Delivering Happiness When Chip Conley dynamic author of the bestselling *Peak* suffered a series of devastating personal and professional setbacks he began using what he came to call Emotional Equations such as Joy Love Fear to help him focus on the variables in life that he could handle rather than dwelling on the parts he couldn't such as the bad economy death and taxes Using brilliantly simple logic that illuminates the universal truths in common emotional challenges Emotional Equations offers a way to identify the elements in our lives that we can change those we can't and how to better understand our emotions so they can help us rather than hurt us Equations like Despair Suffering Meaning and Happiness Wanting What You Have Having What You Want have been reviewed for mathematical and psychological accuracy by experts Now Conley tells his own comeback story and those of other resilient people and inspiring role models who have worked through emotional equations in their own lives Emotional Equations arms you with practical strategies for turbulent times *Authenticity* James H. Gilmore, B. Joseph Pine II, 2007-10-18 Contrived Disingenuous Phony Inauthentic Do your customers use any of these words to describe what you sell or how you sell it If so welcome to the club Inundated by fakes and sophisticated counterfeits people increasingly see the world in terms of real or fake They would rather buy something real from someone genuine rather than something fake from some phony When deciding to buy consumers judge an offering's and a company's authenticity as much as if not more than price quality and availability In *Authenticity* James H Gilmore and B Joseph Pine II argue that to trounce rivals companies must grasp manage and excel at rendering authenticity Through examples from a wide array of industries as well as government nonprofit education and religious sectors the authors show how to manage customers perception of authenticity by recognizing how businesses fake it appealing to the five different genres of authenticity charting how to be true to self and what you say you are and crafting and implementing business strategies for rendering authenticity The first to explore what authenticity really means for businesses and how companies can approach it both thoughtfully and thoroughly this book is a must read for any organization seeking to fulfill consumers intensifying demand for the real deal *Peak* Chip Conley, 2007-09-10 After fifteen years of rising to the pinnacle of the hospitality industry Chip Conley's company was suddenly undercapitalized and overexposed in the post dot com post 9 11 economy For relief and inspiration Conley the CEO and founder of Joie de Vivre Hospitality turned to psychologist Abraham Maslow's iconic Hierarchy of Needs This book explores how Conley's company the second largest boutique hotelier in the world overcame the storm that hit the travel industry by applying Maslow's theory to what Conley identifies as the key Relationship Truths in business with Employees Customers and Investors Part memoir part theory and part application the book tells of Joie de Vivre's remarkable transformation while providing real world examples from other companies and showing how readers can bring about similar changes in their work and personal lives Conley explains how to understand the motivations of employees customers bosses and investors and use that understanding to foster better relationships and build an enduring and profitable corporate culture **Best! - No Need to Be Cheap If You Are...** Mike Hohnen, 2013-05-22 Inspired by the

principles developed in the Service Profit Chain Mike Hohnen takes you through each of the steps needed to create an outstanding service business We live in a world of abundance there is plenty of choice everywhere And since 2008 we have experienced significant drops in demand as consumers became more careful The result is a widening gap between supply and demand in virtually any category you can imagine When that happens many companies have a knee jerk reaction and the recipe is more or less always the same initiate rigorous cost cutting programmes reduce staff and or services offer discounts in many forms and increase advertising aggressively This however is the equivalent of trying to steer and brake as your car begins to skid on black ice while going through a sharp curve As you hit that declining demand curve you need to perform what at first seems like a counter intuitive move hold your price increase your services improve your quality and narrow your focus in the market In this book you will not only understand why but also see how you can do that **Hospitality**
