

Rebellion Repression

Dan Landis, Rosita D. Albert

Rebellion Repression:

Political Rebellion Ted Robert Gurr, 2015-01-09 This volume comprises key essays by Ted Robert Gurr on the causes and consequences of organized political protest and rebellion its outcomes and strategies for conflict management From the Castro inspired revolutionary movements of Latin America in the 1960s to Yugoslavia's dissolution in ethnonational wars of the 1990s and the popular revolts of the Arab Spring millions of people have risked their lives by participating in protests and rebellions Based on half a century of theorizing and social science research this book brings together Gurr's extensive knowledge and addresses the key questions surrounding this subject What grievances hopes and hatreds motivated the protesters and rebels What did they gain that might have offset myriad deaths and devastation How effective are protest movements as alternatives to rebellions and terrorism What public and international responses lead away from violence and toward reforms The essays in the volume are updated and are organized around the evolving themes of the author's research including theoretical arguments interpretations and references to the evidence developed in his empirical research and case studies The concluding essays bring theory and evidence to bear on the past and future of political violence in Africa This book will be of much interest to student of rebellion political violence conflict studies security studies and IR

Rebellion Movements Sebastian Farnham, 2025-03-29 Rebellion Movements offers a comprehensive exploration into why some uprisings succeed while others fail reshaping political landscapes and national boundaries It examines catalysts of discontent insurgent strategies and the long term impacts of revolts The book uniquely highlights the critical roles of ideology leadership resource mobilization and international influence revealing how popular support and geopolitical context interplay to determine outcomes The book approaches this complex topic by first establishing a theoretical framework using core concepts Then it delves into diverse historical case studies such as anti colonial struggles and revolutions against authoritarian regimes Ultimately it synthesizes these lessons to develop a predictive model for contemporary uprisings making it valuable for understanding political instability The book progresses by introducing core concepts examining historical case studies clustered around major themes and developing a predictive model Drawing on primary sources and quantitative data Rebellion Movements integrates perspectives from sociology economics and international relations providing a holistic understanding of social change and political violence

The Rise and Decline of the Insurgency in Pakistan's FATA Shahzad Akhtar, 2022-12-16 This book analyzes the emergence rise and decline of insurgency by the Pakistani Taliban in Pakistan's North Western region also known as Federally Administered Tribal Areas FATA It provides a detailed account of the rise and decline of the FATA insurgency and also examines aftereffects of the insurgency Offering an in depth analysis of how insurgency in the FATA began in 2004 after Pakistan entered its military forces into the tribal areas the author illustrates that the insurgency erupted when state repression on masses is combined with a disruption of the previous modus vivendi centered on co optation of local elites In the following years the insurgency became so powerful that

most of the FATA region fell under the control of the insurgents The book further argues that a weak counterinsurgency strategy by the Pakistani government characterised by the overzealous use of force and a failure to win the support of local communities led the insurgency to become stronger and expand its control Furthermore the analysis reveals that a more robust counterinsurgency strategy relying more on a determined and a judicious use of force and attempts to gain the trust and support of local communities adopted in the later years led to the collapse of the insurgency In short this book offers an explanation of what makes an insurgency more likely to occur and how insurgency escalates and declines In addition this book sheds light on recent development in FATA including the merger of FATA with the mainstream Pakistan the rise of the Pashtun Tahafuz Movement a non violent protest movement and the resurgence of the Pakistani Taliban especially after the Afghan Taliban capture of Kabul in the wake of US withdrawal of forces in Afghanistan This book is a timely addition to the literature on South Asian Politics and Security Studies Handbook of Ethnic Conflict Dan Landis,Rosita D.

Albert,2012-02-14 Although group conflict is hardly new the last decade has seen a proliferation of conflicts engaging intrastate ethnic groups It is estimated that two thirds of violent conflicts being fought each year in every part of the globe including North America are ethnic conflicts Unlike traditional warfare civilians comprise more than 80 percent of the casualties and the economic and psychological impact on survivors is often so devastating that some experts believe that ethnic conflict is the most destabilizing force in the post Cold War world Although these conflicts also have political economic and other causes the purpose of this volume is to develop a psychological understanding of ethnic warfare More specifically Handbook of Ethnopolitical Conflict explores the function of ethnic religious and national identities in intergroup conflict In addition it features recommendations for policy makers with the intention to reduce or ameliorate the occurrences and consequences of these conflicts worldwide **Beyond the Military Revolution** Jeremy Black,2011-04-01 The seventeenth century has long been seen as a period of crisis or transition from the pre modern to the modern world This book offers a

chance to explore this crisis from the perspective of war and military institutions in a way that should appeal to those doing global history By placing 17th century warfare in a global context Black challenges conventional chronologies and permits a reappraisal of the debate over what has been seen as the Military Revolution of the early modern period The book discusses war with regard to strategic cultures assesses military capability in terms of tasks and challenges faced and attaches styles of warfare to their social and political contexts Genuinely global in range this up to date and wide ranging account provides fresh historiographical insights into this crucial period in world history **By, For, and About Marines** Lt Col Sidney

Atwater US Marine Corps,2021-07-08 By For and About Marines is a nonfiction collection of notable quotes giving voice to U S Marines throughout its storied and illustrious history Each quote is set in historical context to give the reader a better understanding of where when and why the quote is included *The Cambridge Companion to Frederick Douglass* Maurice

S. Lee,2009-06-11 Frederick Douglass was born a slave and lived to become a best selling author and a leading figure of the

abolitionist movement A powerful orator and writer Douglass provided a unique voice advocating human rights and freedom across the nineteenth century and remains an important figure in the fight against racial injustice This Companion designed for students of American history and literature includes essays from prominent scholars working in a range of disciplines Key topics in Douglass studies his abolitionist work oratory and autobiographical writings are covered in depth and new perspectives on religion jurisprudence the Civil War romanticism sentimentality the Black press and transatlanticism are offered Accessible in style and representing new approaches in literary and African American studies this book is both a lucid introduction and a contribution to existing scholarship

The Art of Not Being Governed James C. Scott, 2009-01-01 From the acclaimed author and scholar James C Scott the compelling tale of Asian peoples who until recently have stemmed the vast tide of state making to live at arm s length from any organized state society For two thousand years the disparate groups that now reside in Zomia a mountainous region the size of Europe that consists of portions of seven Asian countries have fled the projects of the organized state societies that surround them slavery conscription taxes corv e labor epidemics and warfare This book essentially an anarchist history is the first ever examination of the huge literature on state making whose author evaluates why people would deliberately and reactively remain stateless Among the strategies employed by the people of Zomia to remain stateless are physical dispersion in rugged terrain agricultural practices that enhance mobility pliable ethnic identities devotion to prophetic millenarian leaders and maintenance of a largely oral culture that allows them to reinvent their histories and genealogies as they move between and around states In accessible language James Scott recognized worldwide as an eminent authority in Southeast Asian peasant and agrarian studies tells the story of the peoples of Zomia and their unlikely odyssey in search of self determination He redefines our views on Asian politics history demographics and even our fundamental ideas about what constitutes civilization and challenges us with a radically different approach to history that presents events from the perspective of stateless peoples and redefines state making as a form of internal colonialism This new perspective requires a radical reevaluation of the civilizational narratives of the lowland states Scott s work on Zomia represents a new way to think of area studies that will be applicable to other runaway fugitive and marooned communities be they Gypsies Cossacks tribes fleeing slave raiders Marsh Arabs or San Bushmen

International Handbook of Violence Research Wilhelm Heitmeyer, John Hagan, 2005-08-12 An international manual is like a world cruise a once in a lifetime experience All the more reason to consider carefully whether it is necessary This can hardly be the case if previous research in the selected field has already been the subject of an earlier review or even several competing surveys On the other hand more thorough study is necessary if the intensity and scope of research are increasing without comprehensive assessments That was the situation in Western societies when work began on this project in the summer of 1998 It was then too that the challenges emerged any manual espe cially an international one is a very special type of text which is anything but routine It calls for a special effort the state of the art has to be documented for selected subject areas

and its presentation made as compelling as possible The editors were delighted therefore by the cooperation and commitment shown by the eighty one contributors from ten countries who were recruited to write on the sixty two different topics by the constructive way in which any requests for changes were dealt with and by the patient response to our many queries This volume is the result of a long process It began with the first drafts outlining the structure of the work which were submitted to various distinguished colleagues Friedheim Neidhardt of Berlin Gertrud Nunner Winkler of Munich and Roland Eckert of Trier to name only a few supplied valuable comments at this stage

Hype Jon Helgason, Sara Kärrholm, Ann Steiner, 2015-01-01 In the world of books and literature hype is associated with bestsellerism the books that sell the most are read by vast numbers and constantly talked about in media and staff rooms Often it is the success in itself that generates an interest because popularity begets popularity Quite often though a hyped bestseller is met with a skeptic criticism of poor language a badly constructed plot a predictable story line or all three The bestseller phenomenon is sometimes conceived as a threat against real literature Research into the creation reception and meaning of bestsellers is utterly scarce and Hype Bestsellers and Literary Culture is an important contribution to the understanding of the literature read by the masses Popular literature plays an important role in the lives of millions of readers offering entertainment social commentary and alternate perspectives on everyday life This volume brings together such diverse issues as the creation of hype the role and the meaning of the author in the present day media landscape changes in the book trade and the relationship between bestsellers and research into them Further articles give an historical overview on postapocalyptic stories desert romances and the role of the authors This book offers new knowledge on a subject that is increasingly popular within university curricula Although the anthology is a work of academic research the texts are of equal interest to general readers

Cochabamba, 1550-1900 Brooke Larson, 1998 A historical and theoretical analysis of the formation of colonial society in the Cochabamba Valleys of Bolivia A new final chapter reexamines the findings of the original study and situates this regional history in the political historiographical perspective

Collective Violence James F. Short, Jr., Marvin Eugene Wolfgang, Collective violence has played an important role throughout American history though we have typically denied it But it is not enough to repress violence or to suppress our knowledge of it We must understand the phenomenon and to do this we must learn what violent groups are trying to say That at some choose violence tells us something about the perpetrators inevitably about ourselves and the society we have built This collection of provocative contributions addresses theory and research on violence as a group phenomenon The editors were co directors of research for the National Commission on the Causes and Prevention of Violence in the 1960s and many of the contributors to this volume were involved in that research Collective Violence distills their findings as well as takes a later harder look at the forms sources and meanings of riots and rebellion Short and Wolfgang consider the political implications of collective violence especially as it has appeared in the United States The book includes essays on theory comparative analyses based on anthropological and

historical data studies of the role of police and other social control agents and summarizes discussions of U S public policy The contributions range from anthropologists descriptions of collective violence in primitive societies to general statements about the nature of collective violence Collective Violence is intended for use in a wide range of courses in sociology anthropology and political science In addition its findings will interest anyone wishing insight into the nature of group violence in American society Ottoman Wars, 1700-1870 Virginia Aksan,2014-01-14 The Ottoman Empire had reached the peak of its power presenting a very real threat to Western Christendom when in 1683 it suffered its first major defeat at the Siege of Vienna Tracing the empire s conflicts of the next two centuries The Ottoman Wars An Empire Besieged examines the social transformation of the Ottoman military system in an era of global imperialism Spanning more than a century of conflict the book considers challenges the Ottoman government faced from both neighbouring Catholic Habsburg Austria and Orthodox Romanov Russia as well as arguably more importantly from military intellectual and religious groups within the empire Using close analysis of select campaigns Virginia Aksan first discusses the Ottoman Empire s changing internal military context before addressing the modernized regimental organisation under Sultan Mahmud II after 1826 Featuring illustrations and maps many of which have never been published before The Ottoman Wars draws on previously untapped source material to provide an original and compelling account of an empire near financial and societal collapse and the successes and failures of a military system under siege The book is a fascinating study of the decline of an international power raising questions about the influence of culture on warfare **Enterprising Women** Kit Candlin,Cassandra Pybus,2015 These recovered histories of entrepreneurial women of color from the colonial Caribbean illustrate an environment in which upward social mobility for freedpeople was possible Through determination and extensive commercial and kinship connections these women penetrated British life and created success for themselves and future generations *Ranquil* Thomas Miller Klubock,2022-01-04 The first major history of Chile s most significant peasant rebellion and the violent repression that followed In 1934 peasants turned to revolution to overturn Chile s oligarchic political order and the profound social inequalities in the Chilean countryside The brutal military counterinsurgency that followed was one of the worst acts of state terror in Chile until the military dictatorship of Augusto Pinochet 1973 1990 Using untapped archival sources award winning scholar Thomas Miller Klubock exposes Chile s long history of political violence and authoritarianism and chronicles peasants movements to build a more just and freer society Klubock further explores how an amnesty law that erased both the rebellion and the military atrocities lay the foundation for the political stability that characterized Chile s multi party democracy This historical amnesia or olvido Klubock argues was a precondition of national reconciliation and democratic rule which endured until 1973 when conflict in the countryside ended once again with violent repression during the Pinochet dictatorship **Race, Nation, and Capital in the Modern World** Philip Y. Nicholson,2023-03-17 Race Nation and Capital in the Modern World is a comprehensive yet concise book that traces the history of racism nationalism

and capitalism from their combined origins at the end of the fifteenth century to the present This book describes the development of legal codes and institutional practices that brought vast wealth and power to their chief beneficiaries along with great suffering exploitation and destruction to its victims Instead of understanding racism as an aberration or dark flaw in the troubled past of a world power like the United States this synthesis places race and racism in the forefront of the unfolding history of nationalism and capitalism The work de emphasizes the uniqueness of each nation s particular experience by showing the interdependence of capitalist and racist practices The narrative follows the leading hegemonic national powers as they expanded from mercantile conquests through plantation enslavement massive displacement of populations colonialism global warfare and finally the tenacious contemporary aftermath There are no comparable surveys for undergraduates or general readers seeking a unified historical understanding of these primary drivers of modernity It is a provocative introductory guide and not a work of political theory This volume will appeal to students scholars and those interested in studies on racism race capital the history of inequality and human and civil rights

A History of Israel Dr. Brian J. Bailey, 2022-11-11 Dr Brian Bailey s book on the history of the nation of Israel is an insightful and prophetic commentary on God s past present and future involvement with this nation Israel is the nation that God has chosen for Himself both for now and throughout eternity Dr Bailey describes how Israel was birthed through many miracles established in its divine inheritance scattered among the nations and gathered at the last days He then looks beyond the present day to see how the Scripture contains many promises concerning Israel during the Millennium when the Lord will return to rule as King over the earth

Is Religion Killing Us? Jack Nelson-Pallmeyer, 2015-08-27 Coverage of recent world events has focused on violence associated with Islam In this courageous and controversial book Jack Nelson Pallmeyer claims that this narrow view ignores the broader and unfortunate relationship between human violence and the sacred texts of Jews Christians and Muslims Both the Bible and the Quran he believes are riddled with violent images of God and with passages that can be reasonably interpreted to justify violence against enemies in service to God s will According to Nelson Pallmeyer many wondered how Muslims could in God s name kill innocent civilians by flying airplanes into the World Trade Center and the Pentagon Few however questioned U S leaders and citizens invoking God s name or assuming God s favor to fight the responsive war against terrorism And in the Middle East the roots of the continuing and seemingly unsolvable conflict and violence are to be found in both the Torah and the Quran Nelson Pallmeyer challenges the understanding of power that lies at the heart of the sacred texts of Judaism Christianity and Islam He argues that nonviolence is powerful and necessary and that a viable future for human beings and the planet depends on challenging the ways in which sacred texts reinforce visions of power that are largely abusive A viable future he says depends on re visioning God s power Jack Nelson Pallmeyer is Assistant Professor of Justice and Peace Studies at the University of St Thomas in St Paul Minnesota For more than twenty years he has studied and written about the relationship of religion violence and peace and his books include Jesus Against

Christianity Reclaiming the Missing Jesus Trinity Press International and School of Assassins Guns Greed and Globalization

Human Rights in the Americas María Herrera-Sobek, Francisco Lomelí, Luz Angélica Kirschner, 2021-02-25 This interdisciplinary book explores human rights in the Americas from multiple perspectives and fields Taking 1492 as a point of departure the text explores Eurocentric historiographies of human rights and offer a more complete understanding of the genealogy of the human rights discourse and its many manifestations in the Americas The essays use a variety of approaches to reveal the larger contexts from which they emerge providing a cross sectional view of subjects countries methodologies and foci explicitly dedicated toward understanding historical factors and circumstances that have shaped human rights nationally and internationally within the Americas The chapters explore diverse cultural philosophical political and literary expressions where human rights discourses circulate across the continent taking into consideration issues such as race class gender genealogy and nationality While acknowledging the ongoing centrality of the nation the volume promotes a shift in the study of the Americas as a dynamic transnational space of conflict domination resistance negotiation complicity accommodation dialogue and solidarity where individuals nations peoples institutions and intellectual and political movements share struggles experiences and imaginaries It will be of interest to all scholars and students of InterAmerican studies and those from all disciplines interested in Human Rights

Black resistance to British policing Adam Elliott-Cooper, 2021-05-01 As police racism unsettles Britain's tolerant self image Black resistance to British policing details the activism that made movements like Black Lives Matter possible Elliott Cooper analyses racism beyond prejudice and the interpersonal arguing that black resistance confronts a global system of racial classification exploitation and violence Imperial cultures and policies as well as colonial war and policing highlight connections between these histories and contemporary racisms But this is a book about resistance considering black liberation movements in the 20th century while utilising a decade of activist research covering spontaneous rebellion campaigns and protest in the 21st century Drawing connections between histories of resistance and different kinds of black struggle against policing is vital it is argued if we are to challenge the cutting edge of police and prison power which harnesses new and dangerous forms of surveillance violence and criminalisation
