scathingly original voice Rather than adopt the conventional self effacement that defined female poets of the time l Aubespine s speakers are sexual dominant and defiant and her subjects are women who are able to manipulate rebuke and even humiliate men Unavailable in English until now and only recently identified from scattered and sometimes misattributed sources l Aubespine s poems and literary works are presented here in Anna Klosowska s vibrant translation This collection which features one of the first French lesbian sonnets as well as reproductions of l Aubespine s poetic translations of Ovid and Ariosto will be heralded by students and scholars in literature history and women s studies as an important addition to the Renaissance canon **Selected Works Vol. 1** Alford Edersheim,2015-11-29 You are about to embark upon a simple and

impartial account of Judaism on the one hand and a perusal of the Gospels on the other constituting one of the most convincing proofs of the Divine origin of the Christian religion and of its organic connection with that of the Old Testament Again it is impossible to read the Gospel narrative in the light of Jewish history without feeling that the notions and circumstances to which it alludes are exactly those of the time in which Jesus Christ lived and taught on earth They apply to that period and to that period only The notions the modes of speaking the opposition and its very manner to which the New Testament refers are exactly those of that period If a copy of the Gospels were put into the hands of an impartial Jewish historian he could not fail to discover that the events there chronicled must have taken place exactly at the time when according to Christian belief Jesus walked among men This is the legacy of A Edersheim Selected Philosophical and Scientific Writings Emilie Du Châtelet,2009-09-15 Though most historians remember her as the mistress of Voltaire Emilie Du Ch telet 1706 49 was an accomplished writer in her own right who published multiple editions of her scientific writings during her lifetime as well as a translation of Newton s Principia Mathematica that is still the standard edition of that work in French Had she been a man her reputation as a member of the eighteenth century French intellectual elite would have been assured In the 1970s feminist historians of science began the slow work of recovering Du Ch telet s writings and her contributions to history and philosophy For this edition Judith P Zinsser has selected key sections from Du Ch telet s published and unpublished works as well as related correspondence part of her little known critique of the Old and New Testaments and a treatise on happiness that is a refreshingly uncensored piece of autobiography making all of them available for the first time in English The resulting volume will recover Ch telet s place in the pantheon of French letters and culture
