Ominous Parallels Leonard Peikoff, 1983-06-01 Ayn Rand chose Leonard Peikoff to be her successor as the spokesman for Objectivism And in this brilliantly reasoned thought provoking work we learn why as he demonstrates how far America has been detoured from its original path and led down the same road that Germany followed to Nazism Self sacrifice Oriental mysticism racial truth the public good doing one s duty these are among the seductive catch phrases that Leonard Peikoff dissects examining the kind of philosophy they symbolize the type of thinking that lured Germany to its doom and that he says is now prevalent in the United States Here is a frightening look at where America may be heading a clarion call for all who are concerned about preserving our right to individual freedom

American Literature in Transition, 1920-1930 Ichiro Takayoshi, 2017-12-28 American Literature in Transition 1920 1930 examines the dynamic interactions between social and literary fields during the so called Jazz Age It situates the

era's place in the incremental evolution of American literature throughout the twentieth century. Essays from preeminent critics and historians analyze many overlapping aspects of American letters in the 1920s and re-evaluate an astonishingly diverse group of authors. Expansive in scope and daring in its mixture of eclectic methods, this book extends the most exciting advances made in the last several decades in the fields of modernist studies, ethnic literatures, African American literature, gender studies, transnational studies, and the history of the book. It examines how the world of literature intersected with other arts such as cinema, jazz, and theater and explores the print culture in transition with a focus on new publishing houses, trends in advertising, readership, and obscenity laws.

MacDonald Harris, 1974. **American Literature in Transition, 1930-1940** Ichiro Takayoshi, 2018-11-15. American Literature in Transition, 1930-1940 gathers together in a single volume preeminent critics and historians to offer an authoritative, analytic, and theoretically advanced account of the Depression era's key literary events. Many topics of canonical importance such as protest literature, Hollywood fiction, the culture industry, and populism receive fresh treatment. The book also covers emerging areas of interest such as radio drama, bestsellers, religious fiction, internationalism, and middlebrow domestic fiction. Traditionally, scholars have treated each one of these issues in isolation. This volume situates all the significant literary developments of the 1930s within a single and capacious vision that discloses their hidden structural relations, their contradictions, similarities, and reciprocities. This is an excellent resource for undergraduate, graduate students, and scholars interested in American literary culture of the 1930s. The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950 George Watson, I. R. Willison, 1972-12-07. More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation, and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.

Timelines of American Literature Cody Marrs, Christopher Hager, 2019-01-29. A collection of engaging essays that seeks to uniquely reperiodize American literature. It is all but inevitable for literary history to be divided into periods. Early American, antebellum, modern, post-1945, such designations organize our knowledge of the past and shape the ways we discuss that past today. These periods tend to align with the watershed moments in American history even as the field has shifted its perspective away from the nation-state. It is high time we rethink these defining periods of American

literary history as the drawing of literary timelines is a necessary even illuminating practice In these short spirited and imaginative essays 23 leading Americanists gamely fashion new unorthodox literary periods from 600 B C E to the present from the Age of Van Buren to the Age of Microeconomics They bring to light literary and cultural histories that have been obscured by traditional timelines and raise provocative questions What is our definition of modernism if we imagine it stretching from 1865 to 1965 instead of 1890 to 1945 How does the captivity narrative change when we consider it as a contemporary not just a colonial genre What does the course of American literature look like set against the backdrop of federal denials of Native sovereignty or housing policies that exacerbated segregation Filled with challenges to scholars inspirations for teachers anchored by an appendix of syllabi and entry points for students Timelines of American Literature gathers some of the most exciting new work in the field to showcase the revelatory potential of fresh thinking about how we organize the literary past

Gender and the Rhetoric of Modernity in Spanish America, 1850-1910 Lee Skinner, 2018-10-01 This ambitious volume shows how nineteenth century Spanish American writers used the discourses of modernity to envision the place of women at all levels of social and even political life in the modern utopian nation Looking at texts ranging from novels and essays to newspaper articles and advertisements and with special attention to public and private space domesticity education technology and work Skinner identifies gender as a central concern at every level of society **Fictions of Western American Domesticity** Amanda J. Zink, 2018-06 This work provides a compelling explanation of something that has bedeviled a number of feminist scholars Why did popular authors like Edna Ferber continue to write conventional fiction while living lives that were far from conventional Amanda J Zink argues that white writers like Ferber and Willa Cather avoided the subject of their own domestic labor by writing about the performance of domestic labor by others showing that American print culture both in novels and through advertisements moved away from portraying women as angels in the house and instead sought to persuade other women to be angels in their houses Zink further explores lesser known works such as Mexican American cookbooks and essays in Indian boarding school magazines to show how women writers dialoging domesticity exemplify the cross cultural encounters between colonial domesticity and sovereign domesticity By situating these interpretations of literature within their historical contexts Zink shows how these writers championed and challenged the ideology of domesticity [The New Cambridge Companion to T.
