*Emotions as Key Drivers of Consumer Behaviors: A Multidisciplinary Perspective, 2nd edition* Debora Bettiga, Giuliano Noci, Omneya Yacout,2025-09-16 Consumers not only make rational decisions but also emotional ones Research now recognizes the significance of diverse neglected factors such as emotions affect arousal and pleasure in appraisal and has identified processes and behaviors that do not fit with the traditional view of acting as a result of a purely deliberate process Consumers behaviors and choices are grounded both in consumer beliefs and judgements and in experiences and emotions Individuals more broadly bring their perceptions values feelings and cognitive schemes to bear in interpreting the world In this context unconscious physiological manifestations can offer indications as to how people evaluate filter and react to external stimuli What is expressed by the conscious mind indeed does not represent a full and perfect representation of the actual needs and wishes of individuals Understanding consumer behaviors has long been a challenging endeavor due to different variables affecting decision making mechanisms and the difficulty of measuring them It requires indeed a comprehension of both the cognitive information processing mechanisms and of the affective and experiential systems of individuals Moreover it demands an appreciation of the rich and deep interplay between cognitive and affective processes Understanding consumers emotions can inform practitioners on how to effectively communicate with their target audience whether internal or external in order to elicit attention engagement and positive emotional responses and to build emotional
