Rebel Women:

Rebel Women Jane Eldridge Miller, 1997-03-15 With the rise of women's suffrage challenges to marriage and divorce laws and expanding opportunities for education and employment for women the early years of the twentieth century were a time of social revolution Examining British novels written in 1890-1914 Jane Eldridge Miller demonstrates how these social legal and economic changes rendered the traditional narratives of romantic desire and marital closure inadequate forcing Edwardian novelists to counter the limitations and ideological implications of those narratives with innovative strategies The original and provocative novels that resulted depict the experiences of modern women with unprecedented variety specificity and frankness *Rebel Women* is a major re-evaluation of Edwardian fiction and a significant contribution to literary history and criticism Miller's is the best account we have not only of Edwardian women novelists but of early 20th century women novelists the measure of her achievement is that the distinction no longer seems workable David Trotter *The London Review of Books*

Rebel Women Stephen Wilmer, John Dillon, 2014-07-04 A collection of essays by many distinguished contributors focused on the portrayal of rebel women in ancient Greek drama Ancient Greek drama provides the modern stage with a host of powerful female characters who stand in opposition to the patriarchal structures that seek to limit and define them For contemporary theatre directors their representation serves as a vehicle for examining and illuminating issues of gender power family and morality as germane today as when the plays were first written *Rebel Women* brings together essays by leading writers from across different disciplines examining the representation of ancient Greek heroines in their original contexts and on today's stage Divided into three sections it considers in turn international productions Irish versions and studies of the original texts The articles explore how such characters as Iphigenia Medea Antigone and Clytemnestra have been portrayed in recent times and the challenges and provocation they offer to both contemporary audiences and dramatists alike Seamus Heaney and Athol Fugard are brought together as contributors by the inspiration that ancient Greek tragedy has offered to them both There are offerings here on Iphigenia Medea Antigone Clytemnestra film drama Greece Russia and especially Ireland Amidst all this variety the level of interest and of scholarship are consistently high Oliver Taplin Professor of Classical Languages and Literature Oxford University

All the Rebel Women Kira Cochrane, 2013-12-05 On a bright day at the Epsom Derby 4 June 1913 Emily Wilding Davison was hit by the king's horse in one of the defining moments of the fight for women's suffrage what became known as feminism's first wave The second wave arose in the late 1960s activists campaigning tirelessly for

women's liberation organising around a wildly ambitious slate of issues a struggle their daughters continued in the third wave that blossomed in the early 1990s Now a hundred years on from the campaign for the vote fifty years since the very first murmurs of the second wave movement a new tide of feminist voices is rising Scattered across the world campaigning online as well as marching in the streets women are making themselves heard in irresistible fashion They're demonstrating against media sexism domestic violence and sexual assault fighting for equal pay affordable childcare and abortion rights Thousands are sharing their experiences through the Everyday Sexism project marching in Slutwalk protests joining demonstrations in the wake of the Delhi gang rape challenging misogynist behaviour and language online crusaders and ordinary people organising for the freedom of women everywhere Kira Cochrane's *All the Rebel Women* is an irrepressible exploration of today's feminist landscape asking how far we have come over the past century and how far there still is to go Whether engaging with leading feminists describing the fight against rape culture or bringing immediate powerful life to vital theories such as intersectionality *All the Rebel Women* binds everything together into one unstoppable idea This is modern feminism This is the fourth wave

Rebel women Evelyn Sharp, 2022-06-02 *Rebel women* by Evelyn Sharp is the first biography of an unapologetic rebel and a wonderful writer The stories revealed various situations that suffragettes went through The book provides the feminist point of view of the author in regards to society Evelyn Sharp's story captures the changes in possibilities for talented Victorian women who lived into the mid twentieth century Excerpt Funny isn't it said the young man on the top of the omnibus No said the young woman from whom he appeared to expect an answer I don't think it is funny Take care said the young man's friend nudging him perhaps she's one of them Everybody within hearing laughed except the woman who did not seem to be aware that they were talking about her She was on her feet steadying herself by grasping the back of the seat in front of her and her eyes non committal in their lack of expression were bent on the roaring restless crowd that surged backwards and forwards in the Square below where progress was gradually becoming an impossibility due to the stream of traffic struggling towards Whitehall

Women's Work Jennifer Moore,2025-03-11 When women have full socioeconomic citizenship as well as equitable and respectful partnerships with men transformative justice can be sustained in postconflict societies In Women s Work Jennifer Moore presents a reimaged theory of peacebuilding and transformative justice based on the experiences and insights of women farmers and microentrepreneurs who lived through protracted civil conflicts drawing on seven years of interviews with women activists across ten communities five in the Acholi region of Northern Uganda and five in the Moyamba and Koinadugu Districts of Sierra Leone Despite the important differences between the preconflict and conflict histories and demographics of the two countries Moore finds commonalities in the practical yet visionary approaches to community life emerging from the core values daily activities and long range goals shared by rural cooperative members in both regions Collective survival communal healing and conflict resolution define the rhythm of these women s daily lives as they go about building peace piecemeal They reject punitive retribution models and demand instead a peacebuilding model that advocates for advances in material well being the acknowledgment of state accountability for community suffering and reconciliation and restoration of community networks But most important Moore amplifies these women s voices when they insist that legal equality for women and healthy partnerships between women and men are also essential components to enduring transformation of their societies Moore theorizes what peacebuilding look like if it were modeled on these women led matriarchically structured communities that proved not only to be effective at holding governments accountable but also to have the capacity to feed their people and revitalize their local economies Women s Work shows that when women have full socioeconomic citizenship as well as equitable and respectful partnerships with men transformative justice can be sustained through the arts of collective livelihood violence free conflict management and celebration *Why Women Rebel* Alexis Henshaw,2016-12-08 *Why Women Rebel* presents a global analysis of the extent to which women are engaged in armed

organized rebellions and why they choose to join such rebellions Henshaw has collected and analyzed data on women's participation in over 70 post Cold War rebel groups The book provides a theoretical analysis drawing upon both mainstream literature in the social sciences and critical feminist inquiry on women and political violence to offer a new gendered theory on why women rebel The book reveals that women are active in over half of all rebel groups sampled and that while the majority of rebel groups have women serving in support roles away from direct combat approximately a third of these groups employ women in the conduct of armed attacks and just over a quarter have women in a leadership capacity Henshaw reaffirms the idea that women are more likely to be engaged in left wing political organizations but does suggest that more conservative or traditional movements may also successfully incorporate women by appealing to concerns about community rights Addressing several gaps in the current literature on this topic this book will be of interest to academics in the fields of political science international relations security studies and gender and women's studies Micropolitics in Contemporary China Marc J. West Africa's Trouble Spots and the Imperative for Peace-Building Osita Agbu, 2007-10-15 This monograph highlights the necessity for taking preventive measures in the form of peace building as a sustainable and long term solution to conflicts in West Africa with a special focus on the Mano River Union countries Apart from the Mano River Union countries efforts at resolving other conflicts in say Guinea Bissau Senegal Cote d'Ivoire and Nigeria have suffered from a lack of attention on the post conflict imperatives of building peace in order to ensure that sustainable peace is achieved Given the often intractable and inter related nature of conflicts in this region it argues for the need to revisit the existing mechanisms of conflict resolution in the sub region with a view to canvassing a stronger case for stakeholders towards adopting the peace building strategy as a more practical and sustainable way of avoiding wars in the sub region Peace building in consonance with its infrastructure is a more sustainable approach to ensuring regional peace and stability and therefore ensuring development for the peoples of West Africa Dr Osita Agbu is currently a Senior Research Fellow at the Nigerian Institute of International Affairs Lagos His areas of specialization include Peace and Conflict studies Governance and Democratization and Technology and Development He was until recently a Visiting Research Fellow at the Institute of Developing Economies Chiba Japan *The Southern Rock Revival* Jason T. Eastman, 2017-03-16 While some people find new opportunities in the postindustrial economy many working class men find their social and economic well being collapse as blue collar jobs are outsourced and offshored to the global labor market Faced with limited options to earn a living wage many of these blue collar workers are instead changing who they are embracing a deviant rebellious identity expressed by the contemporary southern rock revival musicians studied in this book Although loosely based in the traditional culture and lifestyle of the southeastern United States contemporary southernness has little to do with region but instead is a way to rebel from the very institutions blue collar men traditionally used as the basis of their masculine pride family education employment military service and religion This contemporary form

of southernness reflected in their music also involves deviance as many of these men adorn themselves with the highly controversial confederate flag binge drink alcohol brawl with one another and use drugs Combining interviews participant observation and a lyrical analysis this book explores these aspects of rebellious southernness through music as it exists in the ideal sense and as individual men try to live up to these subcultural ideals in their daily lives The southern rock revival is a new social movement carving out a place for an alternative way to live while simultaneously perpetuating stereotypes about poor men reinforcing social disadvantage and marginalization

Modernism and the Women's Popular Romance in Britain, 1885-1925 Martin Hipsky, 2011-10-15 Today s mass market romances have their precursors in late Victorian popular novels written by and for women In Modernism and the Women s Popular Romance Martin Hipsky scrutinizes some of the best selling British fiction from the period 1885 to 1925 the era when romances especially those by British women were sold and read more widely than ever before or since Recent scholarship has explored the desires and anxieties addressed by both low modern and high modernist British culture in the decades straddling the turn of the twentieth century In keeping with these new studies Hipsky offers a nuanced portrait of an important phenomenon in the history of modern fiction He puts popular romances by Mrs Humphry Ward Marie Corelli the Baroness Orczy Florence Barclay Rebecca West Elinor Glyn Victoria Cross Ethel Dell and E M Hull into direct relationship with the fiction of Virginia Woolf Katherine Mansfield James Joyce and D H Lawrence

among other modernist greats *The History of British Women's Writing, 1880-1920* Holly A. Laird, 2016-10-06 The ranks of English women writers rose steeply in the late 19th and early 20th centuries contributing to the era's revolutionary social movements as well as to transforming literary genres in prose and poetry The phenomena of the new New Women New Unionism New Imperialism New Ethics New Critics New Journalism New Man are this moment's touchstones This book tracks the period's new social phenomena and unfolds its distinctively modern modes of writing It provides expert introductions amid new insights into women's writing throughout the United Kingdom and around the globe **Kitchen Economics** Thomas Strychacz, 2020-08-11 An analysis of how nineteenth century women regional writers represent political economic thought WINNER OF THE ELIZABETH AGEE PRIZE IN AMERICAN LITERATURE Readers of late nineteenth century female American authors are familiar with plots characters and households that make a virtue of economizing Scholars often interpret these scenarios in terms of a mythos of parsimony frequently accompanied by a sort of elegiac republicanism whereby self sufficiency and autonomy are put to the service of the greater good a counterworld to the actual economic conditions of the period In *Kitchen Economics Women's Regionalist Fiction and Political Economy* Thomas Strychacz takes a new approach to the question of how female regionalist fictions represent the economic by situating them within traditions of classical political economic thought Offering case studies of key works by Sarah Orne Jewett Mary Wilkins Freeman Harriet Beecher Stowe Rose Terry Cooke and Alice Dunbar Nelson this study focuses on three complex cultural fables the island commonwealth stadialism or stage theory and feeding the body politic which found formal expression in political economic thought made their way into endless public debates about the economic turmoil of the late nineteenth century and informed female authors These works represent counterparts not counterworlds to modernity and their characteristic stance is captured in the complex trope of feminaeconomica This approach ultimately leads us to reconsider what we mean by the term economic for the emphasis of contemporary neoclassical economics on economic agents given over to infinite wants and complete self interest has caused the sufficiency and common good models of female regionalist authors to be misinterpreted and misvalued These fictions are nowhere more pertinent to modernity than in their alliance with today's important alternative economic discourses *The Sowing of Swords, Or, The Soul of the 'sixties* George Edmonds, 1910
