The Columbia Anthology of Modern

Chinese Drama Xiaomei Chen, 2014-04-01 This condensed anthology reproduces close to a dozen plays from Xiaomei Chen's well received original collection along with her critical introduction to the historical cultural and aesthetic evolution of twentieth century Chinese spoken drama. Comprising representative works from the People's Republic of China, the collection encapsulates the revolutionary rethinking of Chinese theater and performance that began in the late Qing dynasty and vividly portrays the uncertainty and anxiety brought on by modernism, socialism, political conflict and war. Chosen works from 1919 to 1990 also highlight the formation of Chinese national and gender identities during a period of tremendous social, cultural and political change and the genesis of contemporary attitudes toward the West. PRC theater tracks the rise of communism in China, juxtaposing ideals of Chinese socialism against the sacrifices made for a new society. Post Mao drama addresses the nation's socialist legacy, its attempt to reexamine its cultural roots and postsocialist reflections on critical issues such as nation, class, gender and collective memories. An essential, portable guide for easy reference and classroom use, this abridgement provides a concise yet well rounded survey of China's theatricality and representation of political life. This work has not only established a canon of modern Chinese drama but also made it available for the first time in English in a single volume.

Literary History: Towards a Global Perspective Anders Pettersson, Gunilla Lindberg-Wada, Margareta Petersson, Stefan Helgesson, 2011-12-22 *Literary History: Towards a Global Perspective* is a research project funded by the Swedish Research Council (Vetenskapsrådet). Initiated in 1996 and launched in 1999, it aims at finding suitable methods and approaches for studying and analysing literature globally, emphasizing the comparative and intercultural aspect. Even though we nowadays have fast and easy access to any kind of information on literature and literary history, we encounter more than ever the difficulty of finding a credible overall perspective on world literary history. Until today, literary cultures and traditions have usually been studied separately, each field using its own principles and methods. Even the conceptual basis itself varies from section to section and the genre concepts employed are not mutually compatible. As a consequence, it is very difficult, if not impossible, for the interested layperson as well as for the professional student to gain a clear and fair perspective both on the literary traditions of other peoples and on one's own traditions. The project can be considered as a contribution to gradually removing this problem and helping to gain a better understanding of literature and literary history by means of a concerted empirical research and deeper conceptual reflection. The contributions to the four volumes are written in English by specialists from a large number of disciplines, primarily from the fields of comparative literature, Oriental studies and African studies in Sweden. All of the literary texts discussed in the articles are in the original language. Each one of the four volumes is devoted to a special research topic.

Wagner, 2023-11-15 China s Great Leap Forward of 1958 1961 was a time of official rejoicing over the achievements of Communism but it was also a time of

immense suffering Growing dissent among intellectuals stimulated creativity as writers sought to express both their hope for the success of the revolution and their dissatisfaction with the Party leadership and policies But the uneasy political climate and the state's control over literature prevented writers from directly addressing the compelling problems of the time Rather they resorted to a variety of sophisticated and time honored forms for airing their grievances including the historical drama Rudolf Wagner examines three of these plays written and performed between 1958 and 1963 in an effort to decode their hidden political and cultural meanings He also provides a broad survey of the politics of the historical drama in China suggesting further avenues of inquiry into the relationship between literature and the state This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990
