Buddhism and Law Rebecca Redwood French,Mark A. Nathan,2014-07-28 As the first comprehensive study of Buddhism and law in Asia this interdisciplinary volume challenges the concept of Buddhism as an apolitical religion without implications for law Buddhism and Law draws on the expertise of the foremost scholars in Buddhist studies and in law to trace the legal aspects of the religion from the time of the Buddha to the present In some cases Buddhism provided the crucial architecture for legal ideologies and secular law codes while in other cases it had to contend with a pre-existing legal system to which it added a new layer of complexity The wide-ranging studies in this book reveal a diversity of relationships between Buddhist monastic codes and secular legal systems in terms of substantive rules factoring and ritual practices This volume will be an essential resource for all students and teachers in Buddhist studies law and religion and comparative law

Taiwan and Chinese Nationalism Christopher Hughes,2013-04-15 For China Taiwan is next in line to be unified with the People's Republic after Hong Kong in 1997 China's claim on Taiwan is of great importance to the politics of Chinese Nationalism and is central to the dynamics of power in this most volatile of regions The democratic challenge from Taiwan is very potent and its status and identity within the international community is crucial to its survival Taiwan and Chinese Nationalism explores how Taiwan's status has come to be a symbol for the legitimacy of the Chinese regime in the evolution of Chinese nationalism It also demonstrates how this view has been challenged by demands for democratization in Taiwan The KMT regime is shown to have allowed sovereignty to be practised by the population of the island while maintaining the claim that it is a part of China The result is a post-nationalist identity for the island in an intermediate state between independence and unification with the PRC
