Karl Marx and the Postcolonial

Age Ranabir Samaddar, 2017-09-07 This book seeks to explicitly engage Marxist and post colonial theory to place Marxism in the context of the post colonial age Those who study Marx particularly in the West often lack an understanding of post colonial realities conversely however those who fashion post colonial theory often have an inadequate understanding of Marx Many think that Marx is not relevant to critique postcolonial realities and the legacy of Marx seldom reaches the post colonial countries directly This work will read Marx in the contemporary post colonial condition and elaborate the current dynamics of post colonial capitalism It does this by analysing contemporary post colonial history and politics in the framework of inter relations between the three categories of class people and postcolonial transformation Examining the structure of power in postcolonial countries and revisiting the revolutionary theory of dual power in that context it appreciates and explains the transformative potentialities of Marx in relation to post colonial condition

Encyclopedia editor G Kurt Piehler Why Don't We Build Statues For Our War Heroes Anymore The Translatability of Revolution Pu Wang, 2020-10-20 The first comprehensive study of the lifework of Guo Moruo 1892-1978 in English this book explores the dynamics of translation revolution and historical imagination in twentieth century Chinese culture Guo was a romantic writer who eventually became Mao Zedong's last poetic interlocutor a Marxist historian who evolved into the inaugural president of China's Academy of Sciences and a leftist politician who devoted almost three decades to translating Goethe's Faust His career embedded in China's revolutionary century has generated more controversy than admiration Recent scholarship has scarcely treated his oeuvre as a whole much less touched upon his role as a translator Leaping between different genres of Guo's works and engaging many other writers' texts The Translatability of Revolution confronts two issues of revolutionary cultural politics translation and historical interpretation Part 1 focuses on the translingual making of China's revolutionary culture especially Guo's translation of Faust as a development of *Zeitgeist* Part 2 deals with Guo's rewritings of antiquity in lyrical dramatic and historiographical paleographical forms including his vernacular translation of classical Chinese poetry Interrogating the relationship between translation and historical imagination within revolutionary cultural practice this book finds a transcoding of different historical conjunctures into now time saturated with possibilities and tensions China, Football, and Development Emanuel Leite Junior, Carlos Rodrigues, 2023-08-18 This book uses football as a lens through which to examine China's economic development its political economy and its political thought Focusing on the Chinese Football Development Plan this book opens up new perspectives on the concepts of hegemony soft power socialism with Chinese characteristics and China's rise to the position of geopolitical superpower Presenting a critical Marxist analysis of soft power and drawing on Gramsci's conceptualisation of hegemony this book argues that football can be seen as a resource for seduction and persuasion and therefore as an instrument to be used in the hegemonic clash Reflecting on the idea of soft power in relation to imperialism and ideology and standing in contrast to prevailing Western orthodox analyses of Chinese development this book shows how the Chinese Football Dream is a significant component of the Chinese Dream of rejuvenation of the nation and shows how football can help us to better understand the role of the state as an inducer of development and creative destruction This is fascinating reading for anybody with an interest in sport policy public policy sport and society football development studies political economy or political thought **Globalized Knowledge Flows and Chinese Social Theory** Xiaoying Qi, 2014-01-21 This book considers the nature and possibilities of conceptual change and transformation under conditions of globalization especially with regard to Chinese social and cultural concepts It argues that the influence of globalization promotes the spread of West European and American social science concepts and methods at the expense of local concepts and approaches and at the same time paradoxically provides opportunities for the incorporation of local concepts including Chinese concepts into Western or mainstream social science **Self-determination and Minority Rights in China** Linzhu Wang, 2018-12-10 In Self-determination and Minority Rights

in China Linzhu Wang examines the rights of China's minorities from the perspective of self-determination. The book offers an insight into the ethnic issues in contemporary China by examining the principle of self-determination in shaping China's ethnic grouping and appraising the rights of the minorities and their limits. Based on a comprehensive survey of the practice of self-determination in the Chinese context and the Regional Ethnic Autonomy regime, the author seeks to answer the questions of how the ethnic policies and laws have come to be, why they are problematic, and what can be done to promote minority rights in China. Model Workers in China, 1949-1965 James Farley, 2019-06-04. Seismic changes in ideology and economic policy in China followed the death of Mao Zedong, but one aspect of culture has remained constant: the use of Model Workers for the purposes of propaganda and more recent public relations campaigns. In both a political and commercial context, the use of these individuals continues to thrive, and although the messages they promote have largely changed, their continued use indicates the extent to which they are believed to be an effective form of persuasion. Model Workers were deployed at key points in China's recent history and served to embody the Party's vision of the ideal Chinese citizen as they attempted to reshape the nation following a Century of Humiliation, a ruinous war with Japan, and a divisive civil war. This volume utilises the detailed analysis of posters, cinema, and translations of related propaganda material to explore the extent of the influence of the Model Worker as a concept on both propaganda and national policy. *East Asia and the First World War* Frank Jacob, 2022-10-24. The First World War was a truly global event that changed the course of history in many participating as well as non-participating countries. In East Asia, the war stimulated the further rise of Japan as the leading power in the region during the war, yet also its radicalization and social protests after 1918. In China and Korea, it stimulated nationalist eruptions demanding freedom and equality for the semi-colonized countries and the people living within their borders. All in all, the present book offers a concise introduction of the history of the First World War and its impact in East Asia. Routledge Handbook of Military Ethics George Lucas, 2015-05-22. The Routledge Handbook of Military Ethics is a comprehensive reference work that addresses concerns held in common by the military services of many nations. It attempts to discern both moral dilemmas and clusters of moral principles held in common by all practitioners of this profession, regardless of nation or culture. Comprising essays by contributors drawn from the four service branches: Army, Navy, Air Force, and Marine Corps, as well as civilian academics specializing in this field, this handbook discusses the relationship of ethics in the military setting to applied and professional ethics generally. Leading scholars and senior military practitioners from countries including the US, UK, France, China, Australia, and Japan discuss various national cultural views of the moral dimensions of military service. With reference to the responsibilities of professional orientation and education, as well as the challenges posed by recent technological developments, this handbook examines the difficulties underpinning the fundamental framework of military service. This book will be of much interest to students of military studies, war theory, ethics, philosophy, sociology, war and conflict studies, and security studies. *China's Twentieth Century* Wang Hui, 2016-02-23. What

must China do to become truly democratic and equitable This question animates most progressive debates about this potential superpower and in China's Twentieth Century the country's leading critic Wang Hui turns to the past for an answer Beginning with the birth of modern politics in the 1911 revolution Wang tracks the initial flourishing of political life its blossoming in the radical sixties and its decline in China's more recent liberalization to arrive at the crossroads of the present day Examining the emergence of new class divisions between ethnic groups in the context of Tibet and Xinjiang alongside the resurgence of neoliberalism through the lens of the Chongqing Incident Wang Hui argues for a revival of social democracy as the only just path for China's future

insights into contemporary China Chang Yau Hoon Associate Professor and Director Centre for Advanced Research Universiti Brunei Darussalam Modern Chinese Theologies Chloë Starr, 2024-05-07 It is well known that the Chinese church and therefore Chinese theology has been divided in the People's Republic of China into registered and unregistered churches and that while the state approved church offers theologies that align with the nation's socialist values the unregistered or house churches have tended toward an evangelical theology that is now divaricating with the resurgence of denominations in China What is less well known is that there has been a vibrant third field of Chinese theology Sino Christian theology a contested academic discourse that makes no claims to be a confessional theology This theology fostered by academics in secular Chinese universities developed in the 1990s and has grown and diversified with the increasing number of scholars researching Christianity in China This volume offers essays on the message of Chinese Christian art for example alongside textual and Christological studies The phenomenon of Sino Christian theology along with debates on its right to exist if not authored by professing Christians overlaps with broader debates on the nature of a Chinese theology and its unifying features The second part of the volume draws together nine essays on theological concerns in the Chinese diaspora These range from the nature of diasporic experience itself to studies of individual writers and from fundamentalist beliefs in Singapore to a queer theology academy in Hong Kong Although Hong Kong is part of mainland China given its history and the one country two systems policy still in place several essays on Hong Kong theologians are included here among diasporic writings Three essays focusing on Taiwanese subjects include reflections on the role of Christian philosophy in the legal thought of John C H Wu a reassessment of homeland theology in light of the nationalist resurgence and the creative theology of Yi based on the Book of Changes Yijing **The Accumulation of Waste** Ali Kadri, 2023-08-21 Phenomenal waste has surfaced as the social form and substance of value In capital's totalizing process which commodifies all that comes in its way wasting classes consume the wasted classes This book addresses the metamorphosis of value into waste and it focuses on wars as industries of perfect waste Whereas wasted man is visibly the prevalent commodity on sale this central element in the commodity relation is rarely mentioned In line with this the book examines how waste as a surrogate value eludes the crises of capital and maintains its resilience Shanghai Mundane Lei Ping, 2025-09-18 This book offers a new critical intervention into the studies of the paradox of Chinese socialism Centering on the unremovable Shanghai bourgeoisie and middle class the book brilliantly discovers Chinese society's persistent aspiration to bourgeois lifestyle and remarkable resistance to socialist ideology from the Mao era to the Xi era Shanghai Mundane offers a new critical intervention into the studies of the paradox of Chinese socialism Through the lens of contested state society relations the book challenges conventional China Studies by repositioning Shanghai as the key to decode the protracted ideological warfare between socialism and capitalism Based on significant archival ethnographic and theoretical evidence unearthed from the distinct cases of Shanghai bourgeoisie and middle class Lei Ping discovers the city's persistent aspiration to bourgeois lifestyle and

remarkable resistance to socialist ideology throughout the entire history of the People's Republic of China Ping argues that despite the socialist remolding of capitalist industry and commerce the post 1949 Chinese state failed to eradicate bourgeois heritage in the domain of everyday life in the Mao era which ironically contributed to its controversial policy reversals in the post Mao era from Deng to Xi What lies at the heart of the major intellectual conundrum namely the survival and revival of bourgeois sentiments is what Ping calls the unremovable Shanghai mundane This captivating and provocative account sheds new light on understanding the larger questions as to the crisis ridden practices of Chinese socialism and the *raison d'être* of the Chinese Communist Party in the twenty first century

Civil Society in China Karla W Simon, 2013-05-02 This is the definitive book on the legal and fiscal framework for civil society organizations CSOs in China from earliest times to the present day Civil Society in China traces the ways in which laws and regulations have shaped civil society over the 5 000 years of China's history and looks at ways in which social and economic history have affected the legal changes that have occurred over the millennia This book provides an historical and current analysis of the legal framework for civil society and citizen participation in China focusing not merely on legal analysis but also on the ways in which the legal framework influenced and was influenced in turn by social and economic developments The principal emphasis is on ways in which the Chinese people as opposed to high ranking officials or cadres have been able to play a part in the social and economic development of China through the associations in which they participate Civil Society in China sums up this rather complex journey through Chinese legal social and political history by assessing the ways in which social economic and legal system reforms in today's China are bound to have an impact on civil society The changes that have occurred in China's civil society since the late 1980's and most especially since the late 1990's are nothing short of remarkable This volume is an essential guide for lawyers and scholars seeking an in depth understanding of social life in China written by one of its leading experts

A Post-Colonial Enquiry into Europe's Debt and Migration Crisis Ranabir Samaddar, 2016-10-10 This important and topical volume is composed around the debt and migration crisis in Europe in 2015 known as the Greece crisis and written almost concurrently as the two crises developed in quick succession The central argument here is that Europe's present crisis suggests a post colonial bind or to put in stronger terms a post colonial destiny of Europe The European situation bears remarkable similarity with the post colonial condition elsewhere in the world and suggests a strong bond between Europe's present situation and the post colonial bind in which much of the world finds itself The purpose of this volume is to examine in the light of 21st century capitalism notions such as debt crisis rupture dialogue mobilization neo liberalism war and migration and the old never to be settled question of ideology The volume ends with reflections on Europe's migration crisis and reinforces the point that a critical post colonial sense of history accumulation globalization and the resilience of the nation form will help us reflect on the present European crisis and draw appropriate lessons
