Selected Plays The Post Inferno Period Selected Plays Series:

Selected Plays: The post-Inferno period August Strindberg, 1986 Lorca's Experimental Theater Andrew A. Anderson, 2024-11-25 Critical and historical discussions of the life and work of Federico García Lorca Spain's foremost poet and playwright of the twentieth century often obscure the author's more avant garde dramatic works In Lorca's Experimental Theater Andrew A. Anderson focuses on four of Lorca's most challenging plays *Amor de don Perlimplín con Belisa en su jardín* *El público* *As que pasen cinco años* and *El sueño de la vida* previously known as *Comedia sin título* and on the surrounding context in which they came to be written and in only one case performed during his lifetime While none of Lorca's plays can be considered conventional these four works stand out in his corpus for challenging theatrical conventions most forcefully both thematically and technically With discussions of stagecraft artistic modernism and the historical avant garde Lorca's Experimental Theater provides detailed interpretive readings of the four plays surveys their textual and performative history and examines the most important contemporary influences on Lorca's creation of these expressive innovative works The Oxford Guide to Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e.g. Virgil's *Aeneid* which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e.g. poetry oral literature The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e.g. the *Thousand and One Nights* or writers e.g. Ibsen Proust but the majority offer a critical overview of a genre e.g. Chinese poetry Spanish Golden Age drama or of a national literature e.g. Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators A Select Collection of Old English Plays, 1833 **Strindberg's Post-inferno Plays on the German Stage** Klaus van den Berg, 1993 **A Select Collection of Old English Plays** William Carew Hazlitt, 1874 A Select Collection of Old English Plays, Originally Published by Robert Dodsley in the Year 1744: Damon and Pithias ; Appius and Veronica ; Cambyzes ; The misfortunes of Arthur ; Jeronimo
