Great Spanish Films Since 1950 Ronald Schwartz, 2008-09-05 When it began modern Spanish cinema was under strict censorship forced to conform to the ideological demands of the Nationalist regime. In 1950 the New Spanish Cinema was born as a protest over General Francisco Franco's policies; a new series of directors and films began to move away from the conformist line to offer a bold brand of Spanish realism. In the 1950s and early 1960s filmmakers such as Juan Antonio Bardem, Luis García Berlanga and Luis Buñuel expressed a liberal image of Spain to the world in such films as *Muerte de un ciclista* (Death of a Cyclist), *Bienvenido Se* or *Marshall* (Welcome Mr Marshall) and *Viridiana*. The emergence of new directors continued into the sixties and seventies with Carlos Saura, Jos Luis Borau, Víctor Erice and others. After Franco's death in 1975 censorship was abolished and films openly explored such formerly taboo subjects as sexuality, drugs, the church, the army and the Civil War. The Spanish cinema was no longer escapist and entertaining but at long last mirrored the society it depicted. While established directors like Saura, Bardem and Berlanga continued to produce distinguished work, the new wave of Spanish cinema included brilliant films by the likes of Montxo Armendáriz, Tasio Fernando Trueba, *First Work*, Imanol Uribe, *The Death of Mikel* and Pedro Almodóvar, *Women on the Verge of a Nervous Breakdown*. In the last couple of decades exciting works by established filmmakers and newcomers alike continue to be produced, including Alejandro Amenábar's *Thesis*, Jos Luis García's *The Grandfather* and Almodóvar's *Talk to Her* and *Volver*. In *Great Spanish Films Since 1950*, Ronald Schwartz presents a compendium of outstanding Spanish films from the pre-Francoist era through the Spanish New Wave of the 80s and 90s and into the present day. Schwartz provides background, plot and commentaries of key films from six decades of Spanish cinema. In addition to identifying

The Spanish Caribbean and the Atlantic World in the Long Sixteenth Century Ida Altman, David Wheat, 2019-06-01 The Spanish Caribbean and the Atlantic World in the Long Sixteenth Century breaks new ground in articulating the early Spanish Caribbean as a distinct and diverse group of colonies loosely united under Spanish rule for roughly a century prior to the establishment of other European colonies. In the sixteenth century no part of the Americas was more diverse, international or as closely tied to Spain as the islands of the Atlantic, western Africa and the Spanish American mainland than the Caribbean. The Caribbean experienced rapid growth during this period, displayed considerable ethnic and religious diversity, developed extensive networks of exchange both within and beyond the region and played an important role in the broader Spanish colonization of the Americas. Contributors address topics such as the role of religious orders, the development of transatlantic and regional commercial systems, insular and regional political dynamics in relation to imperial objectives, the formation of colonial society and the effects on Caribbean colonial society of the importation and incorporation of large numbers of indigenous captives and enslaved Africans.

experienced by Spain since the 1970s and especially following its entrance to the European Economic Community in 1986 the country has undergone a rapid inversion in migratory patterns After being an exporter of economic migrants for almost a century in the last 20 years Spain has seen itself on the receiving end of immigration Coinciding with a time when Spain is highlighting its belonging to Europe the growing presence of Moroccan immigrants in particular confronts Spanish society with the repressed non European African and Oriental aspects of its national identity The Return of the Moore examines the anxiety over symbolic and literal boundaries permeating the Spanish reception of these immigrants through an interdisciplinary analysis of social fictional and performative texts It argues that Moroccans constitute a problem to Spaniards not because of their cultural differences as many claim but because they are not different enough Perceived as Moors they conjure up past ghosts that continue to haunt the Spanish imaginary revealing the acute tensions inherent to Spain's tenuous position between Europe and Africa
