responsibility are assessed The conclusion looks to the legal and ethical contributions and limitations of the right to development in this new context With an academic and professional background
