[Taking Christianity to China](#) Wayne Flynt,Gerald W. Berkley,1997-01-30 Beginning early in the 19th century the American missionary movement made slow headway in China Alabamians became part of that small beachhead After 1900 both the money and personnel rapidly expanded peaking in the early 1920s By the 1930s many American denominations became confused and divided over the appropriateness of the missionary endeavor Secular American intellectuals began to criticize missionaries as meddling do gooders trying to impose American Evangelicalism on a proud ancient culture By examining the lives of 47 Alabama missionaries who served in China between 1850 and 1950 Flynt and Berkley reach a different conclusion Although Alabama missionaries initially fit the negative description of Americans trying to superimpose their own values and beliefs on heathen they quickly learned to respect Chinese civilization The result was a new synthesis neither entirely southern nor entirely Chinese Although previous works focus on the failure of Christianity to change China this book focuses on the degree to which their service in China changed Alabama missionaries And the change was profound In their consideration of 47 missionaries from a single state their call to missions preparation for service in China living working contacts back home cultural clashes political views internal conflicts and gender relations the authors suggest that the efforts by Baptist Methodist and Presbyterian missionaries from Alabama were not the failure judged by many historians In fact the seeds sown in the hundred years before the Communist revolution in 1950 seem to be reaping a rich harvest in the

declining years of the 20th century when the number of Chinese Christians is estimated by some to be as high as one hundred million

Insurgency and Social Disorder in Guizhou Robert Darrah Jenks, 1994-01-01 Textbooks and general histories of modern China agree that the so called Miao rebellion constituted one of the major rebellions of the nineteenth century It lasted for twenty years caused devastation of such severity that its effects were still

obvious to travelers in Guizhou province decades later and by one account resulted in the deaths of more than four million people In an impressive presentation of material drawn from local histories private writings and official documents Jenks argues that the Qing government sought to lay the blame for the turmoil squarely on an ethnic minority it regarded as obstreperous and inferior As well as altering perceptions of the rebellion *Insurgency and Social Disorder in Guizhou* enhances our understanding of the causes of the rebellion and its place in the crises that beset mid nineteenth century China It contributes to the sociology of rebellion and peasant movements and is a valuable supplement to current anthropological work on Chinese minorities Its treatment of Qing attitudes toward the Miao has implications for minority policies in the Peoples Republic of China today

Taking Christianity to China Samuel Paul Garner, 1976 Beginning early in the 19th century the American missionary movement made slow headway in China Alabamians became part of that small beachhead After 1900 both the money and personnel rapidly expanded peaking in the early 1920s By the 1930s many American denominations became confused and divided over the appropriateness of the missionary endeavor Secular American intellectuals began to criticize missionaries as meddling do gooders trying to impose American Evangelicalism on a proud ancient culture By examining the lives of 47 Alabama missionaries who served in China between 1850 and 1950 Flynt and Berkley reach a different conclusion Although Alabama missionaries initially fit the negative description of Americans trying to superimpose their own values and beliefs on heathen they quickly learned to respect Chinese civilization The result was a new synthesis neither entirely southern nor entirely Chinese Although previous works focus on the failure of Christianity to change China this book focuses on the degree to which their service in China changed Alabama missionaries And the change was profound In their consideration of 47 missionaries from a single state their call to missions preparation for service in China living working contacts back home cultural clashes political views internal conflicts and gender relations the authors suggest that the efforts by Baptist Methodist and Presbyterian missionaries from Alabama were not the failure judged by many historians In fact the seeds sown in the hundred years before the Communist revolution in 1950 seem to be reaping a rich harvest in the declining years of the 20th century when the number of Chinese Christians is estimated by some to be as high as one hundred million

The Politics of Controlling Organized Crime in Greater China Sonny Shiu-Hing Lo, 2015-12-14 In China the central government has the political will to control organized crime which is seen as a national security threat The crux of the problem is how to control local governments that have demonstrated lax enforcement without sufficient regulation from the provincial governments The development of prostitution underground gambling and narcotics production has become so serious that the central government has to rely on anti crime campaigns to combat these three evils This book explores the specific role of government institutions and agencies notably the police in controlling organised and cross border crime in Greater China Drawing heavily on original empirical data it compares the both the states of the People s Republic of China and Taiwan as well as city states Hong Kong and Macao This region has become increasingly

economically integrated and human interactions have been enhanced through improved trade relations tourism and increased individual freedom The book argues that the regime capacity of crime control across Greater China has been expanded through regional and international police cooperation as well as anti crime campaigns It suggests that a strong central state in China is necessary to rein in the local states and to prevent the risk of deteriorating into a political criminal nexus Focusing on regime capacity in crime control regime autonomy from crime groups and regime legitimacy in the fight against organized crime this thought provoking book will be of great interest to students and scholars of Chinese politics and criminology more broadly

China in the 1990s Robert Benewick, Paul Wingrove, 1999 Now updated with a chapter length afterword by the editors on the end of the Deng era and its aftermath China in the 1990s provides a comprehensive survey of a nation in transition An understanding of this complex process requires a multidisciplinary and multidimensional approach which the editors have achieved by bringing together experts from Britain the United States Europe Australia and Hong Kong who examine China's economic political military cultural and social achievements and problems The difficulties China still faces are enormous some of them of its own making pollution urban sprawl the insecurity of food supplies the risks of political authoritarianism and the perils of liberalisation Its population is still growing dramatically and is likely to be 1.5 billion by 2015 three times what it was when the PRC was established in 1949 But since embarking on a reform programme which at the time seemed experimental and hard to reconcile with official ideology it has gone from being the sick man of Asia to being one of the world's largest and fastest developing economies in what now looks to be a remarkably effective and well managed transition
