Giroux, 2019-12-03 An accessible examination of neoliberalism and its effects on higher education and America by the author of *American Nightmare* Neoliberalism's War on Higher Education reveals how neoliberal policies practices and modes of material and symbolic violence have radically reshaped the mission and practice of higher education short changing a generation of young people Giroux exposes the corporate forces at play and charts a clear minded and inspired course of action out of the shadows of market driven education policy Championing the youth around the globe who have dared to resist the bartering of their future he calls upon public intellectuals as well as all people concerned about the future of democracy to speak out and defend the university as a site of critical learning and democratic promise Giroux has focused his keen intellect on the hostile corporate takeover of higher education in North America He is relentless in his defense of a society that requires its citizenry to place its cultural political and economic institutions in context so they can be interrogated and held truly accountable We are fortunate to have such a prolific writer and deep thinker to challenge us all Karen Lewis President Chicago Teachers Union No one has been better than Giroux at analyzing the many ways in which neoliberalism has damaged the American economy and undermined its democratic processes Bob Herbert Distinguished Senior Fellow at Demos Giroux dares us to reevaluate the significance of public pedagogy as integral to any viable notion of democratic participation and social responsibility Anybody who is remotely interested in the plight of future generations must read this book Dr Brad Evans Director Histories of Violence website

**Representing the Holocaust in Children's Literature** Lydia Kokkola, 2013-10-15 Writing about the Holocaust and writing for young readers evoke two quite separate sets of concerns which are not always mutually compatible The first half of *Representing the Holocaust* focuses on how literary material can present historically verifiable material The second half examines how such materials will be perceived by young readers whether they will be able to determine any boundaries between fictionality and factuality and what motivates young readers to keep reading The work concludes by placing the

Sandison, 1996-05-21 Despite attracting the admiration of Modernists like Nabokov and Borges Stevenson remains for many an apologist for the lost world of the romance This is not only to misread and simplify his fiction it is greatly to undervalue his lively forward looking literary essays Strenuously resisting the authority of the literary fathers though haunted by the complexities of paternity Stevenson reveals strong affinities with emergent Modernism It is from this perspective that Alan Sandison's latest book the first to appear for nearly thirty years conducts a lively and readable re-examination of this often underrated writer      The

**The Melancholy of Race** Anne Anlin Cheng, 2001 Cheng proposes that racial identification is itself already a melancholic act a social category that is imaginatively supported through a dynamic of loss and compensation by which the racial other is at once rejected and retained Using psychoanalytic theories on mourning and melancholia as inroads into her subject Cheng offers a closely observed and carefully reasoned account of the minority experience as expressed in works of art by and about Asian Americans and African Americans She argues that the racial minority and dominant American culture both suffer from racial melancholia and that this insight is crucial to a productive reimagining of progressive politics

**Art Criticism and Modernism in the United States** Stephen Moonie, 2022-03-22 This study is an analysis of high and late modernist criticism in New York during the 1960s and early 1970s Through a close reading of a selection of key critics of the period which will expand the remit beyond the canonical texts the book examines the ways that modernist criticism's discourse remains of especial disciplinary interest Despite its alleged narrowness and exclusion the debates of the 1960s raised fundamental questions concerning the nature of art writing Those include arguments around the nature of value and judgement the relationship between art criticism and art history and the related problem of what we mean by the contemporary Stephen Moonie argues that within those often fractious debates there exists a shared discourse And further contrary to the current consensus that modernists were elitist dogmatic and irrelevant to contemporary debates on art the study shows that there is much that we can learn from reconsidering their writings The book will be of interest to scholars working in art history modern art art criticism and literary studies

**Robert Lowell's Imitations and the Cold War** Simon van Schalkwyk, 2025-08-07 The first book length study focusing on Robert Lowell's career long preoccupation with the liberal mode of translational adaptation known as imitation Robert Lowell's Imitations and the Cold War argues that Lowell's imitations are simultaneously symptomatic of

and critically responsive to familiar nodes of Cold War ideology such as containment and contamination secrecy and security post imperial U S expansion and Empire It departs from studies focused solely on Imitations 1961 Lowell s book length collection of translational adaptations by demonstrating how imitation shadows Lowell s work from his earliest collections Land of Unlikeness 1944 and Lord Weary s Castle 1946 through his celebrated mid career collections Life Studies 1959 and For the Union Dead 1964 and to later works such as Near the Ocean 1969 and his contributions of adaptations from the Russian of Anna Akhmatova and Osip Mandelstam collected in Olga Carlisle s anthology Poets on Street Corners 1967 Simon van Schalkwyk excavates the imitational substrate undergirding and informing Lowell s compositional method and poetic imagination throughout the course of his career In so doing he shows how imitation enacts at the level of form Lowell s restless investment in Cold War geopolitics and literary networks in ways that inform develop and complicate his more conventional canonization as an unquestionably American poet preoccupied solely and simplistically with personal or autobiographical modes of poetic confession As literary sites at which containment s dualities porosities leakages and contaminants are most clearly displayed Lowell s imitations simultaneously challenge and develop our understanding of confession s presumably strict preoccupation with the personal regional and national frameworks through which Lowell has commonly been understood

*Philip Roth Considered* Steven Milowitz, 2015-12-22 This book comprehensively surveys Philip Roth s published and unpublished works focusing on the thematic unity which binds them together the memory of the Holocaust and the altered universe born of that memory The Holocaust is understood as the orienting event for Roth s fiction and non fiction the force that surrounds the characters and the narratives at all times Roth s obsession with questions of the Holocaust questions of responsibility meaning and powerlessness explains his recurring discussion of entrapment dehumanization nihilism guilt and coercion The concentrationary universe of the title is defined in this work as not only the universe of camps but also the universe that exists after the devastation Moral and philosophical norms are revoked in this new world Roth s early works are presented on a desolate landscape The introduction explicates this landscape specifically by invoking an early play of Roth s a play which is set in a Jewish ghetto during the Holocaust This unpublished work introduces the historical period that shapes the visions of Roth s future protagonists The next three chapters study Roth s relentless excavation of the dilemmas of fathers mothers authority figures and the inner discord of need and purpose These seemingly quotidian problems are exacerbated and intensified by the Holocaust s shadowy presence No relationship no effort at fulfillment no action is untempered by history in Roth s varied fictions Chapters four and five look directly at Roth s allusions to the Holocaust They explore through each of Roth s works how the Holocaust thematic the play of ideology and nihilism and the Holocaust pattern the idea of the past encroaching upon the present work through Roth s career informing his readers not only of his fascination with the Holocaust but of his particularly human way of dealing with it The last chapter briefly summarizes the findings of the previous chapter and connects Roth s specific concentrationary universe to the larger

world The linguistic clues of Roth's novels are revealed and investigated pointing to Roth's celebration of ambiguity and individuality as parts of an imperfect formula for writing and living in the debased aftermath of the Holocaust
