## **Recidivism In Foster Care:**

**Recidivism in Foster Care** Norman M. Block, Arlene S. Libowitz, 1983      *The Foster Care Crisis* Patrick Almond Curtis, Grady Dale, Joshua C. Kendall, 1999-01-01 The inadequacy of the foster care system has long been recognized One of the biggest obstacles to reforming the system is the relative unavailability of research data from the field information that would shed light on key empirical trends and pressing issues This long overdue volume provides a much needed overview of the current state of foster care Leading researchers and practitioners summarize and discuss the results of their current research providing through their data an unparalleled detailed glimpse of the inner workings of the foster care system in its entirety The volume is also valuable for its survey and syntheses of important issues and trends affecting foster care Subjects discussed include welfare reform reporting systems family reunification mental health services and the needs of minority children Wide ranging and detailed in its coverage this collection is destined to become an essential reference and guide to the foster care system      History of Foster Care as a Risk Factor for Recidivism in Justice Involved Youth Nicole Marie Muir, 2015 Although prior research suggests that history of foster care is linked to an increased risk for recidivism few studies have examined this relationship The current study examined the association between foster care and reoffending at a 3 94 year follow up in a sample of Canadian juvenile offenders on probation n 156 Findings indicate that among youth with a history of foster care number of placements and age of first placement did not predict any or violent recidivism Hierarchical logistic regression models revealed that over and above gender Aboriginal ethnicity well established risk factors and abuse having a history of foster care significantly increased risk for any recidivism but not for violent recidivism Also survival analysis revealed that youth with a history of foster care reoffend faster Thus although many believe that removing children from unsafe environments will reduce recidivism this assumption appears incorrect Implications for future research policy and practice are discussed      Child Welfare Supervision Cathryn C. Potter, Charmaine R. Brittain, 2009-03-23 Supervisors have a pivotal position in the child welfare workforce they recruit and retain the best employees move agencies to best practice frameworks and create a sustaining positive organizational climate Child welfare supervisors must lead a stressed workforce operating in a bureaucratic environment and always with the knowledge that children's lives are at stake They need and deserve a book oriented to the reality of their work Child Welfare Supervision connects theory and practice to provide an overview of the most relevant and sound approaches to supervision In thirteen illuminating chapters Child Welfare Supervision translates generic principles of supervision and management and organizational theory to the specifics and reality of the child welfare practice environment The result is a comprehensive integrated resource for child welfare supervisors that gives them the tools and information to succeed in the fast paced and intense world of child welfare Covers a wide range of must have skills for supervisors including leadership developing worker performance managing the Child Welfare unit working beyond the agency managing performance providing clinical supervision and respecting diversity

Features case studies and scenarios that illustrate key points and competencies Brings together the latest research and literature review with a pragmatic approach to child welfare supervision and case studies illustrate key concepts Each chapter concludes with reflection questions that can be assigned for a class or used in an agency to generate thoughtful discussion *Journal of Human Services Abstracts*, 1984 A national assessment of serious juvenile crime and the juvenile justice system Charles P. Smith, Paul S. Alexander, 1980 Children, Social Science, and the Law Bette L. Bottoms, Margaret Bull Kovera, Bradley D. McAuliff, 2002-06-10 This important book broadens our conceptualization of the topic of children and law addressing a wide ranging set of issues in need of attention The authors confront many difficult questions such as Are the rights that our nation's laws ascribe to children commensurate with their capabilities and needs How should laws governing the punishment of crime acknowledge developmental differences between adult and juvenile offenders Throughout the book the authors consider a current laws and policies relating to children b how social science research can test assumptions behind child relevant laws and policies c ways that courts can become more receptive to social science recommendations and d challenges faced in the 21st century as our society continues its struggle to accommodate children's concerns within our legal system With its unique integration of psychological research social policy and legal analysis the volume is an important resource for any professional concerned with children and the law *A Study of Reunification and Recidivism in Family Foster Care* Deborah Beth Jaffe, 2004 **Who Cares for the Children?** Allen W. Imershein, Mary K. Mathis, Aaron C. McNeece, C. Aaron McNeece, 1995 Studying poor and at risk children the policies developed for them and the programs that serve them Who Cares for the Children asks how well human services respond to children's needs What Works with Children and Adolescents? Alan Carr, 2013-07-23 What Works with Children and Adolescents fulfils the need for a concise empirically based study of the types of psychological treatments that may be effective for common psychological problems in childhood and adolescence Providing a solid foundation for evidence based practice in the treatment of children and adolescents the book offers evidence from over 150 rigorously conducted research trials Examining problems which are of central concern to practising clinicians including child abuse enuresis and encopresis ADHD childhood conduct problems adolescent violence drug abuse anxiety and depression anorexia and bulimia nervosa paediatric pain and post divorce adjustment problems it also highlights priority areas for future research on the treatment of children and adolescents psychological problems What Works with Children and Adolescents complements The Handbook of Child and Adolescent Clinical Psychology Carr 2006 and will be valuable to professionals in training **Child Welfare** Cathleen A. Lewandowski, 2018-07-20 Organized around the theme of child well being this book provides an overview of child welfare's past and present with consideration of its future Using case examples and discussion questions this text engages readers in a critical examination of the challenges and strategies used to date to suggest possible directions for promoting the well being of all children Meanwhile the whole child integrative approach to child welfare uniquely examines strategies

to address children's physical, emotional, social, and psychological needs. Child welfare policy and practices are integrated throughout, thereby illustrating the context in which child welfare practice occurs and how practice and policy are connected. Current issues guiding practice with children who are especially at risk are also explored, including children with disabilities, immigrant children, and youth who may have been trafficked. Child Welfare is a rich resource for social work students, child welfare practitioners, and administrators alike.

**Child Welfare Research Review** Richard P. Barth, Jill Duerr Berrick, Neil Gilbert, 1994. This volume culls the most important and provocative research and policy analysis in the child welfare field and is an essential guide for understanding the burgeoning field of children's services.

Liberal Child Welfare Policy and its Destruction of Black Lives James G. Dwyer, 2018-06-14. How can we end the intergenerational cycle of poverty and dysfunction in the US's urban ghettos? This ground-breaking and controversial book is the first to provide a child-centered perspective on the subject by combining a wealth of social science information with sophisticated normative analysis to support novel reforms to child protection law and practice, family law, and zoning that would quickly end that cycle. The rub is that the reforms needed would entail further suffering and loss of liberty for adults in these communities, and liberal advocacy organizations and academics are so adult-centered in their sympathies and thinking that they reflexively oppose any such measures. Liberals have instead promoted one ineffectual parent-focused program after another in an ideologically driven quest for the magic pill that can save both adults and children in these communities at the same time. This insider critique of liberal child welfare policy reveals a dilemma that liberals have yet to face squarely: there is an ineradicable conflict of interests between many young children and their parents, especially in areas of concentrated poverty, and one must choose sides. It is a must-read for legal academics, political scientists, urban policy experts, as well as professionals working in social work, law, education, urban planning, legislative offices, and administrative agencies.

**Crime and Public Policy** James Q. Wilson, Joan Petersilia, 2012-06-01. Crime in the United States has fluctuated considerably over the past thirty years, as have the policy approaches to deal with it. During this time, criminologists and other scholars have helped to shed light on the role of incarceration, prevention, drugs, guns, policing, and numerous other aspects to crime control. Yet the latest research is rarely heard in public discussions and is often missing from the desks of policymakers. This book accessibly summarizes the latest scientific information on the causes of crime and evidence about what does and does not work to control it. Thoroughly revised and updated, this new version of *Crime and Public Policy* will include twenty chapters and five new substantial entries. As with previous editions, each essay reviews the existing literature, discusses the methodological rigor of the studies, identifies what policies and programs the studies suggest, and then points to policies now implemented that fail to reflect the evidence. The chapters cover the principal institutions of the criminal justice system: juvenile justice, police, prisons, probation, and parole; sentencing; how broader aspects of social life inhibit or encourage crime; biology; schools;

families communities and topics currently generating a great deal of attention criminal activities of gangs sex offenders prisoner reentry changing crime rates With contributions from trusted leading scholars Crime and Public Policy offers the most comprehensive and balanced guide to how the latest and best social science research informs the understanding of crime and its control for policymakers community leaders and students of crime and criminal justice     *Parenting and Family Processes in Child Maltreatment and Intervention* Douglas M. Teti,2016-11-26 This clear sighted reference offers a transformative new lens for understanding the role of family processes in creating and stopping child abuse and neglect Its integrative perspective emphasizes the interconnectedness of forms of abuse the diverse mechanisms of family violence and a child family centered strengths based approach to working with families Chapters review evidence based interventions and also model collaboration between family professionals for effective coordination of treatment and other services This powerful ecological framework has major implications for improving assessment treatment and prevention as well as future research on child maltreatment Included among the topics Creating a safe haven following child maltreatment the benefits and limits of social support Why didn t you tell Helping families and children weather the process following a sexual abuse disclosure Environments recreated the unique struggles of children born to abused mothers Evidence based intervention trauma focused cognitive behavioral therapy for children and families Preventing the intergenerational transmission of child maltreatment through relational interventions Reducing the risk of child maltreatment challenges and opportunities Professionals and practitioners particularly interested in family processes child maltreatment and developmental psychology will find *Parenting and Family Processes in Child Maltreatment and Intervention* a major step forward in breaking entrenched abuse cycles and keeping families safe     *The Impact of Ethnic Matching in Foster Family Placements* Alfredo A. Garcia,1989     Juvenile Delinquency Kirk Heilbrun,Naomi E. Sevin Goldstein,Richard E. Redding,2005-03-17 Juvenile offending and anti social behavior are enormous societal concerns This broad reaching volume summarizes the current evidence on prevention diversion causes and rates of delinquency as well as assessment of risk and intervention needs A distinguished cast of contributors from law psychology and psychiatry describe what we know about interventions in school community and residential contexts focusing particularly on interventions that are risk reducing and cost effective Equally important each chapter comments on what is not well supported through research distinguishing aspects of current practice that are likely to be effective from those that are not and mapping new directions for research policy and practice Finally the volume provides a description of a model curriculum for training legal and mental health professionals on conducting relevant assessments of adolescents for the courts Effectively bridging research and practice this will be an important resource for legal and mental health professionals involved in the juvenile justice system policy makers seeking humane but effective interventions in the context of society s need for safety and those involved in teaching about and training in juvenile delinquency     **Progress in Behavior Modification** Michel Hersen,Richard M.
