Philosophy and Rhetoric in Dialogue Gerard A. Hauser,2010-11-01 **Irony in the Matthean Passion Narrative**

InHee C. Berg,2014-05-01 Irony as used here is a rhetorical and literary device for revealing what is hidden behind what is seen It thus offers the reader a superior understanding by means of the distinction between reality and its shadow The book provides a history of different definitions of irony from Aristophanes to Booth discusses the constitutive formal elements of irony and the functions of irony then studies particular aspects of the Matthean Passion Narrative that require the reader to recognize a deeper truth beneath the surface of the narrative The Postmodern Bible George Aichele,Fred W. Burnett,Robert M. Fowler,David Job ling,Tina Pippin,Wilhelm Wuellner,Bible and Culture Collective,1995-01-01 The burgeoning use of modern literary theory and cultural criticism in recent biblical studies has led to stimulating but often bewildering new readings of the Bible This book argued from a perspective shaped by postmodernism is at once an accessible guide to and an engagement with various methods theories and critical practices transforming biblical scholarship today Written by a collective of cutting edge scholars with each page the work of multiple hands The Postmodern Bible deliberately breaks with the individualist model of authorship that has traditionally dominated scholarship in the humanities and is itself an illustration of the postmodern transformation of biblical studies for which it argues The book introduces illustrates and critiques seven prominent strategies of reading Several of these interpretive strategies rhetorical criticism structuralism and narratology reader response criticism and feminist criticism have been instrumental in the transformation of biblical studies up to now Many feminist and womanist criticism ideological criticism poststructuralism and psychoanalytic criticism hold promise for the continued transformation of these studies in the future Focusing on readings from both the Hebrew Bible and the New Testament this volume illuminates the current multidisciplinary debates emerging from postmodernism by exposing the still highly contested epistemological political and ethical positions in the field of biblical studies *Comparative Criticism: Volume 3* E. S. Shaffer,1981-10-29 This 1981 volume addresses literary theory and criticism comparative studies in terms of theme genre movement and influence and interdisciplinary perspectives

Citizen Critics Rosa A. Eberly,2000 The condition of our public discussions about literary and cultural works has much to say about the condition of our democracy and the author

argues for more public discourse in classrooms newspapers magazines etc to reclaim a public voice on national artistic matters In this revealing study of the links among literature rhetoric and democracy Rosa A Eberly explores the public debate generated by amateur and professional readers about four controversial literary works two that were censored in the United States and two that created conflict because they were not censored In *Citizen Critics* Eberly compares the outrage sparked by the publication of James Joyce's *Ulysses* and Henry Miller's *Tropic of Cancer* with the relative quiescence that greeted the much more violent and sexually explicit content of Bret Easton Ellis's *American Psycho* and Andrea Dworkin's *Mercy Through a Close Reading of Letters to the Editor* reviews media coverage and court cases Eberly shows how literary critics and legal experts defused censorship debates by shifting the focus from content to aesthetics and from social values to publicity By asserting their authority to pass judgments thus denying the authority of citizen critics these professionals effectively removed the discussion from literary public spheres A passionate advocate for treating reading as a public and rhetorical enterprise rather than solely as a private one Eberly suggests the potential impact a work of literature may have on the social polity if it is brought into public forums for debate rather than removed to the exclusive rooms of literary criticism Eberly urges educators to use their classrooms as protopublic spaces in which students can learn to make the transition from private reader to public citizen

Encyclopedia of Rhetoric Thomas O. Sloane, 2001 The

Encyclopedia of Rhetoric is a comprehensive survey of the latest research as well as the foundational teachings in this broad field. Featuring 150 original signed articles by leading scholars from many different fields of study, it brings together knowledge from classics, philosophy, literature, literary theory, cultural studies, speech, and communications. The Encyclopedia surveys basic concepts, speaker, style, and audience, elements, genres, terms, fallacies, figures of speech, and the rhetoric of non-Western cultures and cultural movements. It covers rhetoric as the art of proof and persuasion, as the language of public speech and communication, and as a theoretical approach and critical tool used in the study of literature, art, and culture at large, including new forms of communication such as the internet. The Encyclopedia is the most wide-ranging reference work of its kind, combining theory, history, and practice with a special emphasis on public speaking, performance, and communication. Cross-references, bibliographies after each article, and synoptic and topical indexes further enhance the work. Written for students, teachers, scholars, and writers, the Encyclopedia of Rhetoric is the definitive reference work on this powerful discipline.

Rebirth of Rhetoric Richard Andrews, 2012-05-16. *Rebirth of Rhetoric* brings together contributions from several fields to provide a forum in which a unifying theory for language and literature studies can be debated. The book does not aim to resurrect classical Renaissance rhetoric but to remake it within a contemporary context. The context of texts, both spoken and written, is one of the main emphases of this collection, whether it is the ideology informing the text or the way in which a text is transformed by its audience. The book also aims to present a range of practical approaches to the study of texts of all kinds: literary, televisual, film, and photography. It also argues the case for developments in the Arts and Humanities, which will bring together people working in Education, Linguistics, Composition, Literature, and Cultural Studies.

Twentieth-Century Roots of Rhetorical Studies Jim A. Kuypers, Andrew King, 2001-03-30. Kuypers, King, and their contributors explore the conception of rhetoric of eleven key American rhetoricians through analyses of their life's work. Each chapter provides a sense of that scholar's conception of rhetoric, be it through criticism, theory, or teaching. The communication discipline often highlights the work of others outside the discipline; however, it rarely acclaims the work of its own critics, teachers, and theorists. In this collection, the essays explore the innate mode of perception that guided the rhetorical understanding of the early critics. In so doing, this work dispels the myth that the discipline of Speech Communication was spawned from a monolithic and rigid center that came to be called neo-Aristotelianism. Scholars and researchers involved with the history of rhetoric, rhetorical criticism, and theory, and American public address will find this title to be a necessary addition to their collection.

Philosophical Rhetoric Jeff Mason, 2016-08-12. This book, originally published in 1989, discusses an issue central to all philosophical argument: the relation between persuasion and truth. The techniques of persuasion are indirect and not always fully transparent. Whether philosophers and theoreticians are for or against the use of rhetoric, they engage in rhetorical practice; none the less. Focusing on Plato, Descartes, Kant, Kierkegaard, Nietzsche, and Wittgenstein, this book uncovers philosophical rhetoric at work and reminds us of the rhetorical arena in which

philosophical writings are produced and considered
