Reallotment Math/Context Holt, Rinehart and Winston Staff, 2002-10 Improving Instruction in Geometry and Measurement Margaret Schwan Smith, Edward A. Silver, Mary Kay Stein, 2005-01-01 Helping students develop an understanding of important mathematical ideas is a persistent challenge for teachers In this book one of a three volume set well known mathematics educators Margaret Smith Edward A Silver and Mary Kay Stein provide teachers of mathematics the support they need to improve their instruction They focus on ways to engage upper elementary middle school and high school students in thinking reasoning and problem solving to build their mathematics understanding and proficiency The content focus of Volume One is rational numbers and proportionality Using materials that were developed under the NSF funded COMET Cases of Mathematics to Enhance Teaching program each volume in the set features cases from urban middle school classrooms with ethnically racially and linguistically diverse student populations Each case illustrates an instructional episode in the classroom of a teacher who is implementing standards based instruction the teachers perspective including their thoughts and actions as they interact with students and with key aspects of mathematical content cognitively challenging mathematics activities that are built around samples of authentic classroom practice and facilitation chapters to help professional developers teach the cases including specific guidelines for facilitating discussions and suggestions for connecting the ideas presented in the cases to a teacher s own practice As a complete set this resource provides a basis on which to build a comprehensive professional development program to improve mathematics instruction and student learning

Mathematics in Context ,1998 Standards-based Mathematics Assessment in Middle School Thomas A. Romberg, 2004 This volume takes an in depth look at the problems and practices involved in conducting formative assessments in middle school mathematics classrooms In these chapters researchers and teachers identify the challenges teachers faced as they attempted to implement new assessment procedures moving from more traditional methods to an emphasis in the quality of student work This authoritative book Documents the shift from traditional ways of judging student performance tests to measure what students know to reform notions of mathematical literacy documenting students growth in understanding specific content domains Discusses four key steps in the change process that helped teachers to accomplish the necessary shift in assessment practices Includes two chapters written by teachers that describe their personal experiences with implementing these new practices in the classroom and outlines a professional development program that evolved as a consequence of the work done by the teachers and students discussed in this book **Britannica Mathematics in Context**
