New Trends in Early Foreign Language Learning Maria González Davies,2012-01-17

This volume is the result of the presentations and discussions carried out at the Conference on Early Foreign Language Learning in Educational Contexts Bridging Good Practices and Research organized by the University Ramon Lull the University of Bari and LEND Lingua e Nuova Didattica in March 2010 At the Conference both teachers and researchers met to examine recent language teaching theories and practices from a transnational and intercultural perspective on the one hand and on the other to fill the gap in the field of English as a Foreign Language EFL in schools and to pave the way for a wider platform of discussion between School and University Since these two institutions have often had little contact and as there is excellent work carried out in both our attempt was to build more solid bridges across their contexts engaging school teachers in ongoing research and bringing everyday classroom practice nearer to university theoreticians in an open exchange forum so that the reflection on teaching and learning becomes relevant and rewarding for the participants involved in Early Foreign Language Learning in 21st century contexts Drawing on the main topics presented throughout the Conference this book has been structured around three main thematic areas 1 the Age Factor 2 CLIL and Content based research and practices and 3 developing intercultural competence use of the L1 and translation as mediation skills Each of these sections encompasses high quality contributions all informed by salient and recent research clear and justified theoretical standpoints and good practices which are appealing to an international audience and setting The editors sincerely hope that this volume contributes to widen the field of foreign language teaching and learning to include studies on young learners perceptions and performance At the same time they would like to highlight the decisive new focus on

language learning adopted in the 21st century the inclusion of a wider vision of language acquisition one that highlights the relevance of using languages not only to communicate but more relevantly to mediate between cultures as a means to bring together the plurilingual and pluricultural citizens of our future *Sharing Less Commonly Taught Languages in Higher Education* Emily Heidrich Uebel, Angelika Kraemer, Luca Giupponi, 2023-12-22 This edited volume highlights how institutions programs and less commonly taught language LCTL instructors can collaborate and think across institutional boundaries bringing together voices representing different approaches to LCTL sharing to highlight affordances and challenges across institutions in this collection of essays *Sharing Less Commonly Taught Languages in Higher Education* showcases how innovation and reform can make LCTL programs and courses more attractive to students whose interests and needs might be overlooked in traditional language programs The volume focuses on how institutions programs and LCTL instructors can work together collaborating and thinking across institutional boundaries to explore innovative solutions for offering a wider range of languages and levels With challenges including instructor isolation difficulty in offering advanced courses or sustaining course sequences and minimal availability of pedagogical materials compared to commonly taught languages to overcome this collection is a vital resource for language educators and language program administrators The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivative Licence CC BY NC ND 4 0 license *International Handbook of Information Technology in Primary and Secondary Education* Joke Voogt, Gerald Knezek, 2008-08-26 Since the introduction of the computer into education in the 1960 s its potential for K 12 education has been widely recognized The terminology used at times confusing due to rapid technology change has continuously evolved We are in transition to an information society and the term computer technology has been replaced by information technology IT or information and communication technology ICT New demands from the information society require education to focus on information management and communication skills for which IT can be an essential resource IT offers promising environments and tools to support new approaches to teaching and learning Despite major investments the implementation of IT in education has been a persistent problem And although it is generally assumed that IT has high potential for improving education major research findings have only recently confirmed positive results of IT on students performance While there is a vast amount of research on information technology IT in K 12 education most of it is scattered Until now a unified presentation of the research from a broad international perspective has not been accomplished As a ground breaking publication the two volume *International Handbook on Information Technology* full title synthesizes the major issues and directions of research in the field One major focus of the Handbook is the design and potential of IT based student learning environments Offering the latest research in IT and the learning process distance learning and emerging technologies for education these chapters address the critical issue of the potential for IT to improve K 12 education A second important theme deals with the implementation of IT in educational practice In these chapters

barriers and opportunities for IT implementation are studied from several perspectives the teacher the curriculum the school organization and educational policy Curriculum competencies and attitudes teacher learning schools and international and regional programs and policies are examined to improve understanding how the implementation of IT in K 12 educational practice can be supported Additional topics addressed in the Handbook include the role of education in the information society threats to equity in education and as well various approaches to research in IT in education The International Handbook on Information Technology in Primary and Secondary Education provides researchers policy makers and practitioners with an integrated and detailed overview of this complex field making it an essential reference for all libraries and educators
