Reason Over Passion Harriet Martineau And The Novel:

Reason Over Passion Valerie Sanders, 1986 Rosenbaum presents The Early Literary History of the Bloomsbury Group a subtle and powerful picture of the Bloomsbury Group showing clearly what has been vague their beginnings in the Victorian era before human character changed as Virginia Woolf said Rosenbaum is an unparalleled interpreter of the philosophical as well as the literary traditions absorbed by this group Richard Ellman thorough and knowledgeable Library Journal

Novel Approaches to Anthropology Marilyn Cohen, 2013-09-05 This volume of interdisciplinary essays reflect current contributions to literary anthropology *Novel Approaches to Anthropology Contributions to Literary Anthropology* showcases the myriad ways that anthropologists bring their disciplinary perspectives theories concepts and pedagogical strategies to interpreting fiction and travel writing written in the past and present The authors integrate insights from the reflexive deconstructive turn in anthropology and from critical Marxist and feminist approaches that ground interpretation in the political economic and social constraints and experiences of everyday life The contributors share the view that fiction like all artistic expression is rooted in specific historical and cultural contexts Literature like all artistic expression stimulates a critical imagination by allowing readers to take a fresh look at their own society and culture **Contested Liberalisms**

Crawford Iain Crawford, 2010-10-08 Reframes the long standing critical narrative of the relationship between Harriet Martineau and Charles Dickens Demonstrates through new readings of Martineau and Dickens's travel in and writing about the United States how their encounters with the American public sphere were crucially formative in both writers careers and in their shaping as journalists Places Martineau and Dickens within the context of Anglo American liberalism thereby expanding our reading of them beyond earlier schema framed in narrower terms of political economy Expands understandings of transatlantic literary exchange to offer a more comprehensive reading than those offered through an

earlier critical focus simply on the issue of international copyright. Focusing on the importance of Martineau's contribution to the development of the early Victorian press, this book highlights the degree to which the public quarrel between her and Dickens in the mid 1850s represented larger fissures within nineteenth century liberalism. It places Martineau and Dickens within the context of Anglo American liberalism and demonstrates how these fissures were embedded within a transatlantic conversation over the role of the press in forming a public sphere essential to the development of a liberal society.

Invalidism and Identity in Nineteenth-Century Britain Maria H. Frawley, 2010-11-15 Nineteenth century Britain did not invent chronic illness but its social climate allowed hundreds of men and women from intellectuals to factory workers to assume the identity of invalid. Whether they suffered from a temporary condition or an incurable disease, many wrote about their experiences leaving behind an astonishingly rich and varied record of disability in Victorian Britain. Using an array of primary sources, Maria Frawley here constructs a cultural history of invalidism. She describes the ways that Evangelicalism, industrialization, and changing patterns of doctor-patient relationships all converged to allow a culture of invalidism to flourish and explores what it meant for a person to be designated or to deem oneself an invalid. Highlighting how different types of invalids developed distinct rhetorical strategies, her absorbing account reveals that contrary to popular belief, many of the period's most prominent and prolific invalids were men, while many women found invalidism an unexpected opportunity for authority. In uncovering the wide range of cultural and social responses to notions of incapacity, Frawley sheds light on our own historical moment, similarly fraught with equally complicated attitudes toward mental and physical disorder.

Victorian Pain Rachel Ablow, 2020-06-09 The nineteenth century introduced developments in science and medicine that made the eradication of pain conceivable for the first time. This new understanding of pain brought with it a complex set of moral and philosophical dilemmas. If pain serves no obvious purpose, how do we reconcile its existence with a well-ordered universe? Examining how writers of the day engaged with such questions, *Victorian Pain* offers a compelling new literary and philosophical history of modern pain. Rachel Ablow provides close readings of novelists Charlotte Brontë and Thomas Hardy and political and natural philosophers John Stuart Mill, Harriet Martineau, and Charles Darwin, as well as a variety of medical, scientific, and popular writers of the Victorian age. She explores how discussions of pain served as investigations into the status of persons and the nature and parameters of social life. No longer conceivable as divine trial or punishment, pain in the nineteenth century came to seem instead like a historical accident, suggesting little or nothing about the individual who suffers. A landmark study of Victorian literature and the history of pain, *Victorian Pain* shows how these writers came to see pain as a social as well as a personal problem. Rather than simply self-evident to the sufferer and unknowable to anyone else, pain was also understood to be produced between persons and even perhaps by the fictions they read.

Sociological Theory Beyond the Canon Syed Farid Alatas, Vineeta Sinha, 2017-05-27 This book expands the sociological canon by introducing non-Western and female voices and subjects the existing canon itself to critique. Including

chapters on both the founding fathers of sociology and neglected thinkers it highlights the biases of Eurocentrism and androcentrism while also offering much needed correctives to them The authors challenge a dominant account of the development of sociological theory which would have us believe that it was only Western European and later North American white males in the nineteenth and early twentieth century who thought in a creative and systematic manner about the origins and nature of the emerging modernity of their time This integrated and contextualised account seeks to restructure the ways in which we theorise the emergence of the classical sociological canon This book s global scope fills a significant lacuna and provides a unique teaching resource to students of classical sociological theory Family Likeness Mary Jean

Corbett,2011-03-15 In nineteenth century England marriage between first cousins was both legally permitted and perfectly acceptable After mid century laws did not explicitly penalize sexual relationships between parents and children between siblings or between grandparents and grandchildren But for a widower to marry his deceased wife s sister was illegal on the grounds that it constituted incest That these laws and the mores they reflect strike us today as wrongheaded indicates how much ideas about kinship marriage and incest have changed In Family Likeness Mary Jean Corbett shows how the domestic fiction of novelists including Jane Austen Charlotte Bront George Eliot Elizabeth Gaskell and Virginia Woolf reflected the shifting boundaries of family and even helped refine those borders Corbett takes up historically contingent and culturally variable notions of who is and is not a relative and whom one can and cannot marry Her argument is informed by legal and political debates texts in sociology and anthropology and discussions on the biology of heredity breeding and eugenics In Corbett s view marriage within families between cousins in laws or adoptees offered Victorian women both real and fictional an attractive alternative to romance with a stranger not least because it allowed them to maintain and strengthen relations with other women within the family Reading Victorian Illustration, 1855-1875 Paul Goldman,2016-04-01 In a reevaluation

of that period in Victorian illustration known as The Sixties a distinguished group of international scholars consider the impact of illustration on the act of reading its capacity to reflect construct critique and challenge its audience s values its response to older graphic traditions and its assimilation of foreign influences While focused on the years 1855 to 1875 the essays take up issues related to the earlier part of the nineteenth century and look forward to subsequent developments in illustration The contributors examine significant figures such as Ford Madox Brown Frederick Sandys John Everett Millais George John Pinwell and Hablot Knight Browne in connection with the illustrated magazine the mid Victorian gift book and changing visual responses to the novels of Dickens Engaging with a number of theories and critical debates the collection offers a detailed and provocative analysis of the nature of illustration its production consumption and place within the broader contexts of mid Victorian culture **Thinking Through Style** Michael D. Hurley,Marcus Waithe,2018-01-05 What is style and how does it relate to thought in language It has often been treated as something merely linguistic independent of thought ornamental stylishness for its own sake Or else it has been said to subserve thought by mimicking delineating or

heightening ideas that are already expressed in the words This ambitious and timely book explores a third more radical possibility in which style operates as a verbal mode of thinking through Rather than figure thought as primary and pre verbal and language as a secondary delivery system style is conceived here as having the capacity to clarify or generate thinking The book s generic focus is on non fiction prose and it looks across the long nineteenth century Leading scholars survey twenty authors to show where writers who have gained reputations as either stylists or as thinkers exploit the interplay between the what and the how of their prose The study demonstrates how celebrated stylists might after all have thoughts worth attending to and that distinguished thinkers might be enriched for us if we paid more due to their style More than reversing the conventional categories this innovative volume shows how style and thinking can be approached as a shared concern At a moment when especially in nineteenth century studies interest in style is re emerging this book reevaluates some of the most influential figures of that age re imagining the possible alliances interplays and generative tensions between thinking thinkers style and stylists

Enacting Englishness in the Victorian Period Angelia Poon, 2017-03-02 Angelia Poon examines how British colonial authority in the nineteenth century was predicated on its being rendered in ways that were recognizably English Reading a range of texts by authors that include Charlotte Bront Mary Seacole Charles Dickens Rudyard Kipling and H Rider Haggard Enacting

Englishness in the Victorian Period focuses on the strategies narrative illustrative and rhetorical used to perform English subjectivity during the time of the British Empire Characterising these performances which ranged from the playful ironic and fantastical to the morally serious and determinedly didactic was an emphasis on the corporeal body as not only gendered racialised and classed but as in visible desiring bound in particular ways to space and marked by certain physical stylizations and ways of thinking As she shines a light on the English subject in the act of being and becoming Poon casts new light on the changing historical circumstances and discontinuities in the performances of Englishness to disclose both the normative power of colonial authority as well as the possibilities for resistance First-Person Anonymous Alexis Easley,2017-05-15

First Person Anonymous revises previous histories of Victorian women s writing by examining the importance of both anonymous periodical journalism and signed book authorship in women s literary careers Alexis Easley demonstrates how women writers capitalized on the publishing conventions associated with signed and unsigned print media in order to create their own spaces of agency and meaning within a male dominated publishing industry She highlights the importance of journalism in the fashioning of women s complex identities thus providing a counterpoint to conventional critical accounts of the period that reduce periodical journalism to a monolithically oppressive domain of power relations Instead she demonstrates how anonymous publication enabled women to participate in important social and political debates without compromising their middle class respectability Through extensive analysis of literary and journalistic texts Easley demonstrates how the narrative strategies and political concerns associated with women s journalism carried over into their signed books of poetry and prose Women faced a variety of obstacles and opportunities as they negotiated the demands of signed and unsigned print media In investigating women s engagement with these media Easley focuses specifically on the work of Christian Johnstone 1781 1857 Harriet Martineau 1802 76 Elizabeth Gaskell 1810 65 George Eliot 1819 80 and Christina Rossetti 1830 94 She provides new insight into the careers of these authors and recovers a large anonymous body of periodical writing through which their better known careers emerged into public visibility Since her work touches on two issues central to the study of literary history the construction of the author and changes in media technology it will appeal to an audience of scholars and general readers in the fields of Victorian literature media studies periodicals research gender studies and nineteenth century *The 'Invisible Hand' and British Fiction, 1818-1860* E. Courtemanche,2011-04-12

The invisible hand Adam Smith s metaphor for the morality of capitalism is explored in this text as being far more subtle and intricate than is usually understood with many British realist fiction writers Austen Dickens Gaskell Eliot having absorbed his model of ironic causality in complex societies and turned it to their own purposes Victorian Narratives of the Recent Past Helen Kingstone,2017-03-30 This book explains why narrating the recent past is always challenging and shows how it was particularly fraught in the nineteenth century The legacy of Romantic historicism the professionalization of the historical discipline and even the growth of social history all heightened the stakes This book brings together Victorian histories and

novels to show how these parallel genres responded to the challenges of contemporary history writing in divergent ways. Many historians shrank from engaging with controversial recent events. This study showcases the work of those rare historians who defied convention, including the polymath Harriet Martineau, English nationalist J. R. Green, and liberal enthusiast Spencer Walpole. A striking number of popular Victorian novels are retrospective. This book argues that Charlotte Brontë, Elizabeth Gaskell, and George Eliot's novels of the recent past are long overdue recognition as genuinely historical novels. By focusing on provincial communities, these novelists reveal undercurrents invisible to national narratives and intervene in debates about women's contribution to history.

Clio's Daughters Lynette Felber, 2007. They discover new texts and methodologies exploring nineteenth-century British women's historiography; their writing of history often through unexpected sources not previously regarded as historical venues: journalism, travel writing, architectural preservation, and costume balls.

BOOK JACKET *Romances of Free Trade* Ayse Celikkol, 2011-07-29. Drawing on works by Walter Scott, Dickens, Charlotte Brontë, and others, *Romances of Free Trade* offers a new account of the cultural work of romance in nineteenth-century Britain, arguing that novelists and playwrights employed the genre to represent a radically new historical formation: the emergence of the global free market economy.

Popular Victorian women writers Kay Boardman, Shirley Jones, 2024-07-30. *Popular Victorian women writers* considers a diverse group of women writers within the Victorian literary marketplace. It looks at authors such as Ellen Wood, Mary Braddon, Rhoda Broughton, and Charlotte Yonge, as well as less well-known writers including Jessie Fothergill and Eliza Meteyard. Each essay sets the individual author within her biographical and literary context and provides refreshing insights into their work. Together, they bring the work of largely unknown authors and new perspectives on known authors to critical and public attention. Accessible and informative, the book is ideal for students of Victorian literature and culture, as well as tutors and scholars of the period.
