**Border Crossing** Alexander Burry, 2016-04-08 Each time a border is crossed there are cultural political and social issues to be considered Applying the metaphor of the border crossing from one temporal or spatial territory into another Border Crossing Russian Literature into Film examines the way classic Russian texts have been altered to suit new cinematic environments In these essays international scholars examine how political and economic circumstances from a shifting Soviet political landscape to the perceived demands of American and European markets have played a crucial role in dictating how filmmakers transpose their cinematic hypertext into a new environment Rather than focus on the degree of accuracy or

fidelity with which these films address their originating texts this innovative collection explores the role of ideological political and other cultural pressures that can affect the transformation of literary narratives into cinematic offerings

Handbook of Russian Literature Victor Terras,1985-01-01 Profiles the careers of Russian authors scholars and critics and discusses the history of the Russian treatment of literary genres such as drama fiction and essays     **Research in Education** ,1969     Criticism and Literary Theory 1890 to the Present Chris Baldick,2014-06-11 Presents a coherent and accessible historical account of the major phases of British and American Twentieth century criticism from decadent aestheticism to feminist deconstructionist and post colonial theories Special attention is given to new perspectives on Shakespearean criticism theories of the novel and models of the literary canon The book will help to define and account for the major developments in literary criticism during this century exploring the full diversity of critical work from major critics such as T S Eliot and F R Leavis to minor but fascinating figures and critical schools Unlike most guides to modern literary theory its focus is firmly on developments within the English speaking world     **Literary Theories in Praxis** Shirley F. Staton,1987 Literary Theories in Praxis analyzes the ways in which critical theories are transformed into literary criticism and methodology To demonstrate the application of this analysis critical writings of Roland Barthes Harold Bloom Cleanth Brooks Jacques Derrida Northrop Frye Norman Holland Barbara Johnson Jacques Lacan Adrienne Rich and Robert Scholes are examined in terms of the primary critical stance each author employs New Critical phenomenological archetypal structuralist semiotic sociological psychoanalytic reader response deconstructionist or humanist The book is divided into nine sections each with a prefatory essay explaining the critical stance taken in the selections that follow and describing how theory becomes literary criticism In a headnote to each selection Staton analyzes how the critic applies his or her critical methodology to the subject literary work Shirley F Staton s introduction sketches the overall philosophical positions and relationships among the various critical modes     Political Theory, Science Fiction, and Utopian Literature Tony Burns,2010-02-19 Ursula K Le Guin s *The Dispossessed* is of interest to political theorists partly because of its association with anarchism and partly because it is thought to represent a turning point in the history of utopian dystopian political thought and literature and of science fiction Published in 1974 it marked a revival of utopianism after decades of dystopian writing According to this widely accepted view *The Dispossessed* represents a new kind of literary utopia which Tom Moylan calls a critical utopia The present work challenges this reading of *The Dispossessed* and its place in the histories of utopian dystopian literature and science fiction It explores the difference between traditional literary utopia and novels and suggests that *The Dispossessed* is not a literary utopia but a novel about utopianism in politics Le Guin s concerns have more to do with those of the novelists of the 19th century writing in the tradition of European Realism than they do with the science fiction or utopian literature It also claims that her theory of the novel has an affinity with the ancient Greek tragedy This implies that there is a conservatism in Le Guin s work as a creative writer or as a novelist which fits uneasily with her

personal commitment to anarchism      **A History of Russian Literary Theory and Criticism** Evgeny Dobrenko, Galin Tihanov, 2011-11-27 This edited volume assembles the work of leading international scholars in a comprehensive history of Russian literary theory and criticism from 1917 to the post Soviet age By examining the dynamics of literary criticism and theory in three arenas political intellectual and institutional the authors capture the progression and structure of Russian literary criticism and its changing function and discourse The chapters follow early movements such as formalism the Bakhtin Circle Proletkult futurism the fellow travelers and the Russian Association of Proletarian Writers By the cultural revolution of 1928 literary criticism became a mechanism of Soviet policies synchronous with official ideology The chapters follow theory and criticism into the 1930s with examinations of the Union of Soviet Writers semantic paleontology and socialist realism under Stalin A more humanized literary criticism appeared during the ravaging years of World War II only to be supplanted by a return to the party line Soviet heroism and anti-Semitism in the late Stalinist period During Khrushchev's Thaw there was a remarkable rise in liberal literature and criticism that was later refuted in the nationalist movement of the long 1970s The same decade saw on the other hand the rise to prominence of semiotics and structuralism Postmodernism and a strong revival of academic literary studies have shared the stage since the start of the post Soviet era For the first time anywhere this collection analyzes all of the important theorists and major critical movements during a tumultuous ideological period in Russian history including developments in emigre literary theory and criticism      **Reference Guide to Russian Literature** Neil Cornwell, 2013-12-02 First Published in 1998 This volume will surely be regarded as the standard guide to Russian literature for some considerable time to come It is therefore confidently recommended for addition to reference libraries be they academic or public      **Gustav Shpet's Contribution to Philosophy and Cultural Theory** Galin Tihanov, 2009 This book offers original research by leading scholars from the United States United Kingdom Germany France and Russia which covers the central areas of Shpet's work on phenomenology philosophy of language cultural theory and aesthetics and takes forward the current state of knowledge and debates on his contribution to these fields of enquiry The book also contains for the first time in English translation the most seminal portions of Shpet's book length study of hermeneutics which is his most significant work for contemporary students of cultural theory The first part of the book maps out Shpet's legacy in the main areas of his multi-faceted work the second part examines in closer detail particular aspects of Shpet's philosophical affiliations and contributions in the framework of cultural theory phenomenology hermeneutics and in the field of Russian intellectual history the final part features the publication of extracts from Shpet's 1918 book on hermeneutics      *A Companion to Russian Cinema* Birgit Beumers, 2016-05-17 A Companion to Russian Cinema provides an exhaustive and carefully organised guide to the cinema of pre Revolutionary Russia of the Soviet era as well as post Soviet Russian cinema edited by one of the most established and knowledgeable scholars in Russian cinema studies The most up to date and thorough coverage of Russian Soviet and post Soviet cinema which also effectively fills gaps in the existing

Epstein, Robert Gillett, 2017-01-06 As the field of translation studies

has developed translators and translation scholars have become more aware of the unacknowledged ideologies inherent both in texts themselves and in the mechanisms that affect their circulation This book both analyses the translation of queerness and applies queer thought to issues of translation It sheds light on the manner in which heteronormative societies influence the selection reading and translation of texts and pays attention to the means by which such heterosexism might be subverted It considers the ways in which queerness can be repressed ignored or made invisible in translation and shows how translations might expose or underline the queerness or the homophobic implications of a given text Balancing the theoretical with the practical this book investigates what is culturally at stake when particular texts are translated from one culture to another raising the question of the relationship between translation colonialism and globalization It also takes the insights derived from intercultural translation studies and applies them to other fields of cultural criticism The first multi focus in depth study on translating queer translating queerly and queering translation this book will be of interest to scholars working in the fields of gender and sexuality queer theory and queer studies literature film studies and translation studies
