**John Milton** ,      **Edward Thomas: Prose Writings: A Selected Edition** Edna Longley, 2023-10-12 Edward Thomas can be seen as the most important poetry critic in the early twentieth century Thomas was a prose writer before he was a poet The Selected Edition of his prose and especially this volume shows that he was also a critic before he was a poet His unusual literary career opens up key questions about the relation between poetry and criticism as well as between poetry and prose Thomas wrote books about poetry but his criticism mainly took the form of reviews He reviewed collections editions and studies of poetry most regularly for the Daily Chronicle and the Morning Post These reviews amount to a unique commentary on the state of poetry and of poetry criticism after 1900 Since reviewing provided Thomas's main income he also reviewed other kinds of book Hence the sheer mass of his reviews the stress he suffered as a literary journalist Yet his criticism maintains an astonishingly high standard Thomas's response to contemporary poetry intersects with his readings of older poetry No critic or poet of the time was so deeply acquainted with the traditions of English language poetry or so alert to new poetic movements in Ireland and America Edward Thomas's writings on poetry have a double importance Besides suggesting the hidden evolution of his own aesthetic they constitute a lost history and critique of poetry before the Great War They change our assumptions about that period Thomas's perspectives on poets such as Yeats Hardy Frost Lawrence and Pound illuminate the making of modern poetry      *Heresy and the English Reformation* Georgi Vasilev, 2014-08-23 Medieval Europe was a hotbed of revolt against religious dogma Particularly offensive to the established church were the views of the Cathars whose dualist beliefs Rome condemned as heretical Through a variety of literary works this book explores the dualist religious movement which developed as a culture of the masses and took place in Europe between the 12th and 17th centuries It examines the strong parallels between the Bogomils and Cathars and the religious practices of the British Lollards extrapolating Lollardy's spread from eastern to western Europe Providing numerous text comparisons the work focuses on a number of authors including John Wycliffe William Tynsdale William Langland and John Milton whose works exhibit the dualist philosophy      *Oliver Cromwell's Letters and Speeches* Thomas Carlyle, 1926      *Selected Early Poems* Arthur Symonds, 2017-04-11 Arthur Symonds 1865-1945 was a central figure in the decadent phase of English poetry of the 1890s His early verse notably in the major collections *Silhouettes* 1892 revd 1896 and *London Nights* 1895 revd 1897 created a sophisticated new kind of urban poetry out of the gas lit world of London theatre and night life Under the French influences of Baudelaire and Verlaine Symonds developed a wistful poetic eroticism new to English readers leading the way to the modernism of T S Eliot and others in the next generation This selection from Symonds's most fertile period as a poet reproduces the fuller revised editions of *Silhouettes* and *London Nights* in their entirety together with related poems from his other early volumes *Days and Nights* 1889 *Amoris Victima* 1897 *Images of Good and Evil* 1900 and with early poems
