Shifting Stories Sarah M. Allen, 2020-10-26 Shifting Stories explores the tale literature of eighth and ninth century China to show how the written tales we have today grew out of a fluid culture of hearsay that circulated within elite society Sarah M Allen focuses on two main types of tales those based in gossip about recognizable public figures and those developed out of lore concerning the occult She demonstrates how writers borrowed and adapted stories and plots already in circulation and how they transformed them in some instances into unique and artfully wrought tales For most readers of that era tales remained open texts subject to revision by many hands over the course of transmission unconstrained by considerations of textual integrity or authorship Only in the mid to late ninth century did some readers and editors come to see the particular wording and authorship of a tale as important a shift that ultimately led to the formation of the Tang tale canon as it is envisioned today 唐传奇研究, 2001

Inglis,2023-04-01 Love stories formed a major part of the classical short story genre in China from as early as the eighth century when men of letters began to write about romantic encounters In later centuries such stories provided inspiration for several new literary genres While much scholarly attention has been focused on the short story of both the medieval and late imperial eras comparatively little work has been attempted on the interim stage the Song and Yuan dynasties which spanned some five hundred years from the tenth to the fourteenth centuries Yet this was a crucial developmental period for many forms of narrative literature so much so that any understanding of late imperial narrative should be informed by the earlier tradition The first study of its kind in English The Chinese Love Story from the Tenth to the Fourteenth Century traces the development of the love story throughout this important yet overlooked era Using Tang dynasty stories as a point of comparison Alister D Inglis examines and appraises key new themes paying special attention to period hallmarks gender portrayal and textuality Inglis demonstrates that contrary to received scholarly wisdom this was a highly innovative period during which writers and storytellers laid a fertile foundation for the literature of late imperial China 余英时 Yushu Wang,2005
